Furmore4 T100

User Manual: T100 7 Inch Car Stereo MP5 Player

Model: T100 | Brand: Furmore4

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Furmore4 T100 7 Inch Car Stereo MP5 Player. Please read this manual thoroughly before using the product to ensure proper functionality and safety. The T100 is a versatile car head unit featuring a 7-inch capacitive touchscreen, FM/AM radio with RDS, Bluetooth 4.0, USB, and AUX connectivity, and support for mobile phone interconnection.

SETUP

Package Contents

Before installation, verify that all components are present in the package:

- 1 x Car MP5 Player (T100 Head Unit)
- 1 x Xiaomi Remote Control
- 1 x Buttcock Line (Wiring Harness)
- 1 x Tool (Installation Tool)
- 1 x Manual (This document)

Installation Guidelines

Professional installation is recommended for optimal performance and safety. Ensure the vehicle's power is disconnected

before beginning installation. Connect the wiring harness securely, paying attention to power, ground, speaker, and accessory connections. The unit operates on a 12V system.

The T100 unit has specific dimensions for installation. Refer to the diagram below for product size specifications:

Image: Diagram showing the dimensions of the T100 Car Stereo. The unit measures 178mm in width, 50mm in height, and 170mm in depth, with the front panel measuring 188mm in width and 58mm in height. This is crucial for ensuring compatibility with your vehicle's dashboard opening.

For reversing camera input, connect the reversing detection line to the vehicle's reversing light source. The unit supports video input for DVR recorders.

OPERATING INSTRUCTIONS

General Operation

The T100 features a 7-inch capacitive touchscreen for primary control. Physical buttons and a rotary knob are also available for common functions. The display can be manually stretched for adjustment.

1 / Exquisite knob

Imitation metal design knob, with strong visual impact, giving a modern, quality feeling

2 / Backlit button

Blue backlit button, visible at night
With a multi-color screen, show the style

3 / Quality process

Seiko material guarantees wear resistance and hardness, reasonable material combination makes the machine more durable, and detection is also an important part of supporting quality.

Image: Close-up view highlighting the exquisite knob and backlit buttons of the T100 Car Stereo. The knob features an imitation metal design, and the buttons are blue backlit for visibility at night, contributing to a modern aesthetic.

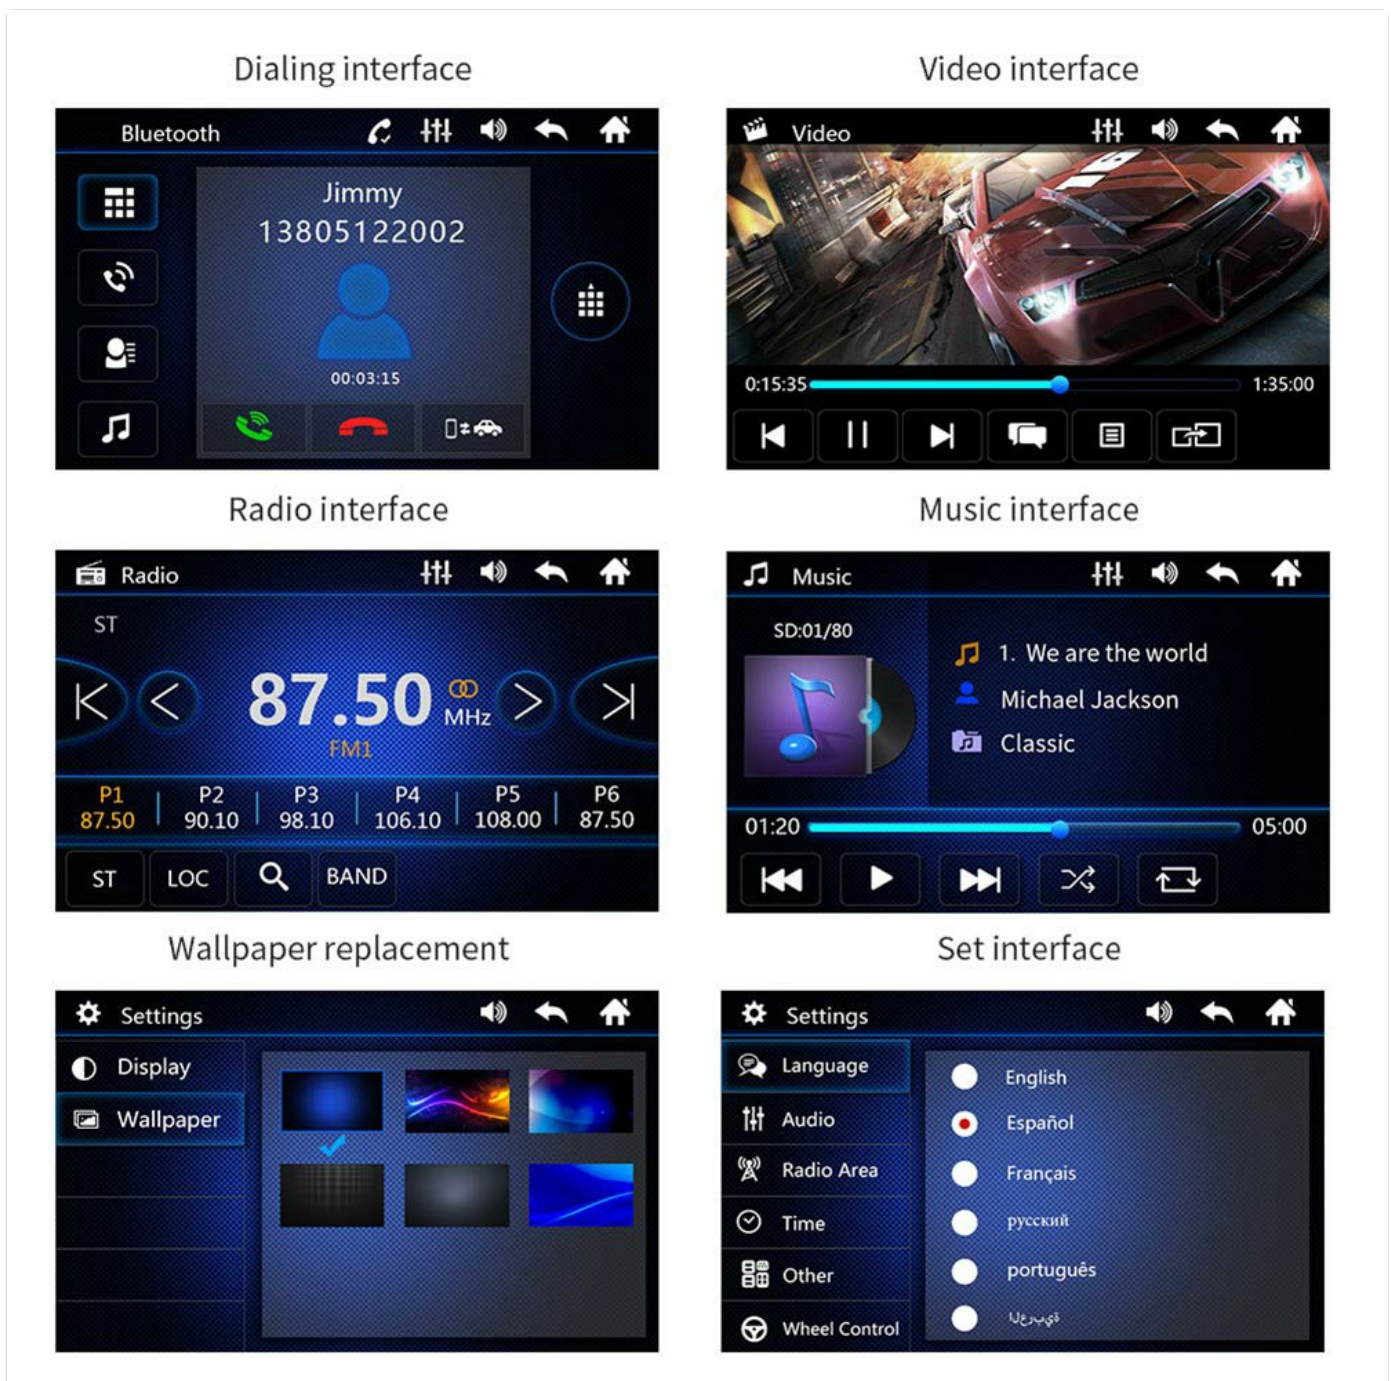

Image: Compilation of screenshots showing various user interface screens of the T100 Car Stereo, including the dialing interface, video playback, radio tuner, music player, wallpaper selection, and general settings. This provides a visual guide to the unit's software capabilities.

Radio Function (FM/AM/RDS)

Access the radio interface to tune into FM1/FM2/FM3 and AM1/AM2 bands. The unit supports RDS (Radio Data System) for displaying station information where available. Use the on-screen controls or physical buttons to scan and save stations.

Bluetooth Connectivity

The T100 features Bluetooth version 4.0. To pair your device:

1. Enable Bluetooth on your mobile phone.
2. On the T100, navigate to the Bluetooth menu.
3. Search for available devices and select "T100" or similar.
4. Enter the Bluetooth connection password: **0000** when prompted.

5. Once paired, you can make/receive phone calls and stream music wirelessly.

Media Playback (USB/AUX)

Connect USB drives to the designated USB port for MP3/MP5 playback. Use the AUX input for connecting external audio devices. The unit supports various video formats including RM/RMVB/AVI/MP4/MKV/3GP.

Mobile Interconnection (Android)

The T100 supports mobile phone interconnection for Android devices. This feature allows for mirroring or control of certain phone functions on the stereo's screen. Refer to the unit's on-screen instructions for specific setup procedures.

Steering Wheel Controls

The unit supports connection to original car steering wheel controls. This allows for convenient operation of functions like volume adjustment and track skipping without taking your hands off the steering wheel.

Steering wheel controls

RM/RMVB/AVI/MP4/MKV/3GP

Original car steering wheel control

Use steering wheel keys to quickly switch the volume, sound and so on, making driving more convenient.

System Settings

Access the settings menu to configure various options, including language (Chinese, English, Spanish, Portuguese, Russian, Italian, German, French, Polish, Turkish, Czech, Hebrew), time format (12-hour/24-hour), display settings, and audio adjustments.

MAINTENANCE

To ensure the longevity and optimal performance of your T100 Car Stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior surfaces. For stubborn smudges on the screen, a slightly damp, lint-free cloth can be used. Avoid abrasive cleaners or solvents.
- **Temperature:** Do not expose the unit to extreme temperatures, direct sunlight for prolonged periods, or high humidity.
- **Ventilation:** Ensure the unit's ventilation openings are not blocked to prevent overheating.

- **Power Off:** Always turn off the unit before cleaning or performing any maintenance.

TROUBLESHOOTING

If you encounter issues with your T100 Car Stereo, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
No Power / Unit Does Not Turn On	Check power connections (ACC, B+, Ground). Verify vehicle's fuse for the stereo. Ensure proper installation of the wiring harness.
No Sound	Check speaker connections. Ensure volume is not muted or set to minimum. Verify audio source selection (Radio, USB, AUX, BT).
Bluetooth Not Connecting	Ensure Bluetooth is enabled on both the stereo and your mobile device. Verify the pairing password is 0000 . Delete previous pairings on your phone and try again. Restart both devices.
Touchscreen Unresponsive	Perform a soft reset (refer to manual for reset button location, usually a small pinhole). Ensure the screen is clean and free of debris.
Reversing Camera Not Displaying	Check the camera's power and video signal connections. Ensure the reversing detection line is correctly connected to the vehicle's reverse light.

If the problem persists after attempting these solutions, please contact customer support.
