Baby Brezza FRP0046

Baby Brezza Formula Pro Advanced (FRP0046) Instruction Manual

Your Guide to Automatic Formula Preparation

1. INTRODUCTION

The Baby Brezza Formula Pro Advanced is an innovative appliance designed to simplify the preparation of warm formula bottles. This machine automatically mixes formula powder and water to a consistent texture and temperature, providing convenience for caregivers.

- Automatically mixes formula and water to perfect consistency.
- Customizable dispensing: choose 1-ounce increments between 2-10 ounces.
- Three temperature settings available.
- Option for formula/water or water-only dispensing.
- Compatible with most formula brands and all bottle brands/sizes.
- BPA-FREE construction.

2. IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before using this appliance. Failure to follow these instructions may result in injury or damage to the product. Keep this manual for future reference.

- Always use the appliance on a flat, stable surface.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- Unplug from outlet when not in use and before cleaning.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Close supervision is necessary when any appliance is used by or near children.
- Ensure all parts are correctly assembled before use.

3. PARTS AND FEATURES OVERVIEW

Familiarize yourself with the main components of your Formula Pro Advanced.

Figure 1: Front view of the Baby Brezza Formula Pro Advanced, showing the main unit with a bottle in place.

Figure 2: Angled view of the machine, highlighting the powder container and control panel.

- **Powder Container:** Located at the top, holds formula powder. Features a locking lid and a mixing blade.
- **Control Panel:** Digital display with buttons for powder setting, water only, temperature, ounce selection, start, and stop.
- **Water Tank:** Removable tank located at the back/side for holding water.
- **Dispensing Funnel:** Where mixed formula is dispensed into the bottle.
- **Drip Tray/Bottle Platform:** Adjustable platform to accommodate various bottle sizes.

Figure 3: Close-up of the control panel, showing the digital display and various function buttons.

Figure 4: Side view illustrating the removable water tank.

4. SETUP AND INITIAL USE

Before first use, and after each cleaning cycle, ensure all parts are dry and correctly assembled.

1. **Unpack and Wash:** Unpack all components. Wash the powder container, lid, mixing blade, water tank, and dispensing funnel with warm soapy water. Rinse thoroughly and dry completely.
2. **Assemble:** Place the main unit on a clean, flat surface. Insert the water tank into its designated slot. Assemble the powder container with the mixing blade and secure the lid.
3. **Fill Water Tank:** Fill the water tank with distilled water up to the MAX line.
4. **Fill Powder Container:** Pour formula powder into the powder container. Ensure the powder level is always above the MIN line for accurate dispensing.
5. **Power On:** Plug the machine into a power outlet and press the power button.
6. **Initial Cleaning Cycle (Water Only):** Before making formula, run a water-only cycle to prime the machine. Select 'Water Only' and dispense 10 ounces of water. Discard this water.

5. OPERATING INSTRUCTIONS

Follow these steps to prepare a formula bottle:

1. **Select Ounce Size:** Press the 'Ounce' button repeatedly to select the desired amount of formula (2-10 ounces).
2. **Select Temperature:** Press the 'Temp' button to choose one of the three temperature settings (room temperature, body temperature, or warmer).
3. **Adjust Bottle Platform:** Raise or lower the adjustable bottle platform to ensure the bottle opening is close to the dispensing funnel.
4. **Dispense Formula:** Place the bottle on the platform. Press the 'Start' button. The machine will dispense the selected amount of formula at the chosen temperature.
5. **Remove Bottle:** Once dispensing is complete, remove the bottle. Check the temperature of the formula before feeding your baby.

6. CLEANING AND MAINTENANCE

Regular cleaning is crucial for optimal performance and hygiene. The machine will indicate when cleaning is required.

1. **Daily Cleaning:** The dispensing funnel should be cleaned after every 4 bottles. Remove the funnel, wash with warm soapy water, rinse, and dry thoroughly.
2. **Weekly Cleaning:** Disassemble the powder container, lid, mixing blade, and water tank. Wash all parts with warm soapy water, rinse, and dry completely.
3. **Descaling:** If using tap water, mineral buildup may occur on the heating plate. Descale regularly using a vinegar and water solution (refer to the full user manual for detailed descaling instructions).
4. **Wipe Down:** Wipe the exterior of the machine with a damp cloth. Do not use abrasive cleaners.

7. TROUBLESHOOTING

If you encounter issues, refer to the following common solutions:

- **Formula Consistency Issues:** Ensure the correct powder setting is selected for your specific formula brand and type. Refer to the Baby Brezza website's 'Formula Pro Settings Finder' for accurate settings. Clean the dispensing funnel regularly to prevent clogs.
- **Machine Not Dispensing:** Check if the water tank is filled and properly seated. Ensure the powder container lid is securely closed. Verify that the dispensing funnel is clean and not clogged.
- **Error Codes:** If an error code appears on the display, consult the full user manual for specific code meanings and troubleshooting steps.
- **Motor Malfunction:** If the motor malfunctions, contact customer support. Note that warranty coverage

may depend on the seller and purchase location.

8. SPECIFICATIONS

- **Brand:** Baby Brezza
- **Model Name:** FRP0046
- **Color:** Silver
- **Special Feature:** Automatic Formula Mixing and Heating
- **Operation Mode:** Fully Automatic
- **Product Dimensions:** 11.02 x 7.09 x 14.17 inches
- **Item Weight:** 9.38 pounds
- **Material Type:** Acrylonitrile Butadiene Styrene Polypropylene
- **Power Source:** AC adapter
- **UPC:** 886267000188
