

Innolux Rondo 400 LED

Innolux Rondo 400 LED Table Lamp User Manual

Model: Rondo 400 LED (711160 / 1LIR400-DS)

INTRODUCTION

The Innolux Rondo 400 LED is a stylish, multifunctional, and compact table lamp designed to provide high-quality light. Its elegant design combines steel and translucent plastic, making it suitable for various spaces, including kitchens and offices. The harmonious round shape is engineered to deliver powerful light without causing eye strain, mimicking the warm feeling of natural sunlight. This manual provides essential information for the safe and effective use of your Rondo 400 LED lamp.

SETUP

1. **Unpacking:** Carefully remove the Rondo 400 LED lamp from its packaging. Inspect for any signs of damage. Retain packaging for future transport or storage.

2. **Placement:** Place the lamp on a stable, flat surface. The compact design allows for placement in various settings such as desks, kitchen counters, or bedside tables. Ensure the lamp is positioned where its light can be effectively utilized.
3. **Power Connection:** Connect the power cable to the lamp and then plug it into a standard electrical outlet. The lamp is equipped with a 3-meter cable for flexible placement.

OPERATING INSTRUCTIONS

- **Power On/Off:** The Rondo 400 LED lamp features touch control. Gently touch the designated area on

the lamp to turn it on or off.

- **Light Therapy Usage:** For optimal light therapy benefits, position the lamp at the recommended distances:
 - At 50 cm (approximately 20 inches), the lamp provides 2500 lux.
 - At 25 cm (approximately 10 inches), the lamp provides 10,000 lux.

Consult a healthcare professional for personalized recommendations regarding duration and intensity of light therapy.

- **General Illumination:** For general room illumination, place the lamp in a desired location and adjust its position to achieve the preferred lighting effect.

MAINTENANCE

- **Cleaning:** Ensure the lamp is unplugged before cleaning. Wipe the exterior surfaces (polycarbonate and steel) with a soft, dry, or slightly damp cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.
- **LED Components:** The LED light source is integrated and not user-replaceable. The lamp is designed for long-term performance of its LED components.

- **Safety:** The lamp has an IP20 rating, meaning it is protected against solid objects larger than 12.5mm but has no protection against water. Do not expose the lamp to water or high humidity.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on.	Not plugged in, power outlet malfunction, or internal issue.	Check if the power cable is securely plugged into both the lamp and the wall outlet. Test the outlet with another device. If the problem persists, contact customer support.
Light flickers or is dim.	Unstable power supply or internal LED component issue.	Ensure the lamp is connected to a stable power source. If flickering continues, discontinue use and contact customer support.
Touch control is unresponsive.	Temporary sensor malfunction or power issue.	Unplug the lamp for a few minutes, then plug it back in. Ensure your hands are clean and dry when operating the touch control.

If you encounter any issues not listed here or if the suggested solutions do not resolve the problem, please contact Innolux customer support or your retailer for assistance.
