ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward and requires no special tools. Follow these steps carefully:

Step 1: Prepare the Base

Lay out all components on a clean, flat surface. Identify the plastic connectors and the metal tubes. All connectors are identical for ease of assembly.

Image 3: A plastic connector, used to join the metal tubes.

Step 2: Construct the Frame

1. Begin by assembling the bottom frame using the appropriate length tubes and connectors.
2. Insert the vertical support tubes into the connectors.
3. Add the fabric shelves by sliding them over the tubes before connecting the next level of horizontal tubes. Ensure the fabric shelves are taut.
4. Continue building upwards, layer by layer, following the diagram in your product's specific assembly guide (not provided here, but implied).

Step 3: Install Hanging Bars

Once the main frame is complete, insert the two hanging bars into their designated slots on the upper section of the frame.

Step 4: Apply the Fabric Cover

Carefully drape the fabric cover over the assembled frame. Ensure the zipper aligns correctly with the front opening. Secure the cover using the integrated buckles and ties.

OPERATING INSTRUCTIONS

The SONGMICS Portable Wardrobe is designed for convenient storage of clothing and other items.

- **Hanging Clothes:** Utilize the two hanging bars for garments such as shirts, dresses, and coats. Distribute weight evenly.

- **Shelf Storage:** Use the fabric shelves for folded clothes, boxes, or other accessories.
- **Dust Protection:** Keep the fabric cover zipped closed to protect contents from dust and maintain a tidy appearance. The buckles can be used to secure the rolled-up front panel for easy access.

MAINTENANCE

- **Cleaning the Fabric Cover:** Wipe the fabric cover with a damp cloth and mild detergent if necessary. Do not machine wash or tumble dry.
- **Frame Cleaning:** The metal tubes can be wiped clean with a dry or slightly damp cloth.
- **Regular Checks:** Periodically inspect all connections and tubes for stability. Tighten any loose connections.
