2. Setup and Installation

Professional installation is recommended for the KOHLER Veil Intelligent Toilet to ensure proper functionality and adherence to local plumbing and electrical codes.

2.1 Pre-Installation Requirements

- Standard 12" (305 mm) rough-in for floor-mount installation.
- Requires an electrical GFCI outlet for power.
- Ensure adequate space around the toilet for installation and maintenance.

4. Maintenance and Care

Regular cleaning and maintenance will ensure the longevity and optimal performance of your KOHLER Veil Intelligent Toilet.

4.1 Cleaning the Toilet

- Use mild, non-abrasive cleaners and a soft cloth to clean the exterior surfaces.
- Avoid harsh chemicals or abrasive pads that could damage the finish.
- For the bowl, use standard toilet bowl cleaners as directed.

4.2 Self-Cleaning Wand

The toilet features a self-cleaning function that uses UV light and electrolyzed water systems to automatically clean the wand surfaces, ensuring hygiene after each use.

5. Troubleshooting

This section provides solutions to common issues you might encounter with your intelligent toilet.

Problem	Possible Cause	Solution
Toilet not responding to motion sensor	Sensor obstructed or dirty; power issue.	Clean sensor area; check power connection to GFCI outlet.
Bidet spray not working or weak	Water supply valve closed; nozzle clogged; remote settings.	Ensure water supply is open; clean nozzle; adjust pressure on remote.
Heated seat not warming	Temperature setting too low; power issue.	Adjust seat temperature on remote; check power.
Automatic flush not activating	Motion sensor issue; power issue.	Clean sensor; check power. Use manual flush button if needed.

For more complex issues, please refer to the full troubleshooting guide in your product's detailed manual or contact KOHLER customer support.
