Bewinner [MI]

Bewinner Car Mouse User Manual

Model: [MI] - 2.4G Wireless Optical Mouse

INTRODUCTION

This manual provides instructions for the Bewinner Car Mouse, a 2.4G wireless optical mouse designed for use with laptops, PCs, and tablets. Its unique car-shaped design combines functionality with an aesthetic appeal. Please read this manual thoroughly before using the product to ensure proper operation and longevity.

PRODUCT FEATURES

- **2.4G Wireless Technology:** Offers stable and smooth transmission with a range of up to 10 meters.
- **High Precision Optical Sensor:** Provides up to 1600 DPI for accurate tracking, suitable for daily office tasks and general use.
- **Plug and Play:** Easy setup with a USB receiver, requiring no additional drivers.
- **Ergonomic Car Design:** Unique and comfortable car shape.
- **Integrated USB Receiver Storage:** A dedicated compartment at the bottom of the mouse for convenient storage of the USB receiver.
- **Three Buttons:** Standard left-click, right-click, and scroll wheel button functionality.

SETUP GUIDE

1. Insert Batteries:

Locate the battery compartment on the underside of the mouse. Open the cover and insert two AAA batteries (not included), ensuring correct polarity (+/-). Close the battery compartment cover securely.

USB Receiver

The bottom of the mouse is equipped with a receiver storage compartment to store the pouched USB receiver

Image: The bottom of the car mouse with the battery compartment open, showing where to insert batteries and the storage slot for the USB receiver.

2. Retrieve USB Receiver:

The USB receiver is stored in a dedicated slot within the battery compartment for safekeeping. Gently remove it.

3. Connect USB Receiver:

Plug the USB receiver into an available USB port on your computer, laptop, or tablet. The system should automatically detect and install the necessary drivers.

2.4G

Wireless connection for
easy operation

4. Power On the Mouse:

Locate the power switch on the underside of the mouse and slide it to the "ON" position. The mouse is now ready for use.

OPERATING INSTRUCTIONS

- **Basic Movement:** Move the mouse across a flat surface to control the cursor on your screen.
- **Left-Click:** Press the left button for primary selections and actions.
- **Right-Click:** Press the right button to access contextual menus.
- **Scroll Wheel:** Roll the scroll wheel up or down to navigate through documents or web pages. Press the scroll wheel for middle-click functionality (if supported by your software).

Plug & Play

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the mouse. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the device.
- **Battery Replacement:** Replace batteries when the mouse performance degrades or it stops responding. Always use fresh batteries of the specified type (AAA).
- **Storage:** When not in use for extended periods, turn off the mouse to conserve battery life. Store the USB receiver in its dedicated compartment to prevent loss.
- **Avoid Extreme Conditions:** Do not expose the mouse to extreme temperatures, direct sunlight, or excessive moisture.

TROUBLESHOOTING

Problem	Solution
Mouse not responding	<ol style="list-style-type: none">1. Ensure the mouse is powered on.2. Check if the batteries are correctly inserted and have sufficient charge. Replace if necessary.3. Verify the USB receiver is securely plugged into a working USB port. Try a different USB port.4. Re-pair the mouse and receiver if possible (some models have a re-pairing button, though not specified for this model).
Cursor movement is erratic or slow	<ol style="list-style-type: none">1. Clean the optical sensor on the underside of the mouse.2. Use the mouse on a clean, non-reflective, and uniform surface.3. Ensure the mouse is within the 10-meter operating range of the USB receiver.4. Check for interference from other wireless devices.
Connection frequently drops	<ol style="list-style-type: none">1. Move the mouse closer to the USB receiver.2. Avoid placing large metal objects or other wireless devices between the mouse and receiver.3. Replace batteries.
