BONECO U310

BONECO U310 Ultrasonic Warm Mist Humidifier Instruction Manual

Model: U310 | Brand: BONECO

1. INTRODUCTION

The BONECO U310 Ultrasonic Humidifier is designed to provide optimal indoor air quality with ease and efficiency. This 2-in-1 top-fill unit offers quiet operation and adjustable mist output levels, effectively adding moisture to rooms up to 860 square feet. Built with high-quality components, including a non-corrosive titanium membrane, the U310 ensures reliable performance. Its user-friendly design allows for simple water refilling and easy cleaning, supported by a 2-in-1 water filter for pure humidification without residue.

2. SETUP

- 1. Unpack the Humidifier:** Carefully remove all components from the packaging. Ensure all packing materials are removed from inside the unit.
- 2. Placement:** Place the humidifier on a flat, stable, and water-resistant surface. Ensure it is not placed directly on carpet or near walls to prevent moisture damage. The unit measures 12.10 inches long, 6.50 inches wide, and 12.79 inches tall.
- 3. Power Connection:** Plug the power cord into a suitable 120V AC electrical outlet.
- 4. Fill the Water Tank:** Open the top lid of the humidifier. Fill the water tank with clean, cool tap water.

The U310 features a convenient top-fill design. Do not exceed the maximum fill line. The unit has a capacity of 3.17 gallons.

3. OPERATING INSTRUCTIONS

- 1. Power On/Off:** Press the power button on the control panel to turn the humidifier on or off.
- 2. Adjust Mist Output:** Use the mist level button to cycle through different mist output settings (low, medium, high). The ultrasonic technology ensures quiet operation.
- 3. Warm Mist Function:** Activate the warm mist feature by pressing the dedicated button. This provides a comfortable, warm mist for enhanced humidification.
- 4. Humidity Control:** Set your desired humidity level using the humidity button. The humidifier will automatically maintain this level, turning on and off as needed.
- 5. Timer Function:** Utilize the timer button to set a specific operating duration for the humidifier, up to 12 hours.
- 6. Sleep Mode:** Engage sleep mode to dim the display lights for undisturbed rest while the humidifier continues to operate.
- 7. Aroma Function:** For a pleasant fragrance, pull out the aroma tray located on the side of the unit.

Add a few drops of your preferred essential oil to the aroma pad and reinsert the tray.

4. MAINTENANCE

Regular maintenance is crucial for the longevity and optimal performance of your BONECO U310 Humidifier. The 2-in-1 water filter ensures pure humidification without leaving residue, but periodic cleaning is still necessary.

- **General Cleaning:** Clean the humidifier every 2-4 weeks of use. All components are designed for easy hand cleaning.
- **Descaling:** Use BONECO EZCal Cleaner & Descaler as recommended to prevent mineral buildup, especially if using hard water.
- **Filter Maintenance:** Periodically check and clean the 2-in-1 water filter according to the user manual to maintain humidification efficiency.

5. TROUBLESHOOTING

If you encounter issues with your BONECO U310 Humidifier, please refer to the following common troubleshooting tips:

- **No Mist Output:** Check if the water tank is empty. Ensure the unit is properly assembled and powered on. Verify that the mist output level is not set to zero.
- **Unusual Noise:** Ensure the humidifier is placed on a flat, stable surface. Check for any foreign objects in the water tank or base.
- **Water Leakage:** Confirm that the water tank cap is securely tightened and the tank is correctly seated on the base. Avoid overfilling the tank.
- **Low Water Level Indicator:** The tank window and low water level indicator will alert you when refilling is needed.

For further assistance, please contact BONECO customer support.

6. SPECIFICATIONS
