› Logitech G935 Wireless DTS:X 7.1 Surround Sound LIGHTSYNC RGB PC Gaming Headset - Black/Blue G935 Only

Logitech G 981-000742

Logitech G935 Wireless DTS:X 7.1 Surround Sound LIGHTSYNC RGB PC Gaming Headset User Manual

Brand: Logitech G

INTRODUCTION

The Logitech G935 is an advanced wireless gaming headset designed to provide an immersive audio experience. It features 50mm Pro-G drivers for detailed sound, LIGHTSYNC RGB lighting for customizable aesthetics, and DTS Headphone:X 2.0 surround sound for precise positional audio. This manual provides comprehensive instructions for setting up, operating, and maintaining your headset.

KEY FEATURES

- **Advanced Wireless Connectivity:** 2.4 GHz wireless technology provides premium sound quality, freedom of movement, and a clean, wire-free setup.
- **50mm Pro-G Drivers:** Large drivers made of woven hybrid mesh are designed to reduce distortion, allowing for greater detail in the game environment.
- **LIGHTSYNC RGB Lighting:** Fully customizable RGB lighting that can react to in-game action on supported games. Customization is available through Logitech G Hub software.
- **DTS Headphone:X 2.0 Surround Sound:** Delivers precise positional 3D soundscapes, enhancing immersion by allowing users to pinpoint audio cues like enemy footsteps or special abilities.

- **Enhanced 6mm Flip-to-Mute Microphone:** Provides clear communication and features a convenient flip-to-mute function.
- **Long Battery Life:** Offers up to 12 hours of playtime without lighting, and 8 hours with default lighting.
- **Programmable G-Keys:** Headset includes programmable G-keys for custom commands and macros.

WHAT'S IN THE BOX

- G935 headset
- USB wireless receiver
- Micro-USB charging cable
- 3.5 mm audio cable

SETUP

Initial Connection

1. Insert the USB wireless receiver into an available USB port on your PC, PlayStation 4, or PlayStation 5.

2. Turn on the Logitech G935 headset by sliding the power switch located on the left earcup.
3. The headset should automatically connect to the USB wireless receiver. A solid blue light on the receiver indicates a successful connection.
4. For optimal performance and customization, download and install the Logitech G Hub software from the official Logitech G website. This software is compatible with Windows 7 or later, macOS 10.11 or later, and Chrome OS.

Charging the Headset

Connect the Micro-USB charging cable to the charging port on the headset and the other end to a USB power source. The LED indicator on the headset will show charging status. A full charge takes approximately 2 hours.

OPERATING INSTRUCTIONS

Microphone Usage

The 6mm microphone can be flipped down for use and flipped up to automatically mute. A red LED on the microphone indicates it is muted.

LOUD & CLEAR 6MM MIC

A close-up photograph of the Logitech G935 headset. The focus is on the 6mm microphone boom, which is black and has a silver mesh grille. The boom is attached to a black plastic housing that features the glowing blue Logitech G logo. The background is dark and out of focus, showing parts of the headset's earcup and the texture of the earpad.

PRECISE VOICE COMMS AND FLIP TO MUTE

Figure 6: Close-up of the G935's 6mm microphone, emphasizing its clarity for voice communications and the convenient flip-to-mute feature.

Volume and Controls

Volume can be adjusted using the scroll wheel located on the left earcup. The headset also features programmable G-keys (G1, G2, G3) that can be customized via the Logitech G Hub software for various functions such as audio profiles, media controls, or in-game macros.

LIGHTSYNC RGB Customization

Utilize the Logitech G Hub software to customize the LIGHTSYNC RGB lighting. You can choose from approximately 16.8 million colors, synchronize lighting effects with other Logitech G devices, or set lighting to react to in-game actions.

LIGHTSYNC RGB

A close-up, angled view of the Logitech G935 headset. The headset is dark-colored with a textured, leather-like finish on the ear cup. It features several buttons on the side, including a large 'G3' button and a 'G2' button. A series of curved, overlapping lines in a spectrum of colors (blue, purple, pink, orange, yellow) emanate from the side of the headset, representing the LIGHTSYNC RGB lighting. The background is dark.

FULLY-CUSTOMIZABLE WITH ~16.8M COLORS

Figure 7: The G935 headset displaying its vibrant, fully customizable LIGHTSYNC RGB lighting with a spectrum of colors.

Audio Settings and EQ

The Logitech G Hub software allows for detailed customization of audio settings, including equalizer (EQ) profiles. You can create custom EQ settings to optimize sound for different games, music, or communication needs.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid abrasive cleaners or solvents. For the earcups, gently wipe with a damp cloth and allow to air dry completely.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the headset frequently. Charge it regularly, even if not in constant use.

TROUBLESHOOTING

Issue	Possible Solution
-------	-------------------

Issue	Possible Solution
No audio or intermittent connection	Ensure the USB wireless receiver is securely plugged into a working USB port. Verify the headset is powered on and fully charged. Check that the headset is selected as the default audio output device in your operating system's sound settings. Try moving closer to the USB receiver to ensure you are within the 15-meter indoor wireless range. Restart your computer or gaming console.
Microphone not working	Ensure the microphone is flipped down and not in the muted position. Check the microphone settings in your operating system and communication software (e.g., Discord, game settings) to ensure the G935 microphone is selected and not muted. Adjust microphone gain settings in Logitech G Hub or your system's sound settings.
RGB lighting not functioning or customizable	Ensure Logitech G Hub software is installed and running. Check lighting settings within G Hub to ensure effects are enabled and configured as desired. Update G Hub software to the latest version.
Short battery life	Reduce the brightness or complexity of LIGHTSYNC RGB lighting effects, as these consume more power. Ensure the headset is fully charged before use. If the issue persists, consider contacting customer support.

SPECIFICATIONS

Feature	Detail
Model Name	Wireless 7.1 Surround Sound LIGHTSYNC Gaming Headset
Connectivity Technology	Wired, Wireless
Wireless Communication Technology	Wireless (2.4 GHz)
Audio Driver Size	50mm Pro-G
