## 7. MAINTENANCE

Proper care will extend the life and appearance of your bamboo shelf unit:

- **Cleaning:** Wipe the unit clean with a dry cloth. For stubborn marks, a slightly damp cloth can be used, followed immediately by drying with a clean, dry cloth.

- **Moisture:** While bamboo is naturally moisture-resistant, avoid prolonged exposure to standing water or excessive humidity. Ensure good ventilation in the area where the unit is placed.
- **Inspection:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary to maintain stability.
- **Avoid Harsh Cleaners:** Do not use abrasive cleaners, strong chemicals, or scouring pads, as these can damage the bamboo surface and its protective lacquer finish.

If you encounter any issues with your RÅGRUND Shelf Unit, refer to the following common problems and solutions:
