MAINTENANCE AND CARE

To ensure the longevity and cleanliness of your Mega Construx set, follow these guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe dust from the pieces. For more thorough cleaning, a slightly damp cloth with mild soap can be used, followed by immediate drying. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the set in a cool, dry place away from direct sunlight to prevent discoloration or material degradation. Keep small pieces in a container to avoid loss.
- **Handling:** Handle the assembled set with care to prevent pieces from detaching. Avoid excessive force when connecting or disconnecting blocks.

TROUBLESHOOTING

If you encounter any issues during assembly or play, consider the following:

- **Missing Pieces:** Double-check all packaging materials. If a piece is genuinely missing, refer to the "Support and Contact Information" section for assistance.
- **Difficulty Connecting Pieces:** Ensure pieces are correctly oriented and aligned. Apply firm, even pressure. If a piece is consistently difficult, check for any manufacturing defects.
- **Set Instability:** Verify that all connections are secure and that pieces are placed according to the instructions. Loose connections can lead to instability.
