Goliath Rolit Game Instruction Manual

Model: 70803 | Brand: Goliath

PRODUCT OVERVIEW

Rolit is an engaging strategy game designed for 2 to 4 players, suitable for ages 7 and up. The primary objective of the game is to capture your opponent's Rolit balls by surrounding them, thereby converting them to your color. The player who successfully accumulates the most Rolit balls of their color by the end of the game is declared the winner. This game is known for its dynamic gameplay, where the board state can change significantly with each turn, offering a constant challenge of strategic thinking.

WHAT'S IN THE BOX

Before you begin, ensure all components are present:

- 1 Game Board
- 64 Rolit Balls (multi-colored)
- Complete Instructions (this manual)

SETUP

Follow these steps to prepare your Rolit game for play:

1. **Unfold the Game Board:** Carefully unfold the game board and place it on a flat, stable surface. Ensure the board is fully extended and lies flat.
2. **Place Initial Rolit Balls:** The game begins with a specific arrangement of Rolit balls in the center of the board. Refer to the diagram below for the initial setup. Each ball has four colored segments.
3. **Distribute Remaining Balls:** Place the remaining Rolit balls within easy reach of all players. These will be used throughout the game.

4. **Determine Starting Player:** Decide who goes first. This can be done by rolling a die, drawing lots, or any other agreed-upon method.

OPERATING (HOW TO PLAY)

Rolit is a game of strategy where players aim to have the most balls of their color on the board. Each player chooses a color (Red, Blue, Green, or Yellow) to represent them.

Game Objective:

To have the most Rolit balls showing your chosen color at the end of the game.

Taking a Turn:

1. **Place a Ball:** On your turn, you must place one of your Rolit balls into an empty space on the board. The ball must be placed so that it **surrounds** one or more of your opponents' balls, either horizontally, vertically, or diagonally, between your newly placed ball and another ball of your color already on the board.
2. **Capture Opponent's Balls:** Once you place a ball and surround one or more opponent's balls, you then **rotate** all the surrounded balls to show your color.
3. **No Valid Move:** If a player cannot make a valid move (i.e., cannot place a ball to surround any opponent's balls), they must pass their turn.

Capturing Rules:

- A line of opponent's balls is captured if it is bordered at both ends by balls of your color.
- This applies to any straight line (horizontal, vertical, or diagonal).
- Multiple lines can be captured in a single turn if your placed ball completes multiple surrounding lines.
- Only the balls *between* your two balls are flipped.

End of Game:

The game ends when all 64 spaces on the board are filled, or when no player can make a valid move.

Winning the Game:

At the end of the game, all players count the number of Rolit balls showing their color. The player with the highest number

of balls of their color wins the game.

MAINTENANCE

To ensure the longevity of your Rolit game, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the game board and Rolit balls with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, but ensure all parts are thoroughly dried before storage.
- **Storage:** Store the game in its original box in a cool, dry place away from direct sunlight and extreme temperatures. This helps prevent warping of the board and degradation of the plastic components.
- **Handling:** Handle the Rolit balls and board with care to avoid damage. While durable, excessive force or dropping can cause breakage.

TROUBLESHOOTING

Here are solutions to common questions or issues you might encounter:

- **Missing Pieces:** If any components are missing upon opening the box, please contact Goliath customer support for assistance.
- **Board Not Lying Flat:** If the board does not lie completely flat, gently press down on the creases or leave it unfolded on a flat surface for a period to allow it to settle.
- **Difficulty with Rules:** Review the "Operating (How to Play)" section carefully. Rolit's rules are simple but require understanding of the capturing mechanic. Playing a few practice rounds without keeping score can help new players grasp the concept.
