

Juboos 412L

Juboos Kids Analog Watch Instruction Manual

Model: 412L | Brand: Juboos

1. INTRODUCTION

Thank you for choosing the Juboos Kids Analog Watch. This manual provides essential information for the proper setup, operation, and maintenance of your new watch. Designed for children aged 5-14, this watch features a precise Japanese-Quartz movement, a time-teaching dial, and 30M/98FT water resistance, making it suitable for daily wear and various activities.

Package Contents:

- 1 x Juboos Kids Analog Watch
- 1 x Decent Gift Box
- 1 x User Manual (this document)

Case Diameter	1.38 in / 3.5 cm
Max Perimeter Wrist Fit	8.07 in / 20.5 cm
Min Perimeter Wrist Fit	5.31 in / 13.5 cm
Product Weight	0.9 OZ / 26 G
Battery Code	SR626SW

4. SETUP

Setting the Time:

1. **Remove Protective Film:** Before wearing the watch, check if there is a protective film on the back cover. If present, it needs to be carefully removed.
2. **Pull Out the Knob:** Gently pull the crown (knob) on the side of the watch outwards until it clicks.
3. **Turn the Knob:** Rotate the crown in either direction to adjust the hour and minute hands to the correct time.
4. **Press Knob Back:** Once the time is set, push the crown back into its original position to start the watch movement.

5. OPERATING THE WATCH

General Use:

The Juboos Kids Analog Watch is designed for straightforward time-telling. The clear dial and distinct hands make it easy for children to read the time. The luminous hands provide visibility in darker environments.

Water Resistance Guidelines:

The watch is rated 30M/98FT waterproof, which means it is suitable for daily water contact such as:

- Hand washing
- Rain exposure
- Light water play

Important Note:

- DO NOT press any buttons while the watch is in water.
- DO NOT dive or swim with the watch.
- Avoid exposure to hot water or steam (e.g., hot showers, saunas) as this can damage the waterproof rubber ring.

6. MAINTENANCE

To ensure the longevity and optimal performance of your Juboos Kids Analog Watch, please follow these maintenance guidelines:

- **Cleaning:** Regularly clean the watch strap and case with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials.
- **Temperature:** Avoid exposing the watch to extreme hot or cold temperatures, as this can affect the battery life and internal components.
- **Water Exposure:** While water-resistant, excessive or prolonged water contact should be avoided to prevent

shortening the watch's life. Always ensure the crown is fully pushed in when near water.

- **Storage:** When not in use for extended periods, store the watch in a cool, dry place away from direct sunlight.

7. TROUBLESHOOTING

If you encounter any issues with your Juboos Kids Analog Watch, please refer to the following common problems and solutions:

- **Watch Not Keeping Time:**

- Ensure the crown is fully pushed in after setting the time.
- The battery (SR626SW) may need replacement. Consult a professional watch repair service for battery replacement.

- **Condensation Inside the Dial:**

- This can occur due to sudden temperature changes or if the watch's water resistance has been compromised (e.g., pressing buttons underwater, exposure to hot steam).
- Place the watch in a dry, warm place (not hot) to allow the moisture to evaporate. If condensation persists, seek professional repair.

- **Strap Discomfort or Irritation:**

- Ensure the strap is not too tight.
- Clean the strap regularly to remove dirt or sweat buildup that might cause irritation.

8. WARRANTY AND SUPPORT

Juboos is committed to providing high-quality products. While specific warranty details are not provided in this manual, please retain your proof of purchase. For any product inquiries, technical support, or warranty claims, please contact Juboos customer service through the retailer where the watch was purchased or visit the official Juboos brand store online.
