## IFB SERENA AQUA SX LDT

# IFB 6 Kg Fully-Automatic Front Loading Washing Machine User Manual

Model: SERENA AQUA SX LDT

Brand: IFB

## INTRODUCTION

This user manual provides comprehensive instructions for the safe and efficient operation, installation, and maintenance of your IFB 6 Kg Fully-Automatic Front Loading Washing Machine (Serena Aqua SX LDT). Please read this manual thoroughly before using the appliance and keep it for future reference.

## SETUP AND INSTALLATION

Proper installation is crucial for the optimal performance and longevity of your washing machine. It is recommended to have the installation performed by an authorized service technician.

### Pre-Installation Site Readiness

Before the technician arrives, ensure the following conditions are met at the installation site:

- Water Supply:** A tap connection for water intake is required. The water supply pressure should be between 0.3 Bar to 10 Bar.
- Drainage:** An outlet connection to drain water is necessary. Ensure proper drainage facilities are available.
- Electrical Point:** A 15 Ampere electric point with proper earthing is essential to prevent electric shock and ensure safe operation.
- Level Surface:** The machine should be placed on a stable, level surface to prevent vibrations and noise during operation.

## Installation Process

Upon delivery of your washing machine, Amazon will coordinate with the brand for installation. A brand-authorized technician will contact you within 24 to 36 hours of delivery to schedule the installation visit. The technician will install the product and explain its features.

**Note:** Standard installation covers basic setup. Any extra materials required, such as a base stand or additional plumbing, will incur nominal charges not covered under standard installation.

## Key Features and Functions

- Air Bubble Wash:** This technology uses air bubbles to effectively remove tough stains without damaging fabric.
- 3D Wash System:** Ensures thorough soaking of clothes for a cleaner wash.
- Crescent Moon Drum:** The unique drum surface creates a gentle wash cushion, protecting clothes from damage.

**Image:** View inside the drum of the IFB washing machine, showcasing the crescent moon grooves designed for gentle washing.

- LCD Display with Child Lock:** Provides clear information and prevents accidental program changes by children.
- 1000 RPM Spin Speed:** Delivers efficient cleaning and faster water drainage at the end of the wash cycle.
- Aqua Energie:** A built-in device energizes water, allowing detergent to dissolve better for a softer, cleaner wash.
- Ball Valve Technology:** Prevents detergent wastage by letting water out while keeping detergent in.
- Auto Balance System:** Automatically detects unbalanced clothes and redistributes the load for a consistent and stable wash.

- **Laundry Add Feature:** Allows you to add missed laundry even after the wash cycle has started.
- **Time Delay:** Delays the start of the wash cycle to suit your convenience.
- **High/Low Voltage Protection:** Detects voltage fluctuations and protects the machine from damage.

## Wash Programs

Select the appropriate wash program based on the fabric type and soil level:

- **Quick Wash:** For lightly soiled clothes requiring a fast wash.
- **Eco:** Energy-efficient program for normal loads.
- **Heavy Duty:** For heavily soiled items.
- **Delicates:** Gentle wash for delicate fabrics.
- **Normal:** Standard wash program for everyday laundry.
- Other programs may include Synthetics, Cotton, Woolens, Mixed, Rinse + Spin, and CradleWash. Refer to the control panel for specific temperature settings.

## MAINTENANCE

Regular maintenance ensures the longevity and efficient performance of your washing machine.

- **Cleaning the Drum:** Periodically run a drum clean cycle or use a washing machine cleaner to prevent odor and residue buildup.
- **Cleaning the Detergent Dispenser:** Remove and clean the detergent dispenser regularly to prevent blockages.
- **Cleaning the Lint Filter:** Check and clean the lint filter after every few washes to ensure proper drainage.
- **Wiping the Exterior:** Use a soft, damp cloth to wipe the exterior of the machine. Avoid abrasive cleaners.
- **Door Seal Maintenance:** Wipe the door seal dry after each wash to prevent mold and mildew growth. Leave the door slightly ajar when not in use.

## TROUBLESHOOTING

Before contacting customer service, refer to the following common issues and their solutions:

Problem	Possible Cause	Solution
Machine does not start	Power cord not plugged in; Door not closed properly; Water supply off.	Check power connection; Ensure door is securely latched; Turn on water supply.
Excessive vibration/noise	Machine not level; Transport bolts not removed; Unbalanced load.	Adjust leveling feet; Remove transport bolts (if new installation); Redistribute laundry evenly.
Water leakage	Hoses loose or damaged; Detergent dispenser clogged.	Check hose connections; Clean detergent dispenser.
Clothes not clean	Overloading; Insufficient detergent; Incorrect program selection.	Reduce load size; Use recommended detergent amount; Select appropriate wash program.
