JEKCA ST19PT19-M01

JEKCA German Shepherd 01S-M01 Building Blocks Instruction Manual

Model: ST19PT19-M01 | Brand: JEKCA

1. PRODUCT OVERVIEW

The JEKCA German Shepherd 01S-M01 is a detailed plastic building block set designed for enthusiasts aged 14 and above. This set allows you to construct a realistic German Shepherd sculpture using JEKCA's unique interlocking brick-through system, ensuring a sturdy and aesthetically pleasing final model. The set contains over 1180 pieces, providing a challenging yet rewarding building experience.

2. SAFETY INFORMATION

This product contains small parts and is recommended for individuals aged **14 years and up**. Keep small parts away from young children to prevent choking hazards. Adult supervision is advised for younger builders within the recommended age range.

3. PACKAGE CONTENTS

Upon opening the package, please verify that all components are present:

- Instruction Manual
- Plastic Building Blocks (over 1180 pieces)
- Pins
- A Pin Screwdriver

- Quick Guide

If any parts are missing or damaged, please contact JEKCA customer support.

4. ASSEMBLY INSTRUCTIONS (SETUP)

The JEKCA building blocks utilize a unique interlocking brick-through system, which ensures the completed model is exceptionally sturdy and not prone to breaking apart. Follow the detailed steps provided in the included building manual for precise assembly.

4.1. Understanding the Interlocking System

Each block is designed to interlock with others using pins. This system creates a strong bond between pieces, making the final sculpture robust.

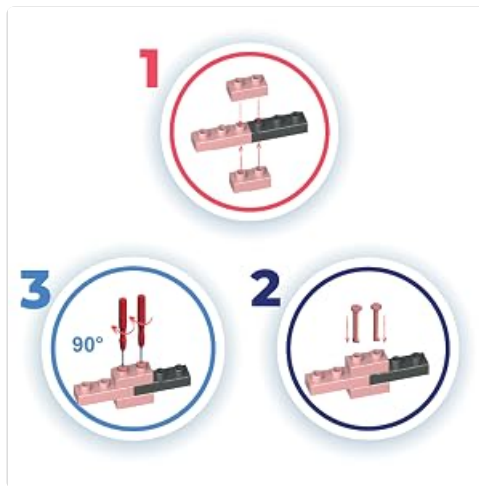

Image: Diagram showing how JEKCA blocks interlock using pins and a screwdriver for secure connection.

4.2. Step-by-Step Assembly

Refer to the comprehensive building manual provided in your package for detailed, step-by-step instructions specific to the German Shepherd model. The general process involves:

1. Identify the required blocks and pins for each step as indicated in the manual.
2. Align the blocks according to the diagrams.
3. Insert the pins through the designated holes to secure the blocks together.
4. Use the provided pin screwdriver to turn the pins 90 degrees, locking them into place. This ensures maximum stability.
5. Repeat these steps, following the manual's sequence, until the model is complete.

Image: Visual guide demonstrating the three key steps of JEKCA assembly: aligning blocks, inserting pins, and turning pins 90 degrees with the screwdriver.

5. OPERATING (BUILDING PROCESS)

The "operation" of this product refers to the engaging process of constructing the German Shepherd model. This activity is designed to be a rewarding experience, fostering patience and attention to detail.

- **Patience is Key:** Due to the intricate nature and high piece count, the assembly process may take time. Allocate sufficient time and work at your own pace.
- **Follow the Manual:** Adhering strictly to the provided instruction manual is crucial for successful completion and to ensure the structural integrity of the model.
- **Enjoy the Process:** The unique interlocking system makes the build satisfying as each section becomes robust.

6. MAINTENANCE

Once assembled, your JEKCA German Shepherd model requires minimal maintenance to preserve its appearance and structural integrity.

6.1. Cleaning

- To remove dust, gently wipe the model with a soft, dry cloth or use a soft brush.
- For more stubborn dirt, a slightly damp cloth can be used, but ensure the model is dried thoroughly afterwards. Avoid harsh chemicals or abrasive cleaners.

6.2. Storage and Display

- Display the model on a stable, flat surface to prevent accidental falls.
- Avoid prolonged exposure to direct sunlight, which may cause color fading over time.
- Store any unbuilt blocks or spare parts in a cool, dry place, away from extreme temperatures.

7. TROUBLESHOOTING

Encountering issues during assembly is rare, but here are some common concerns and their solutions:

Problem	Solution
Blocks do not fit together easily.	Ensure correct block orientation and that no debris is obstructing the pin holes. Apply gentle, even pressure. If using the screwdriver, ensure it's properly aligned before turning.
Pins are difficult to insert or turn.	Verify that the blocks are correctly aligned and fully seated. Use the provided pin screwdriver for leverage and ensure it's inserted straight before turning 90 degrees. Do not force the pins.
Model feels unstable or parts detach.	This indicates that pins may not be fully engaged or turned. Re-examine the affected sections and ensure all pins are securely locked by turning them 90 degrees with the screwdriver.
Missing or damaged pieces.	Carefully check the packaging and all bags. If pieces are genuinely missing or damaged, contact JEKCA customer support with details of the missing parts (refer to the parts list in the manual).

8. SPECIFICATIONS

Attribute	Detail
Product Name	JEKCA German Shepherd 01S-M01
Model Number	ST19PT19-M01
Brand	JEKCA
Recommended Age	14 years and up
Number of Pieces	>1180 pieces
Product Dimensions	11.81 x 3.7 x 9.69 inches (30.0 x 9.4 x 24.6 cm)
Item Weight	2.11 pounds
Material	Plastic
