JEKCA 01S-M02

JEKCA Toy Poodle 01S-M02 Building Blocks Instruction Manual

Model: 01S-M02 | Brand: JEKCA

INTRODUCTION

Thank you for choosing the JEKCA Toy Poodle 01S-M02 building block set. This manual provides detailed instructions for assembling your model. JEKCA building blocks utilize a unique interlocking brick-through system, ensuring a sturdy and durable final construction without the need for glue. This set is designed for individuals aged 14 and above, offering an engaging and rewarding building experience.

Please read all instructions carefully before beginning assembly. Keep this manual for future reference.

WHAT'S IN THE BOX

Your JEKCA Toy Poodle 01S-M02 set includes the following components:

- Bricks (over 900 pieces)
- Instruction Manual
- Pin Driver
- Pins
- Quick Guide

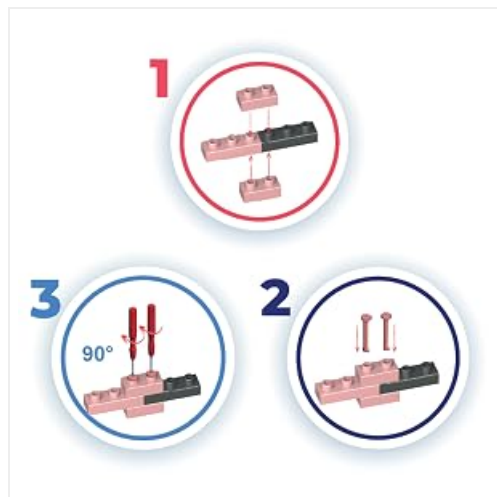

Image: Various JEKCA building bricks and pins, essential components for assembly.

SETUP

1. **Unpack Components:** Carefully remove all bricks, pins, and the pin driver from the packaging.
2. **Organize Bricks:** It is recommended to sort the bricks by color and size to facilitate easier assembly.
3. **Review Instructions:** Familiarize yourself with the instruction manual and quick guide before starting.
4. **Prepare Workspace:** Ensure you have a clean, well-lit, and spacious area to work on your model.

ASSEMBLY INSTRUCTIONS

The JEKCA building system uses a patented interlocking brick-through technology. Follow the steps below and refer to the included quick guide for detailed visual instructions.

Image: Step-by-step diagram illustrating the JEKCA interlocking brick-through system.

1. Step 1: Align Bricks

Place two bricks together, ensuring their studs align correctly. The bricks should fit snugly without force.

2. Step 2: Insert Pins

Once bricks are aligned, insert the provided pins through the designated holes. The pins will pass through both bricks, securing them together. Use the pin driver for easier insertion.

3. Step 3: Secure Pins

Gently push the pins until they are flush with the surface of the bricks. The pin driver can assist in fully seating the pins. This creates a strong, stable connection.

4. Follow Manual:

Continue assembling the model layer by layer, following the specific instructions and diagrams provided in your detailed instruction manual. Pay close attention to brick orientation and pin placement.

5. Check Connections:

Periodically check that all connections are secure. If a brick feels loose, ensure the pins are fully inserted.

OPERATING (DISPLAY AND HANDLING)

Once assembled, your JEKCA Toy Poodle model is a sturdy display piece.

- **Display:** Place your finished model on a stable, flat surface away from direct sunlight or extreme temperatures to prevent material degradation.
- **Handling:** While the model is robust due to the interlocking system, avoid dropping it or applying excessive force, which could dislodge bricks or pins.

MAINTENANCE

To keep your JEKCA model in optimal condition:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. For more thorough cleaning, use a slightly damp cloth with mild soap and water, then wipe dry immediately. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** If disassembling for storage, keep all bricks and pins organized in a container to prevent loss.

TROUBLESHOOTING

- **Missing Pieces:** If you find any missing bricks or pins, please contact JEKCA customer support with details of the missing components and your purchase information.
- **Difficulty Inserting Pins:** Ensure the bricks are perfectly aligned. Apply firm, even pressure with the pin driver. Do not force pins if alignment is incorrect, as this may damage the bricks.
- **Loose Connections:** If a section feels loose, check that all pins in that area are fully inserted and flush with the brick surface.
- **Disassembly:** To disassemble, carefully use the pin driver to push the pins out from the opposite side. Avoid pulling bricks apart without removing pins first.

SPECIFICATIONS

Model Number	ST19PT30-M02 (01S-M02)
Brand	JEKCA
Material Type	Plastic
Number of Pieces	Over 900
Item Dimensions (L x W x H)	10.08 x 4.45 x 7.4 inches (25.6 x 11.3 x 18.8 cm)
Item Weight	0.73 Kilograms
Recommended Age	14 years and above
Educational Objective	Concentration, Construction Skills
Special Feature	Sturdy without glue (Interlocking Brick-through System)

Dimension

Length : 51.3cm

Width : 22.5cm

Height : 37.5cm
