LG 32QN600-B

LG 32QN600-B QHD 32-Inch IPS Monitor User Manual
Model: 32QN600-B

INTRODUCTION

This manual provides instructions for the setup, operation, and maintenance of your LG 32QN600-B QHD 32-inch IPS monitor. Please read this manual thoroughly before operating your device to ensure safe and optimal performance. Keep this manual for future reference.

IMPORTANT SAFETY INFORMATION

Always follow basic safety precautions when using this product to reduce the risk of fire, electric shock, and injury to persons. This includes, but is not limited to:

- Do not block ventilation openings.
- Do not install near any heat sources.
- Protect the power cord from being walked on or pinched.
- Only use attachments/accessories specified by the manufacturer.
- Refer all servicing to qualified service personnel.

SETUP

1. Unpacking

Carefully remove all components from the packaging. Ensure all parts listed in the packing list are present and undamaged. Keep packaging materials for future transport or return.

2. Stand Assembly / Wall Mounting

The monitor can be set up using its adjustable Edge-ArcLine stand or mounted to a wall using a VESA compatible mount (100 x 100 mm). Follow the instructions provided with the stand or wall mount kit for proper assembly.

3. Connecting to a Computer

Connect the monitor to your computer using one of the following cable types. Ensure the monitor and computer are powered off before making connections.

- **HDMI Connection:** Use an HDMI cable to connect the monitor's HDMI port to the HDMI port on your computer's graphics card. This monitor supports 2 HDMI inputs.
- **DisplayPort Connection:** Use a DisplayPort cable to connect the monitor's DisplayPort to the DisplayPort on your computer's graphics card. This monitor supports 1 DisplayPort input.

4. Power Connection

Connect the power adapter to the monitor's power input, then plug the power cord into a wall outlet.

OPERATING THE MONITOR

1. Power On/Off

Image: Front view of the LG 32QN600-B QHD 32-inch IPS monitor, showing the display and stand.

Press the power button (usually a joystick-style button located on the bottom center of the monitor) to turn the monitor on or off.

2. On-Screen Display (OSD) Menu Navigation

The OSD menu allows you to adjust various monitor settings. Use the joystick button to navigate the menu:

- Press the joystick button to open the main OSD menu.
- Move the joystick up/down/left/right to navigate through menu options.
- Press the joystick button to select an option or confirm a setting.
- Move the joystick left to exit a sub-menu or the OSD.

3. Picture Settings

Adjust display settings for optimal viewing experience:

- **Brightness:** Controls the overall luminance of the screen.
- **Contrast:** Adjusts the difference between light and dark areas.
- **Color Temperature:** Changes the color warmth or coolness.
- **Gamma:** Adjusts the mid-tone luminance.

4. Special Features

The LG 32QN600-B monitor includes several features to enhance your viewing and gaming experience:

- **HDR 10 Compatibility:** Supports High Dynamic Range content for enhanced contrast and color detail.
- **Reader Mode:** Reduces blue light emissions to minimize eye strain during long reading sessions.
- **Flicker Safe:** Virtually eliminates screen flicker to reduce eye fatigue.
- **AMD FreeSync:** Synchronizes the monitor's refresh rate with compatible AMD graphics cards to reduce screen tearing and stuttering for smoother gameplay.
- **Dynamic Action Sync (DAS):** Minimizes input lag, allowing for quicker responses in fast-paced games.
- **Black Stabilizer:** Automatically brightens dark areas in games, making it easier to spot objects or enemies hidden in shadows.

MAINTENANCE

Cleaning the Monitor

To clean the monitor, ensure it is powered off and unplugged from the power outlet. Use a soft, lint-free cloth lightly dampened with water or a mild, non-abrasive screen cleaner. Do not spray cleaner directly onto the screen. Avoid using harsh chemicals, abrasives, or solvents.

General Care

Avoid placing heavy objects on the monitor or its cables. Do not expose the monitor to direct sunlight, high humidity, or extreme temperatures. Ensure adequate ventilation around the monitor.

TROUBLESHOOTING

If you experience issues with your monitor, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
No power	Ensure the power cord is securely connected to the monitor and a working power outlet. Check if the power adapter is functioning.
No signal / Blank screen	Verify that the video cable (HDMI or DisplayPort) is securely connected to both the monitor and the computer. Ensure the correct input source is selected in the OSD menu. Check if the computer is powered on and not in sleep mode.
Image is blurry or distorted	Adjust the resolution settings on your computer to match the monitor's native resolution (2560 x 1440). Check the video cable for damage. Perform an auto-adjustment or reset picture settings in the OSD menu.
Colors are incorrect	Adjust color settings (color temperature, gamma) in the OSD menu. Ensure your graphics card drivers are up to date.
Screen tearing or stuttering (during gaming)	Ensure AMD FreeSync is enabled on both the monitor (via OSD) and your compatible AMD graphics card settings.

If the problem persists after trying these solutions, contact LG customer support.

SPECIFICATIONS
