

Geepas GFL4645

Geepas GFL4645 Rechargeable LED Flashlight User Manual

1. INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Geepas GFL4645 Rechargeable LED Flashlight set. Please read this manual thoroughly before operating the flashlights and retain it for future reference. This set includes three standard rechargeable LED flashlights and one rechargeable LED pen flashlight, along with their respective charging accessories.

2. SAFETY INSTRUCTIONS

- **Do not look directly into the LED light source.** The intense light can cause temporary vision impairment.
- Keep the flashlights and charging accessories out of reach of children.
- Do not attempt to disassemble, modify, or repair the flashlight. Refer to qualified personnel for service.
- Use only the provided switching adapters for charging. Using unauthorized chargers may damage the device or pose a safety risk.
- Do not expose the flashlights to extreme temperatures, direct sunlight for prolonged periods, or fire.
- Ensure batteries are inserted correctly according to polarity markings.
- If the flashlight will not be used for an extended period, store it with a partial charge and recharge periodically to maintain battery health.

3. PACKAGE CONTENTS

Verify that all items are present in your package:

- 3 x Geepas GFL4645 Rechargeable LED Flashlights (standard size)
- 1 x Geepas Rechargeable LED Pen Flashlight
- 4 x Switching Adapters
- Rechargeable Batteries (pre-installed or included separately)

4.2 Pen Flashlight

The pen-style flashlight is compact, featuring a strip of LED lights, a pocket clip, and a power switch for

convenient use.

5. SETUP: CHARGING THE FLASHLIGHTS

Your Geepas flashlights feature a built-in recharging unit for convenience.

1. Locate the charging port on the flashlight. For the standard flashlights, this is typically covered by a rubber cap to ensure water resistance.
2. Connect the provided switching adapter to the flashlight's charging port.
3. Plug the switching adapter into a standard electrical outlet.
4. Allow the flashlight to charge until the charging indicator (if present) signals a full charge. The initial charge may take longer.
5. Once fully charged, disconnect the adapter from the flashlight and the power outlet. Ensure the charging port cover is securely closed on the standard flashlights to maintain water resistance.

6. OPERATING INSTRUCTIONS

Operating your Geepas flashlight is straightforward:

- **To Turn On:** Press the power button located on the flashlight body.
- **To Turn Off:** Press the power button again.

The flashlights provide a consistent white beam for illumination.

7. MAINTENANCE

- **Cleaning:** Wipe the flashlight body with a soft, dry cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish or internal components.
- **Storage:** Store the flashlights in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, recharge the flashlights regularly, even if they are not in frequent use. Avoid completely draining the battery before recharging.
- **Water Resistance:** For standard flashlights, ensure the charging port cover is always securely closed to maintain water resistance.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on.	Battery is discharged. Batteries are incorrectly inserted.	Recharge the flashlight. Check battery polarity and reinsert correctly.
Light is dim.	Low battery charge.	Recharge the flashlight fully.
Flashlight is not charging.	Charging adapter not properly connected. Power outlet issue. Faulty adapter.	Ensure adapter is securely connected to both flashlight and outlet. Try a different power outlet. Contact customer support if the adapter is suspected to be faulty.
