SETUP

1. Initial Charge

Before first use, it is recommended to fully charge the iDiskk external hard drive. Connect the provided MFi Charging

Cable or Type-C Cable to a power source (e.g., wall adapter, computer USB port) and the corresponding port on the iDiskk device. The LED indicators will show charging progress.

2. App Installation (for iOS/Android)

For full functionality with iPhone and iPad devices, download the "iDiskk Pro" application from the Apple App Store. For Android devices, the device can be accessed via file manager after connecting. The app facilitates features like one-key backup and file management.

When connecting the device to an iPhone or iPad for the first time, a prompt to install the "iDiskk Pro" app will appear automatically.

OPERATING INSTRUCTIONS

1. Connecting to Devices

For iPhone/iPad: Use the MFi Charging Cable to connect the iDiskk device to your iPhone or iPad's Lightning port. The "iDiskk Pro" app will launch automatically or prompt you to open it.

For Android/PC/Mac: Use the Type-C cable or a standard USB cable (if applicable) to connect the iDiskk device to your Android phone, PC, or Mac. The device will appear as an external storage drive.

iDiskk

The advertisement features a central image of a silver iDiskk hard drive connected to an iPad and an iPhone. The iPad screen shows the time 9:41 and the date 9月12日 星期三. The iPhone screen shows a list of items with a red 'Backup' button highlighted. A green battery icon with a lightning bolt is positioned at the top left. On the left side, there are four icons in a vertical column: a house with a magnifying glass, a video camera, a film strip, and a camera. The text 'Charging and transfer simultaneously' is written in large blue letters at the top right. Below it, 'Click Backup' is written in a yellow circle. The iDiskk logo is printed in red on the front of the drive.

Image: An iPhone connected to the iDiskk Hard Drive via a Lightning cable, illustrating simultaneous data transfer and charging capabilities.

2. Data Transfer and Backup

Within the "iDiskk Pro" app, you can perform one-key backups of your iPhone/iPad camera roll. Future backups will only save newly added files to avoid duplication. You can also use the in-app camera to directly save photos/videos to the

drive.

For PC/Mac, simply drag and drop files to and from the iDiskk drive as you would with any external storage device.

Compatible with iPhone, iPad, Macbook

Apple Certified 1TB External Hard Drive
with 10,000mAh Power Bank

Image: Visual representation of the device's functions: Photos Backup, Videos Backup, Play movies online (plug & play), and Instant backup of camera photos, with an iPhone and iPad showing charging and backup status.

3. Using as a Power Bank

The iDiskk device has a built-in 10000mAh power bank. Connect your mobile device to the iDiskk using the appropriate

charging cable (MFi for Apple, Type-C for others) to charge your device. The LED indicators on the iDiskk will show its remaining charge level.

COMPATIBILITY

The iDiskk 1TB External Hard Drive is MFi Certified and widely compatible with a range of devices:

Device Compatibility Overview

Device Type	Compatible Models/Systems
iPhone	iPhone 16/15, 15/14/13/12/11, 13/12/11 Pro, 13/12/11 Pro Max, 13/12 Mini, SE, XR, XS, XS Max, X, 8/7/6S/6 Plus, 8/7/6S/6, 6/5S
iPad	iPad 5/6/7/8/9, Mini 2/3/4/5/6, iPad Air Series, iPad Pro Series
Computers	Mac (Mac OS), PC (Windows 7-10)
Android	Compatible Android smartphones and tablets

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the device. Avoid liquid cleaners or abrasive materials.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Data Integrity:** Regularly back up important data to another source (e.g., cloud storage, another hard drive) to prevent data loss.
- **Firmware Updates:** Check the iDiskk official website or app for any available firmware updates to ensure optimal performance and compatibility.

TROUBLESHOOTING

Common Issues and Solutions

Problem	Possible Cause	Solution
Device not recognized by iPhone/iPad.	App not installed or not launched; cable issue; device not properly connected.	Ensure "iDiskk Pro" app is installed and open. Reconnect the MFi cable firmly. Try a different MFi cable if available. Restart your iPhone/iPad.
Device not recognized by PC/Mac.	Cable issue; USB port issue; driver issue (rare).	Try a different USB port or cable. Ensure the device is powered on. Check Disk Management (Windows) or Disk Utility (Mac) to see if the drive is detected but unformatted.
Slow data transfer speed.	Using a non-USB 3.0 port; large file sizes; background processes.	Ensure you are connected to a USB 3.0 port (blue port). Close unnecessary applications on your computer/device.
Power bank not charging device.	iDiskk battery low; cable issue; device not compatible.	Charge the iDiskk device fully. Try a different charging cable. Ensure your device is compatible with USB charging.
