3. Setup

1. **Place the Gameboard:** Unfold the gameboard and place it in the center of the playing area.
2. **HP Chips:** Place the 90 plastic HP chips (50 fives and 40 ones) in a designated area near the board to form the Bank.
3. **Character Selection:** Each player chooses one Character Token to represent their Group Leader. Then, each player drafts two additional Character Cards to form a team of three heroes (one Group Leader, two Character Cards).
4. **Card Placement:** Shuffle the Objective Cards and place them face down on their designated space on the board. Do the same for the Loot Box Cards.
5. **Dice:** Keep the Numbered Die and Ability Die accessible to all players.
6. **Starting Position:** All players place their chosen Group Leader token on the GO space.

4. Gameplay

The objective of the game is to earn the highest score by capturing objectives and collecting Loot Boxes. The game ends when the last Loot Box is taken.

Player Turn Sequence:

1. **Roll Dice:** Roll both the Numbered Die and the Ability Die.
2. **Move Token:** Move your Group Leader token clockwise the number of spaces indicated on the Numbered Die.
3. **Activate Ability:** Use the ability of one of your active characters (Group Leader or Character Cards) based on the symbol rolled on the Ability Die. Each character has unique abilities (Damage, Support, Tank).
4. **Land on Space:** Follow the instructions of the space your token lands on. This may involve capturing objectives, paying HP, or collecting Loot Boxes.
5. **Pass GO:** When you pass or land on GO, collect 2 HP and 1 Loot Box.

Winning the Game:

The game concludes when the last Loot Box is collected. Players then tally their scores based on captured objectives and points from Loot Boxes. The player with the highest total score wins.

5. Special Game Mechanics

- **HP Chips:** Health Point (HP) chips replace traditional Monopoly money. Players use HP to pay for actions and gain HP from the Bank.
- **Character Abilities:** Each character (Group Leader and Character Cards) possesses unique abilities that can be activated during a player's turn. These abilities can affect other players, grant advantages, or provide HP.
- **Loot Boxes:** Loot Boxes provide bonus points at the end of the game. Collect them by passing GO or landing on specific spaces.
- **Elimination and Respawn:** If a character is eliminated (e.g., by losing all HP), their card is flipped face down. To respawn an eliminated character, a player must pass GO.
- **Objectives:** Instead of properties, players capture objectives from fan-favorite maps. These objectives contribute to the final score.

6. Maintenance

To ensure the longevity of your Monopoly Gamer Overwatch Collector's Edition board game, follow these maintenance guidelines:

- **Storage:** Store all game components in their original box in a cool, dry place away from direct sunlight.
- **Cleaning:** Gently wipe game pieces and the board with a dry, soft cloth if they become dusty. Avoid using liquids or abrasive cleaners.
- **Handling:** Handle cards and tokens with care to prevent bending, tearing, or damage to painted surfaces.

7. Troubleshooting
