Alpinestars Bns Tech-2 Neck Support User Manual

MODEL: 6500019-LG/XL

1. Introduction

Thank you for choosing the Alpinestars Bns Tech-2 Neck Support. This device is designed to provide protection for motorcyclists by helping to reduce the risk of neck injuries during impacts. For your safety and to ensure optimal performance, please read this manual thoroughly before using the product. Proper fitment, maintenance, and understanding of its limitations are crucial.

2. Safety Information

- The Bns Tech-2 Neck Support is a protective device intended to reduce the severity of certain neck injuries. It cannot prevent all injuries.
- Always ensure the neck support is correctly fitted and adjusted according to the instructions. An improperly fitted device may not provide adequate protection.
- Inspect the neck support for any signs of damage, wear, or deformation before each use. Do not use if damaged.
- This product is designed for use with appropriate motorcycle helmets and protective gear.
- **Proposition 65 Warning:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

3. Product Overview

The Alpinestars Bns Tech-2 Neck Support features a lightweight and durable construction designed for comfort and protection. Key components include the rear stabilizer, front frame, and adjustable padding.

Figure 1: Front-side view of the Alpinestars Bns Tech-2 Neck Support. This image shows the overall shape, the main frame, and the Alpinestars logo.

Figure 2: Underside view of the Alpinestars Bns Tech-2 Neck Support. This image highlights the internal padding and the structural design of the support system.

4. Setup and Adjustment

Proper fitment is essential for the effectiveness of the Bns Tech-2 Neck Support. This model is available in LG/XL size.

1. **Initial Fit:** Place the neck support around your neck. The front section should rest comfortably on your chest, and the rear stabilizer should sit on your upper back, between your shoulder blades.
2. **Padding Adjustment:** The neck support comes with adjustable padding. Ensure all padding is securely attached and positioned for maximum comfort and a snug fit without restricting movement.
3. **Strap System (if applicable):** If your model includes a strap system, secure it according to the manufacturer's guidelines to keep the support in place during riding. Ensure it is tight enough to prevent excessive movement but not so tight as to cause discomfort or restrict breathing.
4. **Helmet Compatibility:** Wear your helmet with the neck support to ensure there is no interference. The helmet should move freely without snagging on the support, and the support should not push the helmet into an uncomfortable position.
5. **Range of Motion:** Perform head movements (up, down, side-to-side) to confirm that your range of motion is not excessively restricted and that the support remains in a stable position.

5. Operating (Wearing) Instructions

Once properly adjusted, the Bns Tech-2 Neck Support is ready for use. Always wear it in conjunction with a certified motorcycle helmet and other appropriate protective gear.

- Wear the neck support directly against your body or over a thin base layer. Avoid wearing it over bulky clothing that could compromise its fit.
- Ensure the neck support is securely fastened and does not shift during movement.
- Periodically check the fit during extended rides to ensure it remains comfortable and correctly positioned.

6. Maintenance

Regular maintenance will extend the life of your Alpinestars Bns Tech-2 Neck Support and ensure its continued protective capabilities.

- **Cleaning:** Clean the hard surfaces with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners. The removable padding can typically be hand-washed with mild detergent and air-dried. Refer to any specific care labels on the padding.
- **Inspection:** After every significant impact or fall, and periodically during normal use, thoroughly inspect the neck support for cracks, deformities, loose fasteners, or damaged padding. Pay close attention to stress points.
- **Storage:** Store the neck support in a cool, dry place away from direct sunlight and extreme temperatures. Do not place heavy objects on top of it, as this can cause deformation.
- **Replacement:** If the neck support shows any signs of damage, or if it has been involved in a significant impact, it should be replaced immediately, even if visible damage is minimal. The structural integrity may be compromised.

7. Troubleshooting

- **Discomfort or Rubbing:** Re-check the padding placement. Ensure the neck support is not too tight or too loose. Adjust your riding jacket or other gear to ensure it does not interfere with the neck support.
- **Restricted Head Movement:** While some restriction is normal for protective devices, excessive restriction may indicate improper fit. Re-evaluate the size and adjustment. Ensure your helmet is compatible and not causing interference.
- **Neck Support Shifts During Riding:** Ensure all straps (if present) are securely fastened. Re-check the fit and adjustment. The support should be snug but not uncomfortable.

8. Specifications

Feature	Detail
Model Number	6500019-LG/XL
Product Dimensions	16.4 x 11.1 x 7 inches
Weight	Approximately 0.01 ounces (Note: This weight seems unusually low and may refer to packaging or a specific component. Refer to product packaging for accurate total weight.)
Manufacturer	Alpinestars

Feature	Detail
Country of Origin	Imported
Department	Mens
Date First Available	January 16, 2019

9. Warranty and Support

For detailed warranty information, please refer to the documentation included with your product or visit the official Alpinestars website. For product support, technical assistance, or to inquire about replacement parts, please contact Alpinestars customer service directly.
