HoMedics AP-T20FL

HoMedics TotalClean 3-in-1 HEPA-Type Air Purifier Filter Replacement User Manual

Model: AP-T20FL

INTRODUCTION

This manual provides essential information for the proper use, installation, and maintenance of your HoMedics TotalClean 3-in-1 HEPA-Type Air Purifier Filter Replacement. This filter is designed to work with HoMedics TotalClean Tower Air Purifiers, models AP-T20, AP-T20WT, and AP-T22, ensuring cleaner and healthier air in your home.

PRODUCT OVERVIEW

The HoMedics TotalClean 3-in-1 HEPA-Type Replacement Filter is an integral component of your air purification system. It features a multi-stage filtration process to effectively capture airborne particles and reduce odors.

- **HEPA-Type Filtration:** Captures up to 99% of airborne particles as small as 0.3 microns, including allergens like pollen, pet dander, and dust.
- **Built-in Prefilter:** Traps larger particles, extending the life of the main filter.
- **Activated Carbon Filter:** Reduces unpleasant odors and Volatile Organic Compounds (VOCs) from the air.

3-in-1 HEPA-Type filter

The prefilter captures large particles, the HEPA-Type filter removes airborne allergens*, and the carbon filter minimizes odor and VOCs**

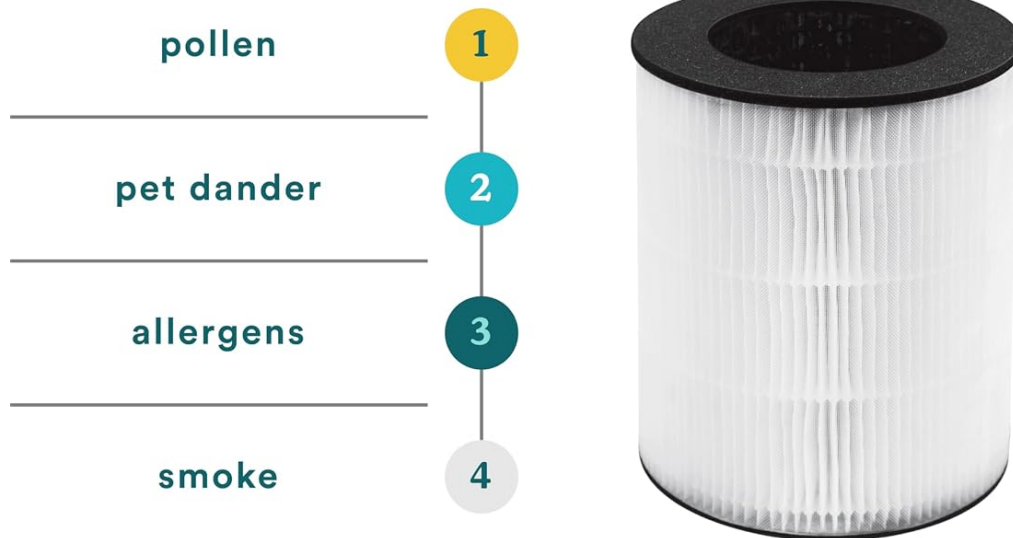

*Removes up to 99% of airborne particles as small as 0.3 microns from the air that passes through the filter media. **Reduces formaldehyde and toluene in the air as shown by independent laboratory testing. Reduces common household odors such as pet, bathroom, laundry, diaper pail, cooking, and smoke as shown by independent laboratory testing.

COMPATIBILITY

This replacement filter (Model: AP-T20FL) is specifically designed for use with the following HoMedics TotalClean Tower Air Purifier models:

- AP-T20
- AP-T20WT
- AP-T22

SETUP AND INSTALLATION

Follow these steps to properly install or replace the filter in your HoMedics TotalClean Air Purifier:

1. Ensure the air purifier is turned off and unplugged from the power outlet.
2. Locate the filter compartment on your air purifier. This is typically a removable panel on the side or back of the unit.
3. Open the filter compartment. For some models, this may involve pressing a latch or pulling a handle.
4. Carefully remove the old filter by pulling it out. Dispose of the used filter responsibly.
5. Unpack the new HoMedics TotalClean 3-in-1 HEPA-Type Replacement Filter from its protective packaging.
6. Insert the new filter into the air purifier, ensuring it is seated correctly and securely. The filter is designed to fit snugly.
7. Close the filter compartment securely.
8. Plug the air purifier back into the power outlet and turn it on.
9. Reset the filter indicator light on your air purifier, if applicable, according to your air purifier's specific instructions.

**breathe
healthy air**

HEPA-Type filtration
captures up to
99% of airborne
allergens as small
as 0.3 microns*

*Removes up to 99% of airborne particles as small as 0.3 microns from the air that passes through the filter media.

OPERATING INSTRUCTIONS

Once the filter is installed, your air purifier is ready for operation. Refer to your specific HoMedics TotalClean Air Purifier manual for detailed operating instructions, including fan speed settings, timer functions, and other features.

long lasting

Easy to replace every 12 months for optimal performance; lasts up to 1 year under normal usage conditions*

*Usage based on 12 hours per day for 365 days.

MAINTENANCE

To ensure optimal performance and extend the life of your filter, regular maintenance is recommended:

- **Pre-filter Cleaning:** Vacuum the prefilter monthly using the brush attachment of your vacuum cleaner. This helps remove larger dust and debris, preventing premature clogging of the HEPA-type filter.
- **Filter Replacement:** For optimal performance, replace the entire 3-in-1 filter every 12 months under normal usage conditions. The filter indicator light on your air purifier will typically signal when a replacement is needed.

TROUBLESHOOTING

If you experience issues with your air purifier's performance after filter replacement, consider the following:

- **Reduced Airflow:** Ensure the filter is correctly seated and the compartment door is fully closed. Check if the filter indicator light has been reset.

- **Persistent Odors:** If odors persist after replacement, verify that the new filter is genuine HoMedics and installed correctly. Consider if the source of the odor is external to the air purifier.
- **Filter Indicator Light Remains On:** After replacing the filter, you must manually reset the filter indicator light on your air purifier. Refer to your air purifier's user manual for specific instructions on how to reset this light.

SPECIFICATIONS

Feature	Detail
Product Dimensions	6.63 x 6.5 x 8.38 inches
Item Weight	1.14 pounds
Manufacturer	HoMedics
Item Model Number	AP-T20FL
Material	Nylon
Compatible Devices	HoMedics AP-T20, AP-T20WT, AP-T22 Air Purifiers
Filter Type	3-in-1 HEPA-Type with Activated Carbon and Prefilter
Filtration Efficiency	Captures up to 99% of airborne particles as small as 0.3 microns
Recommended Replacement	Every 12 months (under normal usage)
