

JEKCA 01C-M01

JEKCA Doberman Pinscher 01C-M01 Plastic Building Blocks Instruction Manual

Brand: JEKCA | Model: 01C-M01

INTRODUCTION

This manual provides detailed instructions for assembling your JEKCA Doberman Pinscher 01C-M01 plastic building block set. Designed for individuals aged 14 and above, this set allows you to construct a sturdy and aesthetically pleasing Doberman Pinscher model using JEKCA's patented interlocking brick-through system. Follow these guidelines to ensure a successful and enjoyable building experience.

The set contains over 730 pieces and includes all necessary components for assembly.

WHAT'S IN THE BOX

- Instruction Manual
- Bricks (various sizes and colors)
- Pins
- Pin Driver
- Quick Guide

SAFETY INFORMATION

WARNING: Small parts inside. Not suitable for children under 14 years due to choking hazards.

Always keep small parts away from young children and pets. Use the provided tools carefully to avoid injury.

SETUP AND ASSEMBLY

Before beginning assembly, ensure you have a clean, well-lit workspace. Sort the bricks by color and size to facilitate easier identification during the building process. Refer to the instruction manual for step-by-step guidance.

General Assembly Tips:

- **Follow the Manual:** The included instruction manual provides detailed diagrams for each step. Pay close attention to the brick types, colors, and placement indicated.
- **Layer-by-Layer Construction:** JEKCA models are built layer by layer. Ensure each layer is securely connected before proceeding to the next.
- **Using the Pin Driver:** The pin driver is essential for securely interlocking bricks. Insert pins into designated holes and turn 90 degrees to lock them in place.
- **Check Connections:** Periodically check that all connections are firm to maintain the model's stability.

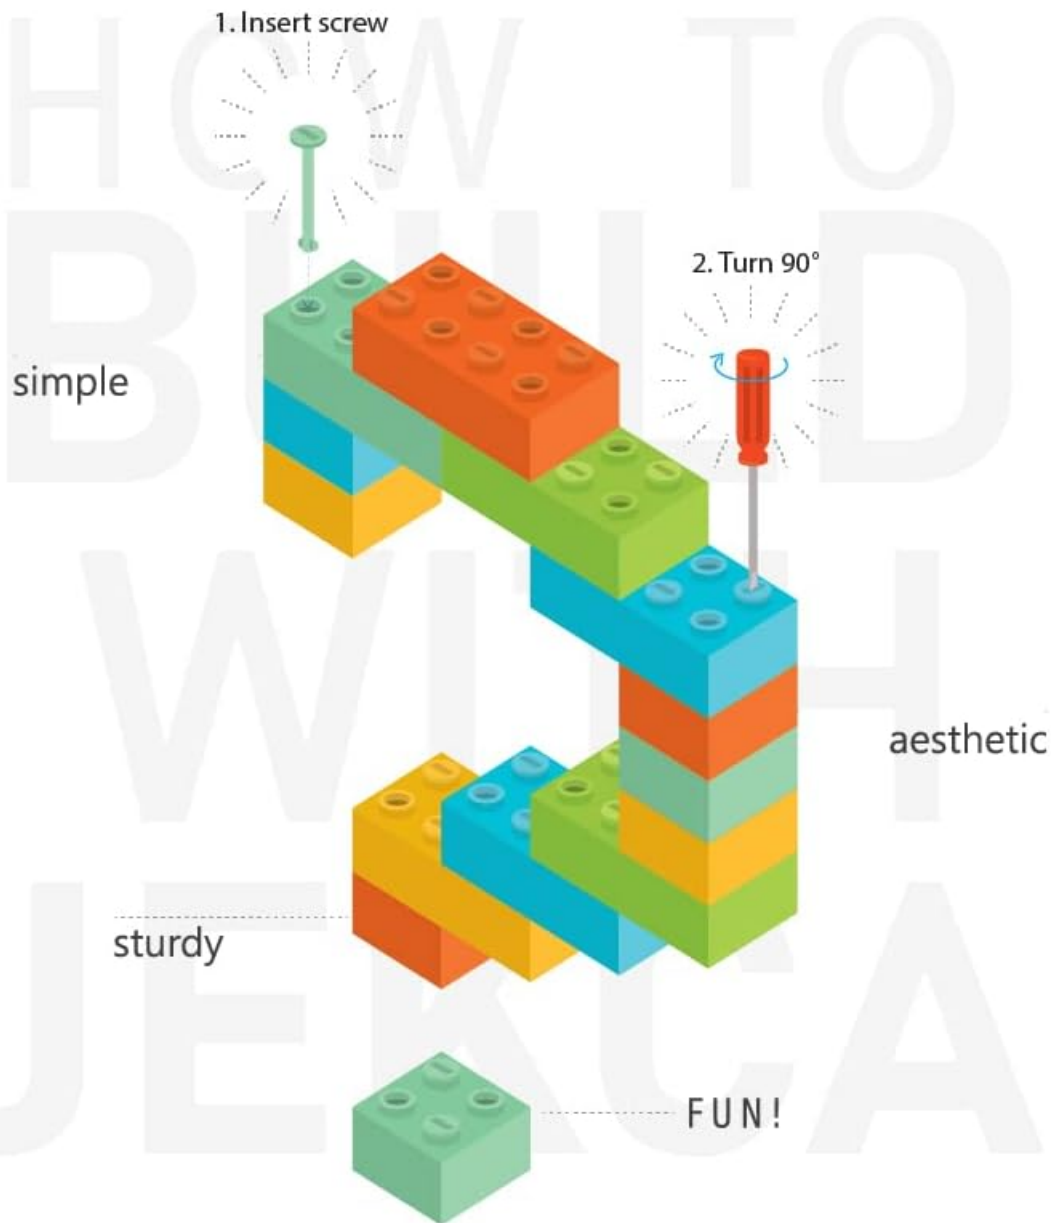

Image: Illustration of the JEKCA interlocking system, demonstrating how to insert a pin and turn it 90 degrees to secure two blocks together. This ensures a sturdy connection.

Image: A side view of the assembled JEKCA Doberman Pinscher model, highlighting its dimensions: Length 57.5cm, Width 17.5cm, Height 50.8cm. This provides a visual reference for the final size.

OPERATING INSTRUCTIONS

This JEKCA Doberman Pinscher model is a static display piece once assembled. It is not designed for active play or rough handling. The interlocking system provides stability, but excessive force can cause bricks to detach.

Once completed, the model can be displayed on any flat surface. Its robust construction ensures it will remain intact for long-term display.

MAINTENANCE

To maintain the appearance of your JEKCA Doberman Pinscher model:

- **Cleaning:** Gently dust the model with a soft, dry cloth or a soft brush. For more stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture.
- **Storage:** If disassembling for storage, keep all bricks and pins organized to prevent loss. Store in a cool, dry place away from direct sunlight to prevent material degradation or color fading.

TROUBLESHOOTING

Common Issues and Solutions:

- **Difficulty Connecting Bricks:** Ensure the pins are correctly aligned and fully inserted before turning. Apply firm, even pressure. If a brick is particularly tight, gently wiggle it while applying pressure.
- **Missing Pieces:** Carefully check all packaging and the workspace. If pieces are genuinely missing, contact JEKCA customer support with your product details.
- **Model Instability:** Re-examine the connections in the affected area. Ensure all pins are properly inserted and turned 90 degrees. Refer to the manual to verify correct brick placement.
- **Confusing Instructions:** If a specific step is unclear, review the preceding and succeeding steps for context. JEKCA manuals use visual diagrams; sometimes a different perspective can clarify the assembly.

SPECIFICATIONS

Product Dimensions	22.64 x 6.89 x 20 inches
Item Weight	7.05 pounds
Model Number	CM19PT25-M01
Recommended Age	14 years and up
Number of Pieces	>730
Material	Plastic
Manufacturer	JEKCA Limited
