Keonjinn B07MNDTY9C

Keonjinn LED Bathroom Mirror 28" x 36" User Manual

Model: B07MNDTY9C

1. INTRODUCTION

Thank you for choosing the Keonjinn LED Bathroom Mirror. This manual provides essential information for the safe installation, operation, and maintenance of your new mirror. Please read it thoroughly before installation and keep it for future reference.

Image: The Keonjinn LED Bathroom Mirror, 28 inches by 36 inches, featuring integrated lighting and a sleek design.

2. KEY FEATURES

- **Enhanced Illumination & Energy Efficiency:** Equipped with frontlit and backlit LED technology, providing bright illumination while reducing power consumption by up to 32.8%.
- **Customizable Lighting:** Offers 3 color temperatures (Warm/Neutral/Daylight) and smooth stepless dimming.
- **Memory Function:** Recalls your last lighting setting (brightness and color temperature) upon reactivation.
- **Premium Safety Build:** Constructed with HD tempered glass and a shatter-proof film for enhanced safety and clear reflection. The back structure protects internal components from moisture.
- **UL-Certified Anti-Fog System:** Quickly and evenly clears steam. The defogger automatically shuts off after one hour of continuous use for safety and durability.

3. SAFETY INFORMATION

Please observe the following safety precautions during installation and use:

- Always turn off the electricity mains before beginning installation.
- Wear safety glasses to protect your eyes during installation.
- It is highly recommended to have a professional electrician perform the installation to ensure safety and proper functionality.
- The mirror is made with 4mm high-quality tempered glass and a shatter-proof film for safety.
- The defogger automatically shuts off after one hour of continuous use.
- The mirror features a closed backboard to protect internal components from moisture and ensure safety.

4. PACKAGE CONTENTS

Your Keonjinn LED Bathroom Mirror package includes:

- Keonjinn LED Bathroom Mirror (1 unit)
- Accessory kit for installation (including French cleat brackets and screws)
- UL/FCC Listed Power Driver (pre-installed or included)
- Power cord (for plug-in option)

Sturdy Multi-layer Packaging

- 1 Accessory kit
- 2 Enhanced EVA Corner Protector
- 3 Thick styrofoam boards

Image: The mirror is secured with sturdy multi-layer packaging, including an accessory kit, enhanced EVA corner protectors, and thick styrofoam boards.

5. SETUP AND INSTALLATION

The Keonjinn LED Bathroom Mirror is designed for effortless installation using a French cleat system. It can be hung either vertically or horizontally and offers both plug-in and hardwired options.

5.1 Choosing the Right Size and Orientation

Consider the dimensions of your vanity and the surrounding space. For optimal aesthetics, the mirror's width should be slightly narrower or the same width as your vanity. The top of the mirror should ideally be about 3 inches below the ceiling light, and the bottom 1-3 inches above the faucet.

STRUGGLING WITH SIZE?

Tips for Selecting the Right Mirror Size:

- **Width:**
slightly narrower or the same width as your vanity;
- **Height:**
Top: a better choice to leave about 3 inches below the ceiling light;
Bottom: 1-3 inches above the faucet is recommended

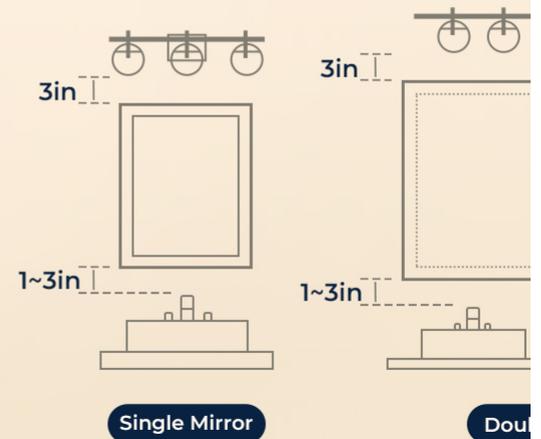

Image: A visual guide illustrating recommended mirror sizing for single and double vanities, including spacing from ceiling lights and faucets.

Image: The mirror can be installed in two ways: vertically or horizontally, to suit different bathroom layouts.

5.2 French Cleat Installation Steps

1. **Mark and Prepare:** Mark the desired spots on the wall for drilling. Punch holes and apply wall anchors as needed.
2. **Secure Brackets:** Secure the two French cleat brackets to the wall using the provided screws. Ensure they are level and firmly attached.
3. **Hang Mirror:** Carefully slot the mirror onto the brackets, ensuring it hangs securely.

Image: A three-step visual guide demonstrating the French cleat installation process: marking, securing brackets, and hanging the mirror.

5.3 Wiring Options

The mirror supports two wiring methods:

- **Plug-in:** The plug is pre-connected, making installation straightforward. Simply plug it into a standard wall outlet.
- **Hardwired:** For a seamless look, you can cut the head off the plug and hardwire it into a junction box. **Caution:** If hardwiring is required, please consult a professional electrician if you are unsure how to proceed.

Two Wiring Method

6. OPERATING INSTRUCTIONS

Your Keonjinn LED Bathroom Mirror features intuitive touch controls integrated directly into the mirror surface.

6.1 Power On/Off and Brightness Adjustment

- **Power On/Off:** Tap the power button icon on the mirror surface to turn the lights on or off.
- **Brightness Adjustment (Dimming):** Press and hold the power button icon to smoothly adjust the brightness from 10% to 100%. Release when the desired brightness is reached.
- **Memory Function:** The mirror will remember your last brightness and color temperature setting when turned off and on again.

Image: The mirror demonstrating its dimmable feature, allowing users to adjust light intensity from 5% to 100% by long-pressing the button.

Memory Function

Remember the last setting when you turn it on again

Image: The mirror's memory function, which retains the last brightness and color temperature settings when the mirror is turned off and on again.

6.2 Color Temperature Selection

- **Change Color Temperature:** Tap the color temperature icon (often next to the power button) to cycle through the 3 available color temperatures: Warm (3000K), Neutral (4500K), and Daylight (6500K).

6.3 Anti-Fog Function

- **Activate Anti-Fog:** Tap the anti-fog button icon to activate the defogging function. The icon will illuminate when active.
- **Automatic Shut-off:** The defogger will automatically turn off after one hour of continuous operation.

7. MAINTENANCE

To ensure the longevity and optimal performance of your Keonjinn LED Bathroom Mirror, follow these maintenance guidelines:

- **Cleaning:** Use a soft, damp cloth with a mild glass cleaner to wipe the mirror surface. Avoid abrasive cleaners or harsh chemicals that could damage the mirror or its components.
- **Electrical Safety:** Before cleaning or performing any maintenance, always ensure the power to the mirror is turned off at the main circuit breaker.
- **Inspection:** Periodically inspect the wiring and mounting hardware to ensure everything remains secure.

8. TROUBLESHOOTING

If you encounter any issues with your mirror, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Lights do not turn on.	No power supply; loose connection; faulty switch.	Check main power supply and circuit breaker. Ensure all connections are secure. Test the wall switch if applicable.
Anti-fog function not working.	Anti-fog function not activated; power issue.	Tap the anti-fog button to activate. Check power supply to the mirror.
Lights flicker or dim unexpectedly.	Unstable power supply; loose wiring connection.	Ensure stable power. Check wiring connections (consult an electrician if unsure).

If the problem persists after trying these steps, please contact Keonjinn customer support.

9. SPECIFICATIONS

- **Brand:** Keonjinn
- **Model:** B07MNDTY9C
- **Product Dimensions:** 36"L x 28"W
- **Shape:** Rectangular
- **Material:** 4mm High Quality Tempered Glass
- **Frame Material:** Aluminum
- **Mounting Type:** Wall Mount (French Cleat)
- **Special Features:** Frameless, Glass, Lighted, Touch Sensor, Anti-Fog, Dimmable, Memory Function
