### 3. Operating and Usage

The Graco Hadley crib is designed to adapt to your growing baby with its adjustable mattress support base. It offers three different height options to ensure safety and convenience as your child develops.

- **Highest Position:** Ideal for newborns and infants who cannot yet push up on their hands and knees. This position allows for easy access to your baby.
- **Middle Position:** Use when your baby begins to sit up independently.
- **Lowest Position:** Essential when your child can stand up. This position prevents your child from climbing out of the crib. The crib may be used until your child can easily climb out or is taller than 35 inches (89 cm).

The integrated full-size storage drawer provides convenient space for nursery essentials such as extra sheets, blankets, or pajamas, helping to keep the nursery organized.
