## ASSEMBLY INSTRUCTIONS

The nanoblock Popplio kit consists of 110 micro-sized pieces. The difficulty level for this model is rated as 2 out of 5, making it suitable for builders aged 15 and above. Follow the included instruction sheet carefully for the best results.

1. **Preparation:** Unpack all nanoblock pieces and the instruction sheet. Sort the pieces by color and shape to make them easier to find during assembly.
2. **Follow the Steps:** Refer to the detailed, illustrated step-by-step instructions provided in the kit. Each step will show which pieces to use and where to place them.
3. **Precision:** nanoblocks are very small (as small as 4mm x 4mm x 5mm). Use a pair of tweezers (not included) if needed for precise placement of smaller blocks.
4. **Layer by Layer:** Most nanoblock models are built layer by layer from the base upwards. Ensure each layer is securely connected before proceeding to the next.
5. **Details:** Pay close attention to the specific colors and orientations of the blocks to accurately recreate Popplio's features, including its distinctive nose and collar.

## MAINTENANCE

Once assembled, your nanoblock Popplio model requires minimal maintenance. To keep it looking its best:

- **Cleaning:** Gently dust the model with a soft brush or a can of compressed air to remove any accumulated dust. Avoid using water or chemical cleaners, as these may damage the blocks or cause discoloration.
- **Display:** Display your model in a stable location away from direct sunlight and extreme temperatures to prevent fading or warping of the plastic.

## TROUBLESHOOTING

If you encounter any issues during assembly:

- **Missing Pieces:** Double-check the packaging and your work area. Due to the small size of nanoblocks, pieces can sometimes be overlooked.
- **Assembly Errors:** Carefully review the instruction manual for the step you are on. Disassemble and reassemble the problematic section if necessary.
- **Difficulty:** If you find a particular step challenging, take a break and return to it with fresh eyes. Sometimes a different perspective can help.
