2. SAFETY INFORMATION

WARNING: Keep out of reach of children. Harmful if swallowed. May irritate eyes. Do not get in eyes. Do not reuse this package for dispensing beverages or other liquids.

- **First Aid:** If swallowed, give a glassful of water or milk and call a Poison Control Center or doctor immediately. Do not induce vomiting.
- If in eyes, rinse immediately with plenty of water for 15 minutes and seek medical advice.
- If on skin, rinse thoroughly with water.
- Store in a cool, dry place, away from direct sunlight and heat.
- Ensure the cap is securely closed after each use.

3. SETUP

Gain Liquid Laundry Detergent is ready to use directly from the bottle. No special setup is required. Simply ensure you have access to a washing machine and your laundry items.

1. Locate the detergent dispenser in your washing machine.
2. Familiarize yourself with the measuring cap on the Gain detergent bottle.

4. OPERATING INSTRUCTIONS

Follow these steps for optimal cleaning and freshness:

4.1. Dosage Guidelines

The measuring cap on your Gain bottle is designed to help you use the correct amount of detergent. Refer to the lines inside the cap for guidance:

- **Medium Loads:** Fill to line 1.
- **Large Loads:** Fill to line 2.
- **HE Full Loads:** Fill to line 3.
- For heavily soiled loads or extra freshness, you may use slightly more detergent.

4.2. Washing Procedure

1. **Start Water:** Begin filling your washing machine with water.
2. **Add Gain:** Pour the measured amount of Gain Liquid Laundry Detergent into the detergent dispenser or directly into the wash water.
3. **Add Clothes:** Place your laundry items into the washing machine.
4. **Select Cycle:** Choose the appropriate wash cycle and water temperature for your garments. Gain works effectively in both hot and cold water.
5. **Start Wash:** Close the washing machine lid and start the wash cycle.

6 WEEKS OF CRISP FRESHNESS*

*FROM WASH UNTIL WEAR

Image: Gain detergent provides up to 6 weeks of crisp freshness from wash until wear.

5. MAINTENANCE

Proper storage and handling ensure the longevity and effectiveness of your Gain Laundry Detergent.

- Store the detergent bottle upright in a cool, dry place.
- Avoid extreme temperatures.
- Keep the cap tightly closed when not in use to prevent spills and maintain scent integrity.
- Do not mix with other cleaning products.

6. TROUBLESHOOTING

If you encounter any issues while using Gain Laundry Detergent, consider the following:

Problem	Possible Cause	Solution
Excessive sudsing in HE machine	Too much detergent used for an HE load.	Ensure you are using the correct dosage for HE machines (Line 3 on the cap). HE detergents are low-sudsing.
Clothes not smelling fresh	Insufficient detergent, very large load, or extremely soiled items.	Increase detergent dosage for larger or heavily soiled loads. Ensure proper water temperature is selected.
Detergent residue on clothes	Overdosing detergent or insufficient rinse cycle.	Reduce detergent amount. Check if your washing machine's rinse cycle is functioning correctly. Do not overload the machine.
