1. INTRODUCTION

Thank you for choosing the Wonlink 10x20 ft Instant Pop Up Canopy. This manual provides essential information for the safe and effective setup, operation, and maintenance of your canopy. Designed for outdoor events, parties, and gatherings, this canopy offers a spacious 200 sq ft of shade, featuring a sturdy steel frame, waterproof and UV-resistant fabric, and versatile removable sidewalls. Please read these instructions carefully before assembly and retain them for future reference.

2. SAFETY INSTRUCTIONS

Adherence to these safety guidelines is crucial for preventing damage to the canopy and ensuring user safety:

- **Weather Conditions:** Do not use the canopy in strong wind and heavy rain. While the fabric is water-resistant, extreme weather can cause structural damage.
- **Securing the Canopy:** Always secure the tent firmly with the provided ground nails and ropes to prevent it from lifting or moving due to wind.
- **Heat Sources:** Do not expose the canopy to open flames or other heat sources. The fabric is not fireproof and can ignite.
- **Seasonal Use:** In colder conditions, install the side walls to help retain warmth within the space.
- **Pre-Use Inspection:** Before each use, thoroughly check for any damage to the frame, fabric, or accessories. Replace any damaged parts immediately to ensure structural integrity.

3. PACKAGE CONTENTS

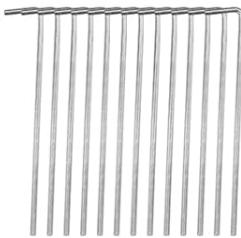

Verify that all components are present in your package:

- 1 x Top Cover (Blue)
- 6 x Side Walls (4 with transparent windows, 2 with zippers)
- 1 x Steel Frame Stand (Pre-assembled)
- 1 x Wheeled Carrying Bag
- 6 x Ropes
- 12 x Ground Nails

Package List

6 x Rope

12 x Ground Nail

1 x Top Cover

6 x Side walls Sides

1 x Steel Frame Stand

1 x Wheeled Carrying Bag

4. SETUP INSTRUCTIONS

Setting up your Wonlink canopy is designed to be straightforward, typically requiring 1-2 people. For larger sizes like the 10x20 ft model, 3-4 people may facilitate an easier and quicker setup.

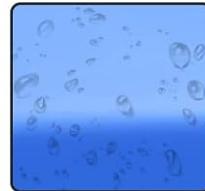

- 1. Unpack and Expand Frame:** Take the fully assembled steel frame out of the wheeled carrying bag. With a partner, gently pull the frame apart from opposite corners until it is partially expanded.
- 2. Attach Top Cover and Sidewalls:** Drape the top cover over the partially expanded frame. Ensure the corners and edges align correctly. Attach the 6 side walls to the frame using the integrated fasteners (e.g., Velcro or ties).
- 3. Fully Extend and Lock Frame:** Continue to pull the frame outwards until it is fully extended. Push the buttons on each of the 6 legs to adjust the height and snap them into place at your desired position.
- 4. Secure the Canopy:** Use the 12 ground nails to anchor the canopy legs to the ground. Attach the 8 ropes to the canopy

frame and stake them into the ground at an angle to provide additional stability, especially in breezy conditions.

Product Details

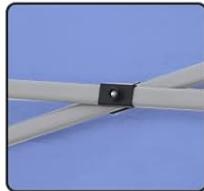

Sturdy Steel Frame

100% Waterproof

Pull Ring
Easy to set up and take down

Solid Cross Bar

Sturdy Leg Pad
Floor Protection and Drilled Holes

3 Height Positions Available
(0.24ft per position)

Image: A visual guide showing the three main steps for setting up the canopy: 1. Open the canopy frame, 2. Cover it with the canopy top, 3. Adjust the height.

5. OPERATING INSTRUCTIONS

5.1 Adjustable Height Settings

The canopy features three adjustable height settings, allowing you to customize the clearance. Each adjustment changes the height by approximately 3.46 inches. To adjust, simply push the buttons located on each of the 6 legs and slide the leg to the desired height position until it clicks securely into place.

5.2 Removable Sidewalls

Your canopy includes 6 detachable sidewalls: 4 with transparent windows and 2 with zippered doors. These sidewalls offer

versatility for various weather conditions and privacy needs. In warmer weather, remove the sidewalls for increased ventilation and coolness. In cooler or windy conditions, install the sidewalls to provide a more enclosed and warmer space.

**10ft x20 ft
200 Sq Ft of Shade**

Anti-UV

Water Proof

Easy set up

Image: Detailed view of canopy features including sturdy steel frame, 100% waterproof fabric, pull ring for easy setup/takedown, solid cross bar, sturdy leg pad, and 3 height positions.

6. MAINTENANCE

Proper maintenance will extend the lifespan of your canopy:

- Cleaning:** Clean the fabric and frame with mild soap and water. Avoid harsh chemicals or abrasive cleaners that could damage the material. Rinse thoroughly and allow all components to air dry completely before storage to prevent mildew.
- Storage:** When not in use, disassemble the canopy and store it in its wheeled carrying bag. Keep the bag in a cool, dry place, away from direct sunlight and extreme temperatures.
- Regular Inspection:** Periodically inspect the frame for any signs of rust, bending, or loose connections. Check the fabric for tears, holes, or excessive wear. Address any issues promptly to prevent further damage.

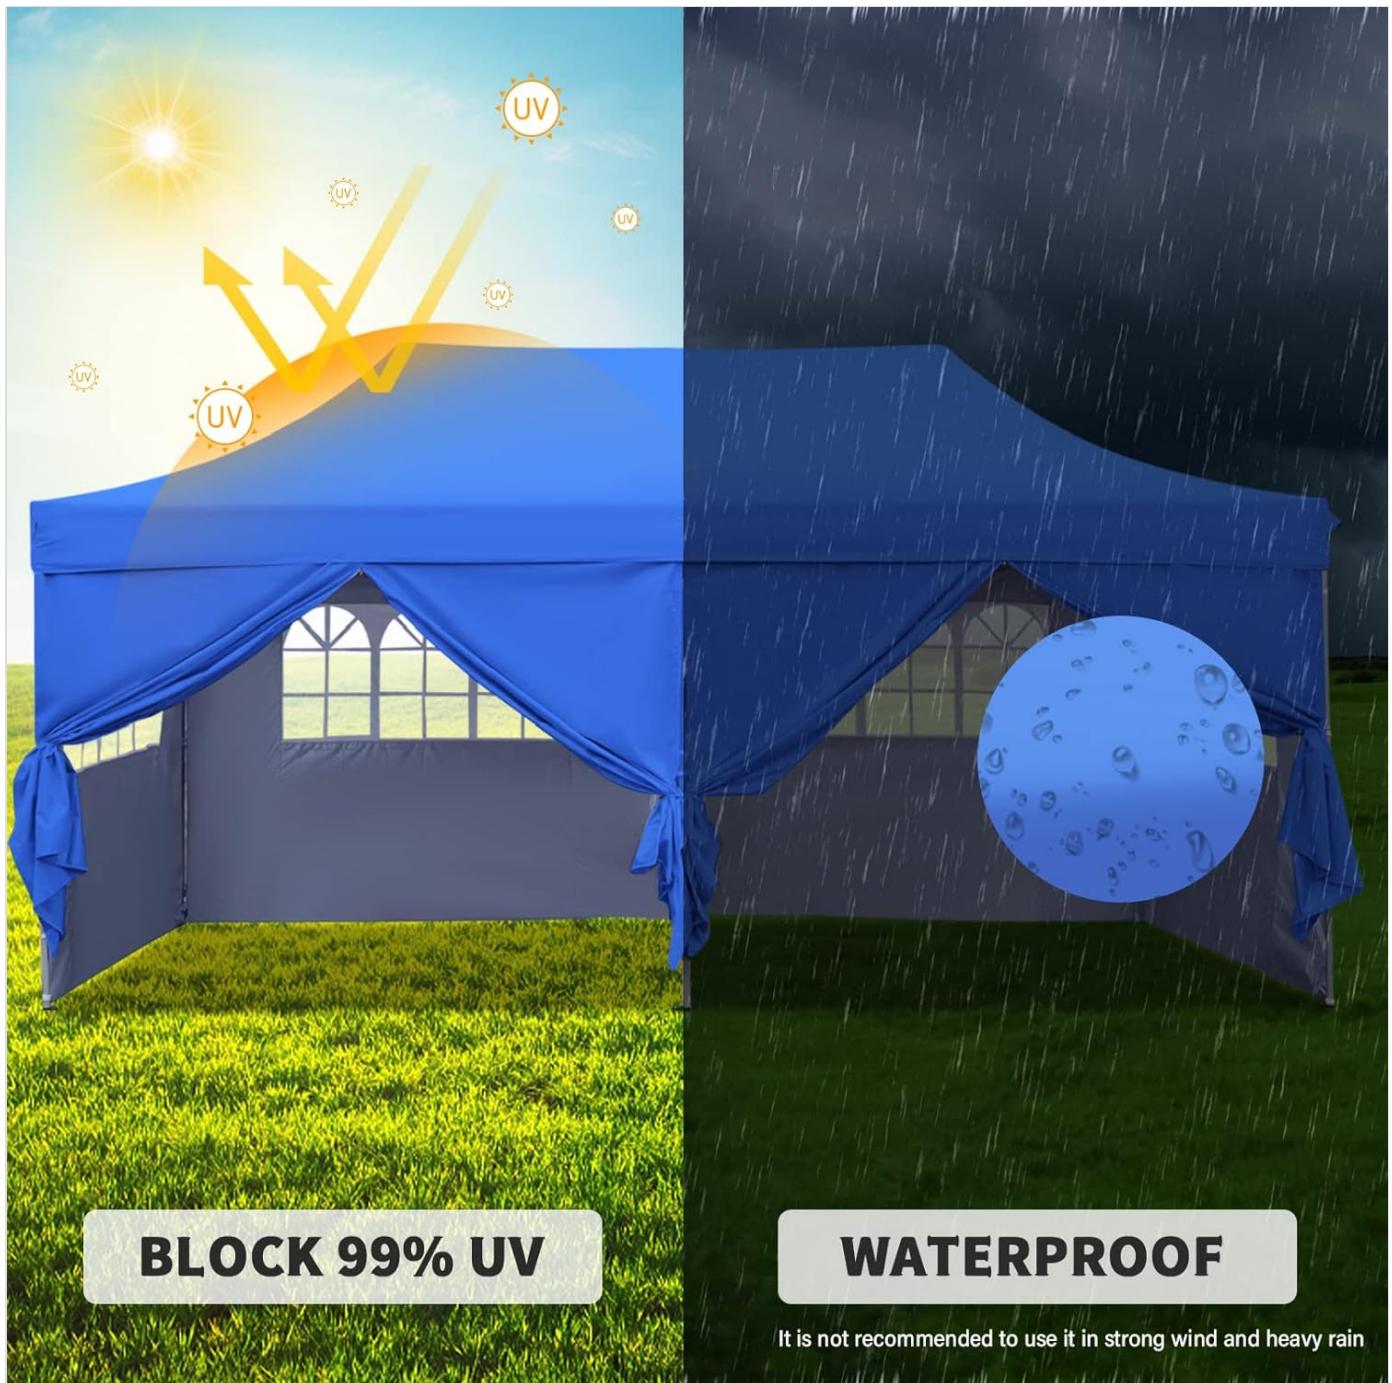

7. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Difficulty Setting Up:** If you find it challenging to set up, especially with larger models, ensure you have enough people (3-4 recommended for 10x20 ft). Make sure the frame is fully expanded and all locking mechanisms are engaged.
- **Canopy Instability:** Always use all provided ground nails and ropes. For added security in windy conditions, consider purchasing additional anchors or weights to secure the legs. Ensure ropes are taut and staked at an appropriate angle.
- **Fabric Tears or Leaks:** While the fabric is UV-resistant and water-resistant, prolonged exposure to harsh weather or improper handling can cause damage. Avoid using the canopy in strong winds or heavy rain. If minor tears occur, repair kits may be available, or contact customer support for advice.
- **Damaged Frame Components:** If any part of the steel frame appears bent or broken, do not attempt to force it. The frame is designed to be detachable for replacement. Contact Wonlink customer support for assistance with replacement parts.

8. SPECIFICATIONS

Brand	Wonlink
Model	B07NP93LJ8
Material	Fabric (210D Oxford), Alloy Steel (Frame)
Style	Modern
Product Dimensions (L x W x H)	66.14" x 14.56" x 9.05" (Packaged)
