Titan NP1805NM01

Titan Analogue Men's Watch NP1805NM01 User Manual

Model: NP1805NM01 / NN1805NM01

INTRODUCTION

This manual provides essential instructions for the setup, operation, maintenance, and troubleshooting of your Titan Analogue Men's Watch, model NP1805NM01. This timepiece features a black dial, black metal strap, quartz movement, and multifunction sub-dials. It is designed for daily wear and offers 5 ATM water resistance.

SETUP

Setting the Time

1. Pull the crown (located on the right side of the watch case) out to the second click position.
2. Rotate the crown to move the hour and minute hands clockwise until the desired time is set.
3. Push the crown back into its normal position to start the watch.

Setting the Date and Day

This watch features multifunction sub-dials for day and date. The 24-hour sub-dial operates automatically with the main time setting.

1. Pull the crown out to the first click position.
2. Rotate the crown clockwise or counter-clockwise to adjust the date and day indicators. Refer to the specific sub-dial markings for correct adjustment.
3. Once the date and day are set, push the crown back into its normal position.

OPERATING INSTRUCTIONS

Reading the Time

The watch displays time using traditional hour, minute, and second hands on the main dial.

Using Multifunction Sub-dials

- **Day Indicator:** One sub-dial displays the current day of the week (e.g., SU, MO, TU).
- **Date Indicator:** Another sub-dial shows the current date (1-31).
- **24-Hour Indicator:** A third sub-dial indicates the time in a 24-hour format, synchronizing with the main time.

Water Resistance

This watch is water-resistant up to 50 meters (5 ATM). This means it is suitable for everyday use and can withstand splashes, rain, and brief immersion in water. It is **not** suitable for swimming, diving, or showering with hot water, as steam and temperature changes can compromise the seals.

MAINTENANCE

Cleaning

- Wipe the watch case and metal strap regularly with a soft, dry cloth to remove dust and smudges.
- For stubborn dirt, lightly dampen the cloth with water and mild soap, then wipe thoroughly and dry immediately. Avoid using harsh chemicals or abrasive materials.

Water Resistance Care

- Ensure the crown is always pushed in completely when the watch is exposed to water.
- Avoid operating the crown or pushers while the watch is wet or submerged.
- If the watch is exposed to saltwater, rinse it with fresh water and dry it thoroughly.

Battery Replacement

The watch is powered by 1 Lithium Metal battery. When the watch stops or its accuracy decreases significantly, it may be time for a battery replacement. It is recommended to have the battery replaced by an authorized service center to ensure proper sealing and maintain water resistance.

TROUBLESHOOTING

- **Watch Not Running:** Check if the crown is fully pushed in. If the watch still does not run, the battery may need replacement.
- **Incorrect Time/Date:** Refer to the "Setting the Time" and "Setting the Date and Day" sections to re-adjust.
- **Condensation Inside Dial:** This may indicate a loss of water resistance. Avoid further contact with water and seek professional service immediately.
- **Loose Strap:** Ensure the clasp is securely fastened. If links are loose or damaged, consult a professional for repair.

For issues not covered here, please contact Titan customer support or an authorized service center.

SPECIFICATIONS

| Feature | Detail |
|---------------------|-------------------------|
| Model Number | NP1805NM01 / NN1805NM01 |
| Movement Type | Quartz |
| Display Type | Analog |

WARRANTY INFORMATION

Your Titan Analogue Men's Watch NP1805NM01 comes with a **24-month manufacturer warranty** from the date of purchase. This warranty covers manufacturing defects in materials and workmanship under normal use.

The warranty does not cover:

- Damage resulting from improper handling, lack of care, accidents, or normal wear and tear.
- Water damage if the watch has been used beyond its specified water resistance limits or if the crown/pushers were operated while wet.
- Battery replacement.
- Unauthorized repairs or modifications.

Please retain your proof of purchase for warranty claims. For service under warranty, contact an authorized Titan service center.
