Smatree D60

Smatree Hard Carrying Case Instruction Manual

FOR DJI OSMO POCKET 1/2 (MODEL D60)

1. Introduction and Overview

The Smatree Hard Carrying Case (Model D60) is designed to provide robust protection and organized storage for your DJI Osmo Pocket 1 or 2, along with essential accessories. Its compact design makes it ideal for travel and home storage, ensuring your equipment remains safe from dust, scratches, shocks, and water.

This case features custom-shaped compartments to securely hold your Osmo Pocket, neutral density filters, SD cards, and smartphone adapters. A zippered mesh pocket offers additional space for cables and other small items.

2. Setup and Storage

To ensure maximum protection, correctly place your DJI Osmo Pocket and accessories into their designated compartments:

1. **DJI Osmo Pocket:** Gently place the Osmo Pocket into the main foam cutout, ensuring it sits snugly. The gimbal head should align with the corresponding recess.
2. **Neutral Density (ND) Filters:** The case includes four dedicated slots for ND filters. Insert each filter carefully into its slot.
3. **SD Cards:** Two small slots are provided for SD cards. Insert your memory cards to keep them secure.
4. **Smartphone Adapters:** Two specific cutouts accommodate smartphone adapters.
5. **Cables and Small Accessories:** Utilize the zippered mesh pocket located in the lid for storing power cables, cleaning cloths, or other small, flat accessories.

3. Operating the Case

The Smatree Hard Carrying Case is designed for ease of use and portability:

- **Carrying Handle:** The case includes a comfortable hand strap for easy carrying. This strap can be attached or detached using the metal clip, allowing for versatility. You can attach it to a belt or a larger bag for convenient access.
- **Zipper Closure:** The dual zipper closure ensures that the case remains securely shut, protecting contents from external elements.

4. Maintenance

To maintain the longevity and protective qualities of your Smatree Hard Carrying Case, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the exterior with a damp cloth and mild soap if necessary. Avoid harsh chemicals or abrasive cleaners, as these can damage the fabric.
- **Drying:** If the case gets wet, allow it to air dry completely before closing or storing equipment inside to prevent moisture damage.
- **Storage:** Store the case in a cool, dry place away from direct sunlight when not in use.

5. Troubleshooting

While the Smatree Hard Carrying Case is designed for durability, here are some common issues and solutions:

- **Sticking Zippers:** If the zippers become stiff or difficult to move, apply a small amount of zipper lubricant or a

graphite pencil lead along the teeth.

- **Improper Fit:** Ensure all items are placed in their correct, custom-shaped compartments. Forcing items into incorrect slots can cause damage to both the case and your equipment.
- **Case Deformation:** Avoid placing excessively heavy objects on top of the case for extended periods, as this may cause permanent deformation.

6. Specifications

Feature	Detail
Brand	Smatree
Model Number	D60
Dimensions (L x W x H)	7.6" x 3.5" x 2.8" (19.5 cm x 9.0 cm x 7.0 cm)
