SONRU 10W Qi Wireless Car Charger Mount User Manual

Model: B07MV2CCJR

1. PRODUCT OVERVIEW

The SONRU 10W Qi Wireless Car Charger Mount provides convenient wireless charging for compatible smartphones while driving. It features an automatic gripping design and offers two installation options: an air vent clip and a dashboard suction cup mount. This charger supports 10W fast charging for compatible devices and 7.5W for iPhones, requiring a QC 3.0 car charger for optimal performance.

Figure 1.1: Product Components Overview

This image illustrates the main components of the wireless car charger mount, including the wireless charging area, air vent clips, USB input port, and the rotate ball mechanism for adjustment.

3. SETUP & INSTALLATION

The SONRU Wireless Car Charger Mount offers two installation methods: air vent mounting and dashboard mounting.

3.1 Air Vent Installation

1. Unscrew the nut from the air vent clip.
2. Place the nut over the ball joint on the back of the charger.
3. Insert the ball joint into the socket on the air vent clip.
4. Tighten the nut securely.
5. Attach the air vent clip to a horizontal air vent in your vehicle. Ensure it is firmly clipped.

3.2 Dashboard Installation

1. Unscrew the nut from the dashboard suction cup mount.
2. Place the nut over the ball joint on the back of the charger.
3. Insert the ball joint into the socket on the dashboard mount.
4. Tighten the nut securely.

5. Clean the desired dashboard surface thoroughly.
6. Press the suction cup firmly onto the dashboard and engage the locking lever to create a strong seal.

2 Ways Easy Installation

This image visually demonstrates the two methods for installing the car charger mount: using the air vent clip or the dashboard suction cup mount.

3.3 Power Connection

1. Connect the provided USB charging cable to the USB input port on the bottom of the charger.
2. Plug the other end of the USB cable into a car charger (a QC 3.0 car charger is recommended for fast charging).

Important Note: The charger is designed for vertical phone placement only. Horizontal installation is not supported and may affect stability and charging performance.

This image highlights that the charger does not support horizontal phone installation.

4. OPERATING INSTRUCTIONS

4.1 Placing Your Phone

1. Gently slide your Qi-compatible smartphone into the mount from the top.
2. The bottom support will trigger the side arms to automatically close and securely grip your phone.
3. Ensure the phone is centered on the charging pad for optimal wireless charging.

4.2 Removing Your Phone

- Simply lift your phone upwards to release it from the automatic gripping arms.

4.3 Charging Indicator

- The LED indicator on the charger will illuminate to show charging status. (Specific LED colors/patterns for charging/fully charged are not detailed in the provided information, refer to the included physical manual for exact details).

5. TROUBLESHOOTING

- **Phone not charging or charging slowly:**

- Ensure your phone is Qi-compatible and properly centered on the charging pad.
- Verify that the charging cable is securely connected to both the charger and a functioning car adapter.
- For fast charging, use a QC 3.0 compatible car charger. Standard car chargers may result in slower charging speeds.
- Check your phone case. Cases thicker than 0.16 inches (4mm) or those made of metal/magnetic materials can interfere with wireless charging. Remove the case to test.

- **Phone not held securely:**

- Ensure the phone is correctly placed, allowing the bottom support to activate the gripping arms.
- Verify that the mount is securely attached to the air vent or dashboard. Tighten any loose connections.

- **Mount becoming loose:**

- For air vent mounts, ensure the clip is fully engaged with the vent louver.
- For suction cup mounts, re-clean the dashboard surface and re-apply the suction cup, ensuring the locking lever is fully engaged.

- **Charger not powering on:**

- Check the USB cable and car charger connection. Try a different USB cable or car charger to rule out component failure.
