## 3. SETUP

---

### 3.1 Initial Charging

Before first use, fully charge the device. Locate the charging port, typically a small magnetic or covered port on the device. Connect the provided USB charging cable to the device and a USB power source (e.g., computer USB port, wall adapter). The indicator light will typically show charging status (e.g., blinking while charging, solid when fully charged). A full charge may take approximately 2-3 hours.

### 3.2 Cleaning Before First Use

Clean the device thoroughly with warm water and a mild, toy-safe soap before its initial use. Rinse thoroughly and allow it to air dry completely or gently pat dry with a lint-free cloth.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Power On/Off

To power on the device, press and hold the power button (usually indicated by a symbol or a distinct button on the device) for 2-3 seconds until the vibration begins. To power off, press and hold the power button again for 2-3 seconds until the vibration stops.

### 4.2 Changing Vibration Modes

Once the device is powered on, short press the power button to cycle through the available vibration modes. The device typically offers multiple patterns and intensities. Continue pressing until you find your preferred setting.

### 4.3 Application

The SVAKOM Tammy features a double-ring design. One ring is intended for placement around the base of the penis, and the other around the testicles, to help maintain erection and enhance sensation. The vibrating element should be positioned to provide clitoral stimulation for the partner during intercourse. Apply a generous amount of water-based lubricant to both the device and yourself for comfortable application and use.

## 5. MAINTENANCE

### 5.1 Cleaning After Use

After each use, clean the device immediately. Wash it with warm water and a mild, toy-safe soap. Rinse thoroughly to remove all soap residue. Ensure the charging port is dry before storing or recharging.

### 5.2 Storage

Store the device in a clean, dry, and cool place, away from direct sunlight and extreme temperatures. Keep it separate from other sex toys made of different materials (e.g., silicone with silicone, avoid silicone with TPE/TPR) to prevent material degradation.

### 5.3 Charging

Recharge the device when the vibrations weaken or the indicator light signals low battery. Avoid overcharging by disconnecting the charger once the battery is full.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
