2. Installing the Mattress

Place the foldable mattress firmly into the bottom of the cot. Ensure it lies flat and covers the entire base (120 x 60 cm).

3. Adjusting Mattress Height (2 Levels)

The travel cot offers two mattress height levels. For newborns and infants, use the higher level to reduce bending. As your child grows and becomes more active, lower the mattress to the bottom level for safety. To adjust, detach the mattress, unclip the support system for the upper level, and re-secure it at the desired height. Always ensure the support system is fully engaged and stable before placing the mattress and child inside.

4. Attaching the Changing Table

The detachable changing table can be easily attached to the top rails of the cot. Follow the specific instructions provided with the changing table accessory to secure it properly. Always ensure it is stable and locked in place before use.

OPERATING YOUR TRAVEL COT

Using the Side Entrance

The travel cot features a zippered side entrance, allowing older children to enter and exit independently. Ensure the zipper is fully closed when the child is sleeping or unsupervised to prevent accidental falls.

Using the Changing Table

The detachable changing table provides a convenient surface for diaper changes. Always use the safety straps if available and keep one hand on your child at all times while using the changing table.

Moving the Travel Cot

The travel cot is equipped with two wheels for easy relocation. To move the cot, lift the end without wheels slightly and roll it to the desired position. Engage the wheel brakes once the cot is in place to prevent accidental movement.

FOLDING AND STORAGE

Folding the Travel Cot

1. Remove the mattress and any accessories (e.g., changing table).
2. Locate the release buttons or mechanisms on the center of the short sides. Press them to unlock the side rails.
3. Repeat for the long sides. Ensure all four side rails are unlocked and slightly bent inwards.
4. Pull the strap in the center of the cot floor upwards firmly. The cot will begin to fold inwards.
5. Continue pulling until the cot is fully collapsed into a compact shape.

Storing in the Carry Bag

Once folded, secure the cot with any integrated straps. Place the folded cot and mattress into the provided carry bag for convenient storage and transport. The folded dimensions are approximately 80 x 23 x 20 cm.

MAINTENANCE AND CLEANING

- **Fabric:** Clean fabric parts with a damp cloth and mild soap. Do not use harsh detergents or abrasive cleaners. Allow to air dry completely.
- **Frame:** Wipe the metal frame with a damp cloth. Dry thoroughly to prevent rust.
- **Mattress:** The foldable mattress can be wiped clean with a damp cloth. Ensure it is completely dry before placing it back in the cot or storing it.
- **Storage:** Store the travel cot in its carry bag in a dry, well-ventilated area when not in use.
