

Sordin Pro-X LED

Sordin Pro-X LED Ear Muffs Instruction Manual

Model: Pro-X LED

1. INTRODUCTION

The Sordin Pro-X LED Ear Muffs are advanced active and electronic hearing protectors designed for environments requiring both noise attenuation and sound amplification. These ear defenders are suitable for activities such as hunting and shooting, providing protection against harmful impulse noise while enhancing ambient sounds for improved situational awareness. This manual provides essential information for the proper use, maintenance, and care of your Sordin Pro-X LED ear muffs.

2. SAFETY INFORMATION

Always read and understand all safety instructions before using this product. Failure to follow these instructions may result in hearing damage or other injuries.

- **Proper Fit:** Ensure the ear muffs fit snugly around your ears to achieve optimal noise reduction. Hair, eyeglasses, or other objects under the ear cushions can reduce effectiveness.
- **Continuous Exposure:** Even with hearing protection, prolonged exposure to very high noise levels can still cause hearing damage.
- **Battery Safety:** Use only recommended battery types. Do not mix old and new batteries, or different types of batteries. Dispose of batteries according to local regulations.
- **Cleaning:** Clean the ear muffs regularly as instructed in the maintenance section to ensure hygiene and performance.
- **Modifications:** Do not modify the ear muffs. Unauthorized modifications can compromise safety and performance.

3. PRODUCT OVERVIEW AND FEATURES

The Sordin Pro-X LED ear muffs are designed with advanced features for superior hearing protection and situational awareness.

- **Active Noise Attenuation:** Reduces harmful loud noises while amplifying soft sounds.
- **Four Selectable Sound Modes:** Includes Hunting, Focus, Shooting, and Communication modes for optimized audio performance in various scenarios.
- **Integrated LED Light:** A convenient LED light is included on the side for illumination in low-light conditions.
- **Gel Cushions:** Equipped with comfortable gel cushions for extended wear and an improved seal.
- **Waterproof Electronics:** Features waterproof electronics for reliable performance in diverse weather

conditions.

- **1:4 Noise Amplification:** Enhances ambient sounds up to four times their natural level.
- **EN 352 Certified:** Manufactured in Sweden to meet high quality standards, certified according to EN 352.

Figure 1: Sordin Pro-X LED Ear Muffs in Camo. These ear muffs feature a camouflage pattern on the headband and ear cups, with the Sordin logo visible on the side.

SORDIN

**Active noise amplification, perfect for
hunters, shooters & special forces**

**Aktive Geräusch-Verstärkung, perfekt für
Jäger, Schützen & Spezial-Einheiten**

Figure 2: Internal diagram illustrating SordinHEAR technology. This image shows a transparent view of the ear cup, highlighting the internal microphone and electronic components responsible for active sound processing.

4. SETUP

4.1 Battery Installation

The Sordin Pro-X LED ear muffs require two AAA batteries (not included) for operation. Ensure correct polarity during installation.

1. Locate the battery compartment on one of the ear cups. It is typically integrated near the control knob.
2. Carefully open the battery compartment cover. This may require a slight twist or pull.
3. Insert two AAA batteries, ensuring the positive (+) and negative (-) terminals align with the indicators inside the compartment.
4. Close the battery compartment cover securely until it clicks into place.

Figure 3: Close-up view of the battery compartment. This image shows the side of an ear cup with the battery compartment open, revealing the slots for AAA batteries.

4.2 Adjusting Fit

For optimal performance and comfort, adjust the ear muffs to fit your head properly.

1. Extend the headband by sliding the ear cups downwards.
2. Place the ear cups over your ears, ensuring they fully cover your outer ears.
3. Adjust the headband by sliding the ear cups upwards until the headband rests comfortably on the top of your head and the ear cushions create a firm, even seal around your ears.
4. Ensure no hair, clothing, or other objects interfere with the seal of the ear cushions.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

The control buttons are located on the side of the ear cup.

- **To Power On:** Briefly press the power button once.
- **To Power Off:** Press and hold the power button for several seconds until the unit powers down.

The unit features an auto power-off function to conserve battery life. If the unit is about to power off automatically,

an audio warning beep will sound. Press any volume button to extend operation for another four hours.

5.2 Volume Control

Adjust the amplification level of ambient sounds using the volume buttons.

- Press the '+' button to increase the volume.
- Press the '-' button to decrease the volume.

There are five distinct volume levels available for adjustment.

Figure 4: Front view of the ear cup highlighting the easy-to-operate keypad. The image shows the control panel with distinct buttons for power and volume adjustment.

5.3 LED Light Operation

The integrated LED light provides additional illumination when needed.

1. Ensure the ear muffs are powered on.
2. To activate the LED light, simultaneously press both the '+' and '-' volume buttons.
3. Repeat the action (simultaneously pressing both volume buttons) to turn off the LED light.

Figure 5: A person wearing the Sordin Pro-X LED ear muffs while aiming a rifle. The LED light on the side of the ear cup is visibly illuminated, demonstrating its function in a practical setting.

5.4 Sound Modes

The Sordin Pro-X LED offers four selectable sound modes to optimize audio performance for different activities. Refer to the manufacturer's full manual for detailed instructions on how to switch between these modes.

- **Hunting Mode:** Optimized for detecting subtle sounds in natural environments.
- **Focus Mode:** Enhances specific sounds while reducing background distractions.
- **Shooting Mode:** Provides maximum impulse noise protection while maintaining awareness of commands and communication.
- **Communication Mode:** Designed for clear voice communication in noisy environments.

6. MAINTENANCE

6.1 Cleaning

Regular cleaning helps maintain hygiene and extends the lifespan of your ear muffs.

- Wipe the exterior of the ear cups and headband with a damp cloth and mild soap.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the materials.
- Ensure no moisture enters the electronic components or battery compartment.
- Clean the gel cushions with a soft, damp cloth.

6.2 Gel Cushion Replacement

The gel cushions are designed for comfort and an effective seal. Over time, they may wear out and require replacement to maintain optimal performance.

- Inspect gel cushions regularly for cracks, hardening, or other signs of wear.
- Replacement gel cushion kits are available from authorized Sordin retailers.
- Follow the instructions provided with the replacement kit for proper installation.

Figure 6: Side view of the Sordin Pro-X LED ear muffs, emphasizing the super comfortable hygienic gel cushions. The image clearly shows the soft, transparent gel material forming the ear seal.

6.3 Storage

When not in use, store the ear muffs in a clean, dry place away from direct sunlight and extreme temperatures. Remove batteries if storing for extended periods to prevent leakage.

7. TROUBLESHOOTING

If you experience issues with your Sordin Pro-X LED ear muffs, refer to the following common solutions.

Problem	Possible Cause	Solution
No sound or weak sound amplification	Dead or incorrectly installed batteries Unit is off Volume too low	Replace batteries, ensuring correct polarity Power on the unit Increase volume using the '+' button

Problem	Possible Cause	Solution
Poor noise attenuation	Improper fit Worn or damaged gel cushions Obstruction under ear cushions	Adjust headband for a snug fit Replace gel cushions Remove hair, eyeglasses, or other obstructions
LED light not working	Unit is off Incorrect activation sequence	Power on the unit Ensure unit is on, then press both volume buttons simultaneously
Unit powers off unexpectedly	Low battery Auto power-off activated	Replace batteries Press any volume button when warning beep sounds to extend operation

If the problem persists after attempting these solutions, please contact Sordin customer support.

8. SPECIFICATIONS

- **Model:** Sordin Pro-X LED
- **Type:** Active and Electronic Ear Defenders
- **Power Source:** 2 x AAA Batteries
- **Sound Amplification:** Up to 1:4 ratio
- **Ear Cushions:** Gel
- **Certification:** EN 352-1/-4/-8
- **Origin:** Sweden
- **ASIN:** B07NP2PCF3

SORDIN

**Certified as work protection according
to EN 352-1/-4/-8**

**Zertifiziert als Arbeitsschutz nach
EN 352-1/-4/-8**

Figure 7: Sordin Pro-X LED ear muff displaying its certification label. The label confirms compliance with EN 352 standards for hearing protection.

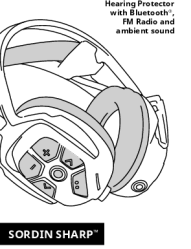

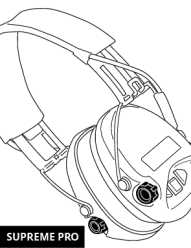

9. WARRANTY AND SUPPORT

For detailed warranty information and customer support, please refer to the official Sordin website or contact your authorized Sordin retailer. Keep your proof of purchase for warranty claims.
