5. MAINTENANCE

To maintain the appearance and integrity of your JEKCA Doberman Pinscher model, follow these guidelines:

- **Cleaning:** Gently wipe the assembled model with a dry, soft cloth to remove dust. Avoid using abrasive cleaners or excessive moisture, as this may damage the plastic or affect the connections.
- **Storage:** Store the model in a dry environment away from direct sunlight and extreme temperatures to prevent

material degradation or discoloration.

- **Handling:** Handle the model with care to avoid accidental disassembly. While the interlocking system provides sturdiness, excessive force can cause pieces to detach.

6. TROUBLESHOOTING

If you encounter issues during assembly or with the completed model, consider the following:

- **Missing Pieces:** If you find any pieces are missing from your set, please contact JEKCA customer support for assistance.
- **Difficulty Connecting Bricks:** Ensure that the pins are correctly aligned with the holes in the bricks. Apply firm, even pressure. If a piece does not fit, double-check the instruction manual to confirm you are using the correct brick and orientation for that step.
- **Confusing Instructions:** The instruction manual provides visual diagrams. Carefully count the studs and identify the connection points as shown in the illustrations. Sorting pieces before starting can significantly reduce confusion.
