Sennheiser HD 400S

Sennheiser HD 400S Closed-Back Around-Ear Headphones Instruction Manual

Model: HD 400S

INTRODUCTION

Thank you for choosing the Sennheiser HD 400S Closed-Back Around-Ear Headphones. These headphones are designed to deliver excellent audio clarity and comfort for an immersive listening experience. Featuring a one-button smart remote on a detachable cable and a sturdy folding design, the HD 400S is built for both quality sound and portability.

WHAT'S IN THE BOX

- Sennheiser HD 400S Headphones
- Detachable Audio Cable with One-Button Smart Remote
- User Manual

SETUP

1. **Connect the Audio Cable:** Insert the smaller end of the detachable audio cable into the port located on the left earcup of the headphones. Ensure it is securely connected.

2. **Connect to Audio Source:** Plug the 3.5mm angled connector of the audio cable into the headphone jack of your audio device (e.g., smartphone, tablet, computer, MP3 player).

3. **Adjust for Comfort:** Place the headphones over your ears. Adjust the headband to ensure a comfortable and secure fit. The over-ear design provides sound isolation.

OPERATING INSTRUCTIONS

Audio Playback

The Sennheiser HD 400S headphones feature dynamic drivers that deliver a wide sound response, ensuring clear and detailed audio across a frequency range of 18 Hz to 20,000 Hz.

Using the One-Button Smart Remote

The integrated one-button smart remote on the detachable cable allows for convenient control of your music and calls without needing to access your connected device.

- **Play/Pause Music:** Press the button once.
- **Skip to Next Track:** Press the button twice quickly.
- **Go to Previous Track:** Press the button three times quickly.
- **Answer/End Call:** Press the button once during an incoming call or an active call.
- **Reject Call:** Press and hold the button during an incoming call.

Microphone Functionality

The integrated microphone has a frequency response of 100 Hz to 10,000 Hz and a sensitivity of 44 dBV/Pa, ensuring clear voice capture for calls and recordings.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the earcups and headband. Do not use liquid cleaners or solvents.
- **Storage:** When not in use, fold the headphones for compact storage. Store them in a clean, dry place away from extreme temperatures and direct sunlight.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cable to prevent damage. The detachable cable can be replaced if necessary.

TROUBLESHOOTING

- **No Sound:**

    - Ensure the audio cable is securely connected to both the headphones and the audio source.
    - Check the volume level on your audio device.
    - Test the headphones with a different audio source or device to rule out device-specific issues.

- **Poor Sound Quality:**

    - Verify the audio cable is fully inserted and not damaged.
    - Clean any debris from the headphone jack on your device.
    - Ensure the audio source is playing high-quality audio files.

- **Microphone Not Working:**

    - Confirm the audio cable with the smart remote is correctly attached.

- Check your device's settings to ensure the correct microphone input is selected.
- Test the microphone functionality with another application or device.

- **Discomfort During Use:**

  - Adjust the headband and earcups for optimal fit.
  - Take short breaks during extended listening sessions.
