4. SETUP

The Shadow Company Soldier figure requires assembly using the included building blocks. Follow these

steps:

1. **Unpack Components:** Carefully remove all building blocks and accessories from the packaging. Lay them out on a clean, flat surface to ensure no pieces are lost.
2. **Consult Instructions:** Refer to the included instruction sheet for detailed, step-by-step assembly diagrams. Each step will illustrate which blocks connect where.
3. **Assemble Figure:** Begin by assembling the main body of the figure, then attach limbs, head, and any armor pieces as indicated.
4. **Attach Accessories:** Once the figure is assembled, attach the night vision goggles and the signature weapon. Ensure all connections are secure.
5. **Position on Stand:** The figure comes with a display base. Secure the figure onto the base for stability and display.

5. OPERATING

The Mega Construx Shadow Company Soldier is designed for posing and display. Its key operational features include:

- **Poseability:** The figure is super-poseable, featuring multiple points of articulation. Gently bend and rotate joints (shoulders, elbows, hips, knees) to achieve desired stances. Avoid excessive force to

prevent breakage.

- **Glow-in-the-Dark Feature:** Certain parts of the figure, including the night vision goggles and gear, are designed to glow in the dark. To activate this feature, expose the figure to a bright light source (natural sunlight or artificial light) for a few minutes. Then, observe the glow in a dark environment. The intensity and duration of the glow depend on the light exposure.
- **Accessory Attachment:** The figure's weapon and night vision goggles are detachable. They can be removed and reattached as desired. Ensure they are firmly clicked into place when attached.

6. MAINTENANCE

To ensure the longevity and appearance of your Mega Construx Shadow Company Soldier figure, follow these maintenance guidelines:

- **Cleaning:** Dust the figure regularly with a soft, dry cloth. For more thorough cleaning, use a slightly damp cloth with mild soap and water. Avoid harsh chemicals or abrasive cleaners, as these can damage the plastic or paint.
- **Storage:** Store the figure away from direct sunlight and extreme temperatures, which can cause discoloration or warping of the plastic. Keep it in a cool, dry place.
- **Handling:** Handle the figure by its main body whenever possible. Avoid gripping small, delicate parts or accessories too tightly, as they may break or detach.

7. TROUBLESHOOTING

If you encounter any issues with your figure, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Parts detach easily (e.g., weapon, magazine)	Loose connection, wear and tear, or improper attachment.	Ensure parts are fully clicked into place. If a connection is consistently loose, a small amount of non-permanent adhesive (e.g., clear nail polish) can be applied to the peg, allowed to dry, and then reattached to create a tighter fit.
Figure does not glow in the dark	Insufficient light exposure.	Expose the glow-in-the-dark parts to a strong light source for a longer duration (e.g., 5-10 minutes) before moving to a dark environment.
Joints are stiff or difficult to pose	New figure stiffness, or dust/debris in the joint.	Gently work the joint back and forth to loosen it. If necessary, carefully apply a tiny amount of silicone-based lubricant (avoid oil-based lubricants) to the joint.
