Yescom 11Pack WiFi Smart LED Light Kit User Manual

Model: 50LITSET005-10 | Brand: Yescom

INTRODUCTION

Thank you for purchasing the Yescom 11Pack WiFi Smart LED Light Kit. This kit allows you to create personalized lighting shapes with vibrant colors and dynamic effects, controllable via smartphone app or voice commands. This manual provides essential information for setup, operation, and maintenance to ensure optimal performance and enjoyment of your new smart lighting system.

PRODUCT OVERVIEW

The Yescom Smart LED Light Kit features hexagonal light panels designed for creative and customizable illumination. Key features include:

- **Smart Control:** Compatible with Amazon Alexa, Google Assistant, and Razer Synapse 3 for voice control and app customization.
- **Vibrant Colors & Effects:** Offers up to 16 million colors and 70 dynamic effects for smooth flowing and gradient color transitions.
- **Music Sync Mode:** Lights can dance to the rhythm of your music, creating an immersive audio-visual experience.
- **Creative Decoration:** Honeycomb structure allows for seamless connection and creation of personalized lighting shapes for various spaces.
- **Portable Design:** Includes a base for standalone use, making it suitable for outdoor parties, camping, and RVs.
- **Interactive Touch Mode:** Change light effects with a simple touch.

Wattage	5 Watts
Connectivity Technology	USB, Wi-Fi (2.4GHz only), Bluetooth
Control Method	App, Touch, Voice (Amazon Alexa, Google Assistant)
Lifespan	Up to 20,000 hours
Certifications	CE, RoHs, FCC

SETUP GUIDE

Follow these steps to set up your Yescom Smart LED Light Kit:

- Unpack Components:** Carefully remove all light panels, connectors, power adapter, and base from the packaging.
- Assemble Panels:** Connect the hexagonal light panels together using the provided connectors to form your desired shape. Ensure proper connection for power flow. The long connector is for power and data, while the short connector is for structural support only.

Figure 5: Detailed view of the light panel's connection ports and power input, essential for assembly.

3. **Connect Power:** Insert the USB power cable into one of the light panels and connect it to a USB power supply with at least 2A output.
4. **Download App:** Download the "Cololight" app from the App Store (iOS) or Google Play Store (Android).
5. **Pairing Process:**
 - Open the Cololight app and sign in or proceed as a guest.
 - Select "Add new device" and choose "Cololight" or "Cololight PLUS" as your model.
 - Press and hold the reset button on the light panel for 5 seconds until the indicator prompts that pairing mode is active.
 - Follow the on-screen instructions in the app to complete the pairing. Ensure your device is connected to a 2.4GHz WiFi network (5GHz WiFi is not supported).
 - If using Apple HomeKit, you may scan the HomeKit setup code or hold your iPhone near the accessory.
6. **Placement:** Place the assembled light panels on the base stand or mount them on a wall using appropriate

mounting solutions (not included).

Your browser does not support the video tag.

OPERATING INSTRUCTIONS

Once set up, you can control your Yescom Smart LED Light Kit in several ways:

Smartphone App Control

The "Cololight" app provides full control over your light kit:

- **Color Selection:** Choose from 16 million colors using the color wheel or predefined palettes.
- **Brightness Adjustment:** Dim or brighten the lights to your desired level.
- **Dynamic Effects:** Select from 70 pre-set dynamic effects or create your own custom light shows.
- **Music Sync:** Activate music sync mode to make the lights react to ambient sounds or music played through your device.
- **Scheduling:** Set timers and schedules for the lights to turn on/off or change modes automatically.
- **Group Control:** If you have multiple Yescom light kits, group them together for synchronized control.

Voice Control

Integrate your light kit with Amazon Alexa or Google Assistant for hands-free control:

- **Connecting to Voice Assistant:** Follow the instructions within the Cololight app or your voice assistant's app (Alexa app, Google Home app) to link your Yescom account.
- **Voice Commands:** Use commands such as:
 - "Alexa, turn on the [Light Name]."
 - "Hey Google, set [Light Name] to blue."
 - "Alexa, dim the [Light Name] to 50%."
 - "Hey Google, turn off the [Light Name]."

Touch Control

The light panels also support basic touch control:

- **Changing Effects:** Gently touch a light panel to cycle through different pre-set light effects or colors.

MAINTENANCE

To ensure the longevity and optimal performance of your Yescom Smart LED Light Kit, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe the surface of the light panels. Avoid using abrasive cleaners, solvents, or excessive moisture, as these can damage the product.
- **Handling:** Handle the light panels and connectors with care. Avoid dropping them or applying excessive force, which could cause damage.
- **Storage:** If storing the light kit for an extended period, disconnect it from power and store it in a cool, dry place away from direct sunlight.
- **Indoor Use Only:** This product is designed for indoor use. Do not expose it to water or high humidity, as it is not waterproof.

TROUBLESHOOTING

If you encounter any issues with your Yescom Smart LED Light Kit, refer to the following common troubleshooting tips:

Problem	Possible Cause / Solution
Lights do not turn on.	<ul style="list-style-type: none">◦ Ensure the power adapter is securely connected to the light panel and a working power outlet.◦ Verify the USB power supply provides at least 2A output.◦ Check if the light panels are correctly connected to each other.
Cannot connect to Wi-Fi / App.	<ul style="list-style-type: none">◦ Ensure your router is broadcasting a 2.4GHz Wi-Fi signal. 5GHz networks are not supported.◦ Make sure your smartphone is connected to the same 2.4GHz Wi-Fi network during pairing.◦ Try resetting the light panels by holding the reset button for 5 seconds.◦ Restart your router and try pairing again.◦ Ensure the app is updated to the latest version.
Voice control not working.	<ul style="list-style-type: none">◦ Verify that your Yescom account is correctly linked to your Amazon Alexa or Google Assistant app.◦ Check your internet connection.◦ Ensure the light kit is online and responsive in the Cololight app.◦ Try re-linking the skill/service in your voice assistant app.
Lights are flickering or behaving erratically.	<ul style="list-style-type: none">◦ Ensure all panel connections are secure.◦ Check if the power supply is stable and meets the 2A requirement.◦ Try restarting the light kit by unplugging and re-plugging the power.

WARRANTY AND SUPPORT

Yescom products are designed for reliability and performance. This product comes with a standard manufacturer's warranty. For detailed warranty information, please refer to the warranty card included with your purchase or visit the official Yescom website.

If you require technical assistance, have questions about your product, or need to report an issue, please contact Yescom customer support:

- **Online Support:** Visit the [Yescom Store on Amazon](#) for FAQs and contact options.
- **Email/Phone:** Refer to the contact information provided in your product packaging or on the official Yescom website.

Please have your model number (50LITSET005-10) and purchase date ready when contacting support.
