Philips Hue Discover Outdoor Smart Flood Light Fixture User Manual

Model: 1743530V7

INTRODUCTION

The Philips Hue Discover Outdoor Smart Flood Light Fixture brings intelligent and vibrant lighting to your outdoor spaces. Designed for durability and versatility, this weatherproof floodlight offers a spectrum of 16 million colors and various shades of warm-to-cool white light, allowing you to create any desired ambiance. It seamlessly integrates with your existing Philips Hue ecosystem via the Hue Bridge, enabling smart control through the Hue App and voice commands.

IMPORTANT SAFETY INSTRUCTIONS

Always prioritize safety during installation and operation. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- **Power Disconnection:** Before any installation, maintenance, or repair, ensure the power supply to the fixture is turned off at the circuit breaker. Verify that power is completely disconnected before proceeding.
- **Qualified Installation:** Installation should be performed by a qualified electrician in accordance with all local electrical codes and regulations.
- **Proper Grounding:** Ensure the fixture is properly grounded to prevent electrical shock.
- **Water Exposure:** This fixture is IP44 rated for outdoor use, meaning it is protected against water splashed from any direction. However, avoid submerging the fixture in water.
- **Secure Mounting:** Mount the fixture securely to a stable surface to prevent it from falling.
- **Avoid Overloading:** Do not connect the fixture to an overloaded circuit.

Refer to the detailed safety warnings provided in the original product documentation for comprehensive information.

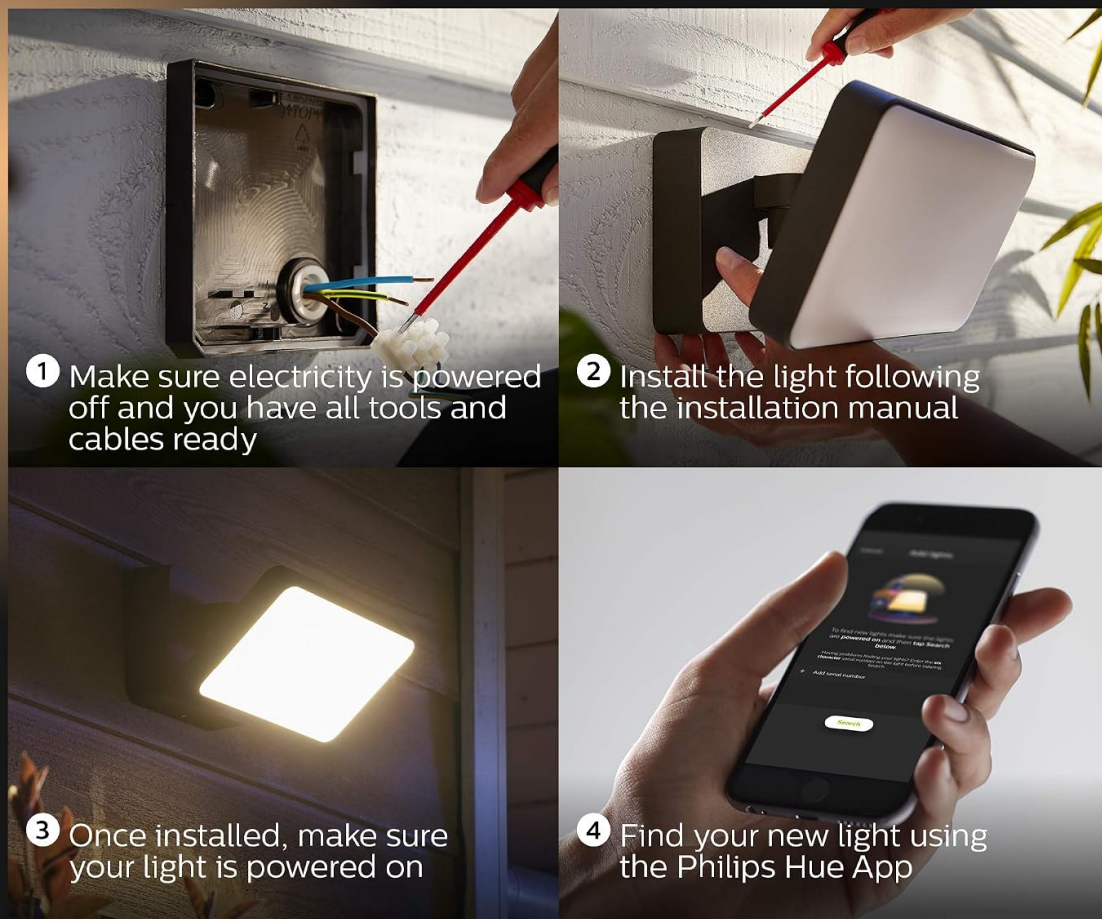

SETUP

Installation Guide

The Philips Hue Discover Flood Light is designed for straightforward installation on a standard 4-inch electrical box. Follow these general steps:

1. **Prepare for Installation:** Ensure electricity is powered off at the circuit breaker. Gather all necessary tools and cables.
2. **Mount the Bracket:** Attach the adjustable mounting bracket to your outdoor electrical box. This bracket is designed to fit standard 4-inch boxes and allows for flush mounting against the house.
3. **Wire the Fixture:** Connect the floodlight's wires (ground, black, white) to the corresponding wires from your electrical box using wire nuts. Ensure all connections are secure and properly insulated.
4. **Attach the Fixture:** Secure the floodlight assembly to the mounted bracket using the provided bolts and washers. Tighten firmly to ensure a watertight seal.
5. **Power On:** Once installed, turn the electricity back on at the circuit breaker.

4 step installation and connection to the Philips Hue bridge*

Connecting to Philips Hue Bridge

To unlock the full smart capabilities of your Discover Flood Light, it must be connected to a Philips Hue

Bridge (sold separately). The Bridge acts as the central hub for your Philips Hue smart lighting system.

- **Install Hue Bridge:** If you don't already have one, install your Philips Hue Bridge and connect it to your Wi-Fi router.
- **Download Hue App:** Download the Philips Hue App from your device's app store (available on iOS and Android).
- **Discover New Light:** Open the Hue App, navigate to 'Settings' > 'Lights' > 'Add light' and follow the on-screen instructions to discover your new Discover Flood Light.
- **Enjoy Smart Control:** Once connected, you can control your light from anywhere, set routines, and integrate with other smart home devices.

OPERATING INSTRUCTIONS

Controlling Your Light

The Philips Hue App is your primary interface for controlling the Discover Flood Light. Through the app, you can:

- **Adjust Brightness:** Dim or brighten the light to your desired intensity.
- **Change Colors:** Select from 16 million colors or various shades of white (warm to cool) to match any mood or occasion.
- **Set Scenes:** Apply pre-set or custom lighting scenes for instant ambiance.
- **Create Routines:** Schedule your lights to turn on/off, change color, or adjust brightness at specific times or based on events (e.g., sunrise/sunset).

Voice Control

Integrate your Philips Hue Discover Flood Light with popular voice assistants for convenient hands-free control:

- **Amazon Alexa:** Link your Philips Hue account in the Alexa app and use commands like "Alexa, turn on the patio lights" or "Alexa, set the floodlight to blue."
- **Google Assistant:** Connect your Philips Hue account in the Google Home app and use commands

such as "Hey Google, dim the outdoor lights" or "Hey Google, change the floodlight to warm white."

Extend voice control outdoors

Works with Amazon Alexa and the Google Assistant

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Philips Hue Discover Outdoor Smart Flood Light Fixture.

- **Cleaning:** Periodically clean the exterior of the fixture with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as they may damage the finish or light diffuser.
- **Weather Resistance:** The fixture is IP44 rated, designed to withstand various outdoor weather conditions. However, inspect the seals and connections periodically for any signs of wear or damage, especially after severe weather.
- **Bulb Replacement:** The LED light source in this fixture is integrated and not user-replaceable. If the light source fails, the entire fixture may need to be replaced.
- **Software Updates:** Keep your Philips Hue App and Bridge firmware updated to ensure compatibility

and access to the latest features and security enhancements.

Philips Hue Bridge

unlock full, reliable control

Seamlessly integrates with other smart home products

Control your lights securely from anywhere

Schedule your lights the way you want

Instant response. Ultra-stable connection

Secure, always up to date and futureproof

TROUBLESHOOTING

If you encounter issues with your Philips Hue Discover Outdoor Smart Flood Light Fixture, try the following troubleshooting steps:

- **Light Not Turning On:**
 - Check the circuit breaker to ensure power is on.
 - Verify all electrical connections are secure.
 - Ensure the light is properly added and selected in the Philips Hue App.
- **Connectivity Issues:**
 - Ensure your Philips Hue Bridge is powered on and connected to your network.
 - Move the floodlight closer to the Hue Bridge if it's too far.
 - Restart your Hue Bridge and router.
 - Check for any Wi-Fi interference.
- **Incorrect Color/Brightness:**
 - Ensure the correct scene or color is selected in the Hue App.
 - Check for any active routines or automations that might be overriding manual settings.
- **Mounting Stability:** Some users have reported challenges with the mounting solution. Ensure the bracket is securely fastened to the electrical box and the fixture is tightly attached to the bracket. Consider adding a bead of silicone caulk around the base for enhanced weatherproofing and stability if needed, ensuring it does not interfere with drainage or ventilation.

If problems persist after attempting these steps, please contact Philips Hue customer support.
