Caso Coffee Compact Electronic Coffee Machine User Manual

Model: 1848 | Brand: CASO Design

1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using the Caso Coffee Compact Electronic coffee machine. Keep this manual for future reference.

- **Electrical Safety:** Ensure the voltage indicated on the appliance matches your local mains voltage before connecting. Do not immerse the appliance, cord, or plug in water or other liquids.
- **Hot Surfaces:** The coffee machine's heating plate and carafe will become hot during and after operation. Always use the handle when touching the carafe. Allow the appliance to cool completely before cleaning.
- **Children and Pets:** Keep the appliance out of reach of children and pets. This appliance is not intended for use by persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction.
- **Proper Use:** Use the appliance only for its intended purpose of brewing coffee. Do not operate the appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- **Ventilation:** Ensure adequate ventilation around the appliance during operation. Do not place it on or near hot gas or electric burners, or in a heated oven.

2. PRODUCT OVERVIEW

Familiarize yourself with the components of your Caso Coffee Compact Electronic coffee machine.

Figure 2.1: Front view of the Caso Coffee Compact Electronic coffee machine, showcasing its compact design and stainless steel finish.

Figure 2.2: Angled view of the coffee machine, highlighting its sleek profile and integrated components.

Figure 2.3: Close-up of the control panel with LCD display, showing the various buttons for operation.

Figure 2.4: Internal view of the coffee machine's grinding mechanism and integrated filter basket.

Components:

- **Integrated Grinder:** For fresh coffee beans.
- **Water Tank:** With clear level indicator.
- **Glass Carafe:** With handle and capacity markings.
- **Control Panel:** With LCD display and intuitive buttons.
- **Removable Filter Basket:** For easy cleaning.

Control Panel Functions:

- **Power Button:** To turn the machine on/off.
- **Grind Level Button (%):** Adjusts the fineness of the coffee grind (two adjustable levels).
- **Quantity Buttons (+/-):** Selects the number of cups (up to 4).
- **Timer Button (Clock icon):** Sets the current time and programs delayed brewing.
- **Start Button:** Initiates the brewing process.

3. SETUP

1. **Unpacking:** Carefully remove all packaging materials and check for any damage. Retain packaging for future transport if needed.
2. **Initial Cleaning:** Before first use, clean all removable parts (carafe, filter basket, grinder components) with warm soapy water. Wipe the exterior of the machine with a damp cloth. Run one or two cycles with only water to rinse the internal system.
3. **Placement:** Place the coffee machine on a stable, flat, heat-resistant surface, away from direct sunlight and heat sources. Ensure there is sufficient space around the unit for ventilation.
4. **Filling Water:** Open the water tank lid and fill the water tank with fresh, cold water up to the desired level, corresponding to the number of cups you wish to brew. Do not exceed the maximum fill line.

Figure 3.1: Side view illustrating the water tank with its clear level indicator.

5. Adding Coffee:

- a. **For Coffee Beans:** Open the grinder lid and pour the desired amount of fresh coffee beans into the grinder chamber.

Figure 3.2: Adding fresh coffee beans into the integrated grinder.

- b. **For Ground Coffee:** If using pre-ground coffee, ensure the grinder is empty and clean. Place the ground coffee directly into the filter basket.

4. OPERATING INSTRUCTIONS

4.1. Brewing Coffee from Beans:

1. Ensure the water tank is filled and coffee beans are in the grinder.
2. Place the empty glass carafe on the heating plate.
3. Press the Power button to turn on the machine. The LCD display will illuminate.
4. Use the +/- buttons to select the desired number of cups (1-4).
5. Press the % button to cycle through the two available grind levels (fine or coarse), depending on your preference for coffee strength and aroma.
6. Press the **Start** button to begin the grinding and brewing process. The machine will automatically grind the beans and then brew the coffee.

4.2. Brewing with Pre-Ground Coffee:

1. Ensure the water tank is filled.
2. Add the desired amount of pre-ground coffee directly into the filter basket.
3. Place the empty glass carafe on the heating plate.
4. Press the Power button to turn on the machine.
5. Use the +/- buttons to select the desired number of cups.
6. Press the **Start** button. The machine will bypass the grinding process and proceed directly to brewing.

4.3. Using the Timer Function:

The integrated timer allows you to program the machine to start brewing at a specific time.

1. **Setting the Current Time:**
 - a. With the machine on, press and hold the **Timer** button until the time display flashes.
 - b. Use the +/- buttons to set the current hour, then press **Timer** again to confirm.

- c. Use the +/- buttons to set the current minute, then press **Timer** to confirm and exit time setting mode.

2. Programming Delayed Start:

- a. Prepare the machine with water and coffee (beans or ground) as described in sections 4.1 or 4.2.
- b. Press the **Timer** button once. The display will show "PROG" or a similar indicator.
- c. Use the +/- buttons to set the desired brewing start time.
- d. Press the **Timer** button again to confirm the programmed time. The machine will now be in standby mode, waiting for the set time to begin brewing.

4.4. Keep Warm Function:

After brewing, the machine automatically activates a keep warm function for 30 minutes, maintaining the coffee's temperature. After 30 minutes, the machine will automatically shut off for safety and energy saving.

5. MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the lifespan of your coffee machine.

1. **Before Cleaning:** Always unplug the coffee machine from the power outlet and allow it to cool completely before cleaning any parts.
2. **Carafe and Filter Basket:**
 - a. Remove the glass carafe and filter basket after each use.
 - b. Discard used coffee grounds.
 - c. Wash the carafe and filter basket with warm, soapy water. Rinse thoroughly and dry. These parts may also be dishwasher safe (check product specifications for confirmation).
3. **Grinder Cleaning:** The integrated grinder is fully removable for easy cleaning.
 - a. Carefully remove the grinder assembly from the top of the machine.
 - b. Brush away any residual coffee grounds. The grinding mechanism can be rinsed under running water, but ensure it is completely dry before reassembling.
 - c. Refer to Figure 2.4 for a visual reference of the grinder area.
4. **Exterior Cleaning:** Wipe the exterior surfaces of the coffee machine with a soft, damp cloth. Do not use abrasive cleaners or scouring pads, as they may damage the finish.
5. **Descaling:** Mineral deposits from water can build up over time, affecting performance. Descale your machine regularly (e.g., every 2-3 months, or more often in hard water areas).
 - a. Use a commercial descaling solution suitable for coffee machines, or a mixture of white vinegar and water (1:2 ratio).
 - b. Pour the descaling solution into the water tank.
 - c. Run a brewing cycle without coffee.
 - d. After the cycle, run 2-3 cycles with fresh water to rinse out any descaling residue.

6. TROUBLESHOOTING

If you encounter issues with your coffee machine, refer to the following table before contacting support.

Problem	Possible Cause	Solution
Machine does not turn on.	Not plugged in; power outlet issue.	Check power cord connection; try a different outlet.
Coffee is not brewing.	No water in tank; carafe not correctly placed; filter basket clogged.	Fill water tank; ensure carafe is correctly seated; clean filter basket.

Problem	Possible Cause	Solution
Grinder is not working.	No beans; grinder clogged; grinder assembly not properly installed.	Add beans; clean grinder thoroughly; ensure grinder is securely in place.
Coffee tastes weak or too strong.	Incorrect coffee-to-water ratio; wrong grind level.	Adjust coffee quantity or water level; experiment with grind settings.
Machine is leaking.	Water tank or carafe not properly seated; overfilled water tank.	Ensure all components are correctly positioned; do not overfill water tank.

7. SPECIFICATIONS

Technical details for the Caso Coffee Compact Electronic coffee machine.

Feature	Detail
Brand	CASO Design
Model Number	1848
Color	Stainless Steel, Black
Dimensions (L x W x H)	26 x 17.5 x 27.5 cm
Weight	2.2 kg
Capacity	960 ml (up to 4 cups)
Power	600 W
Voltage	230 Volts
Material	Stainless Steel
Special Features	Integrated Grinder, LCD Display with Timer, Automatic Shut-off (30 min), Keep Warm Function (30 min), Two Adjustable Grind Levels, Processes Ground Coffee, Removable Grinder for Easy Cleaning.

Figure 7.1: Product dimensions: 26 cm (width) x 17.5 cm (depth) x 27.5 cm (height).

8. WARRANTY AND SUPPORT

Your Caso Coffee Compact Electronic coffee machine comes with a manufacturer's warranty. For detailed warranty information, please refer to the warranty card included with your product or visit the official CASO Design website.

If you require technical support, have questions about operation, or need to arrange for service, please contact CASO Design customer service. Contact details can typically be found on the manufacturer's website or in the product packaging.

Please have your model number (1848) and purchase date ready when contacting support.
