First Hatch

Your Llalacorn is ready to hatch! The hatching process takes approximately five minutes. To initiate hatching, gently tilt the egg back and forth. When you observe rainbow-colored eyes glowing through the shell, your Llalacorn is preparing to emerge. It will grow taller until it pushes the top of the egg off, singing "Hatchy Birthday!"
You will receive either a pink or purple Llalacorn. The color is a surprise until hatching is complete.

Operation and Interaction

Interactive Play Modes

Your Llalacorn is designed for various interactive play experiences. There is no single "right" way to play; explore and discover its unique personality and reactions.

- **Feeding:** To feed your Llalacorn, hold the confetti fruit accessory against its forehead. The Llalacorn's eyes will turn purple, indicating hunger. It will then chase the fruit up and down. If you place the fruit and your hand on its belly, it will chase the fruit downwards.
