ALFAJR WR-02

ALFAJR WR-02 Digital Watch User Manual

Model: WR-02

1. Introduction

This manual provides detailed instructions for the setup, operation, and maintenance of your ALFAJR WR-02 Digital Watch. Please read this manual carefully to ensure proper use and to fully utilize all features of your watch.

2. Product Overview

The ALFAJR WR-02 is a sophisticated digital watch designed with various features to assist in daily life, particularly for prayer times and related functions. It features a durable stainless steel construction and a clear FSTN LCD display.

A front view of the ALFAJR WR-02 digital watch with a silver stainless steel band. The display shows '22 MAR', '10:30', and '4:25' with a crescent moon icon, indicating date, current time, and a prayer time.

3. Key Features

- **Azan Times:** Pre-programmed for major cities worldwide, with custom programming options using latitude, longitude, and GMT. Accurate calculation based on local taqweem systems.
- **Prayer Reminders:** Six independent prayer reminder alarms, adjustable to ring before or after each Azan, automatically adjusting with Azan time changes.
- **Qibla Direction:** Displays Qibla direction relative to North, Sun, or Moon. Includes moon age display.
- **Hijri and Gregorian Calendars:** Option to display either calendar. Hijri calendar follows Gregorian date and is based on astronomical moon sighting at Mecca.
- **Qur'an Bookmark:** Records the last Sura name and Verse number reached during Qur'an reading.
- **Daily Alarms:** Additional daily alarms available.
- **Bilingual Display:** Supports Arabic and English languages.
- **Time Format:** 12-hour (AM/PM) or 24-hour format.

- **Azan Minutes Display:** Can display the number of minutes after the current Azan (up to 30 minutes).
- **Stop Watch:** Integrated stopwatch function.
- **Daylight Saving Time:** Option for daylight saving time adjustment.
- **Battery Level Indicator:** Displays current battery status.

4. Setup Instructions

4.1 Initial Power On and Time Setting

1. Upon first use or after battery replacement, the watch may prompt for initial setup.
2. Use the designated buttons (refer to watch diagram, typically on the sides) to navigate through the setup menu.
3. Set the current time (hours, minutes, seconds) and date (day, month, year).
4. Select your preferred time format (12-hour AM/PM or 24-hour).

4.2 City and Location Programming

1. Access the 'City Settings' or 'Location' menu.
2. Select your city from the pre-programmed list.
3. If your city is not listed, you can manually program it by entering its latitude, longitude, and GMT offset. Consult a reliable source for accurate geographical data.
4. Choose the appropriate taqweem system for your region. The watch defaults to the local taqweem or the most widely used system for your city. Other standard taqweem systems are available for selection.

4.3 Language Selection

1. Navigate to the 'Language' settings.
2. Select either Arabic or English for the display language.

5. Operating Instructions

5.1 Azan Times and Prayer Reminders

1. The watch automatically calculates and displays Azan times based on your programmed location and taqweem system.
2. To set prayer reminders: Access the 'Prayer Alarm' menu. You can set up to six independent alarms for each prayer.
3. Adjust each reminder to sound a specific number of minutes before or after the corresponding Azan time. These alarms will automatically adjust as Azan times change.

5.2 Qibla Direction

1. Enter the 'Qibla' mode.
2. The watch will display the Qibla direction. For best accuracy, ensure you are in an open area away from strong magnetic fields.
3. The display can show direction relative to North, Sun, or Moon.
4. This mode also provides information on the age of the moon.

5.3 Calendar Display

1. Toggle between Gregorian and Hijri calendar displays using the designated button (e.g., 'Mode' or 'Display').
2. The Hijri calendar is synchronized with the Gregorian date and based on astronomical moon sighting at Mecca.

5.4 Qur'an Bookmark

1. To use the Qur'an bookmark feature, navigate to the 'Qur'an Bookmark' menu.
2. Input the Sura name and Verse number you wish to mark. The watch will store this information for future reference.

5.5 Daily Alarms

1. In addition to prayer alarms, you can set standard daily alarms.
2. Access the 'Daily Alarm' menu and set the desired time for the alarm to sound.

5.6 Stopwatch

1. Enter 'Stopwatch' mode.
2. Use the start/stop button to begin and pause timing.
3. Use the reset button to clear the stopwatch.

5.7 Daylight Saving Time (DST)

1. If your region observes Daylight Saving Time, you can enable or disable this option in the settings menu.
2. Enabling DST will automatically adjust the watch time by one hour.

6. Maintenance

6.1 Water Resistance

The ALFAJR WR-02 watch is Water Resistant (3 ATM). This means it is suitable for everyday use and can withstand splashes or brief immersion in water. It is **not** suitable for swimming, showering, or diving. Avoid pressing buttons while the watch is wet.

6.2 Cleaning

Clean the watch case and band regularly with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid using harsh chemicals or abrasive materials.

6.3 Battery Replacement

When the battery level indicator shows low power, it is recommended to replace the battery promptly. Battery replacement should ideally be performed by a qualified watch technician to ensure proper sealing and water resistance integrity.

7. Troubleshooting

- **Display is blank or dim:** Check the battery level indicator. If low, replace the battery. Ensure the watch is not exposed to extreme temperatures.
- **Buttons are unresponsive:** Ensure the watch is not in a locked mode. If the issue persists, a soft reset (if available, refer to specific watch button combinations) or battery removal/reinsertion might be necessary.
- **Incorrect Azan times:** Verify that the correct city, latitude, longitude, GMT, and taqweem system are programmed in the watch settings. Ensure the date and time are set accurately.

- **Qibla direction seems inaccurate:** Ensure you are in an open area away from strong magnetic fields (e.g., large electronic devices, metal structures). Recalibrate the Qibla direction if the watch offers this function.

For persistent issues, please contact customer support.

8. Specifications

Feature	Specification
Model Number	WR-02
Case Material	Stainless Steel
Band Material	Stainless Steel
Display Type	Crystal FSTN LCD with Blue EL Back Light
Movement Type	Quartz
Water Resistance	3 ATM
Case Size	35.3 mm (diameter)
Case Thickness	15 mm
Band Width	20 mm
Weight	75 gm (watch only), 222 g (product dimensions weight)
Product Dimensions	7.4 x 10.6 x 8.4 cm (packaging)

9. Warranty and Support

For warranty information, please refer to the warranty card included with your purchase or contact your retailer. For technical support or further assistance, please reach out to ALFAJR customer service through their official channels.
