ZINUS Tonja Wood Platform Bed Frame with Headboard (Queen) Instruction Manual

Model: SWPBBHG-12Q

INTRODUCTION

This instruction manual provides comprehensive guidance for the assembly, safe operation, and maintenance of your ZINUS Tonja Wood Platform Bed Frame with Headboard. Please read this manual thoroughly before beginning assembly or using the product to ensure proper setup and to maximize the lifespan of your bed frame. This Queen size platform bed frame is designed to provide sturdy support for various mattress types without the need for a box spring.

SAFETY INFORMATION

- **Read All Instructions:** Ensure all assembly steps are followed precisely.
- **Two-Person Assembly Recommended:** For safety and ease, assembly is best performed by two adults.
- **Keep Children Away:** Small parts may be present; keep children and pets away during assembly.
- **Use Correct Tools:** Only use the tools provided or recommended in this manual.
- **Weight Capacity:** The Queen size bed frame supports a maximum weight capacity of 700 lbs (including mattress). Do not exceed this limit.
- **Regular Inspection:** Periodically check all bolts and connections to ensure they remain tight.
- **Avoid Standing on Frame:** Do not stand or jump on the bed frame.
- **Proper Placement:** Place the bed frame on a level surface.

PACKAGE CONTENTS

Before assembly, verify that all components listed below are present and undamaged. All parts are typically shipped in one carton.

Image: All components of the ZINUS Tonja Queen Bed Frame, including the headboard, side rails, support legs, wooden slats, and assembly hardware, neatly arranged for inspection.

- Headboard
- Wooden Slats
- Side Rails
- Support Legs
- Assembly Hardware (bolts, washers, nuts, Allen wrench, ratchet tool)

ASSEMBLY INSTRUCTIONS

Follow these steps carefully for a straightforward assembly process. A low-profile ratchet and hex key are included for your convenience. Assembly typically takes less than an hour with the help of a friend.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface (e.g., a rug or blanket) to prevent scratches. Verify all parts are present against the package contents list.
2. **Attach Headboard Legs:** Secure the headboard legs to the main headboard panel using the provided bolts and tools. Ensure connections are firm but do not overtighten initially.
3. **Assemble Side Rails:** Connect the side rails to the headboard and footboard (if applicable) using the designated hardware. Pay attention to the orientation of the rails.
4. **Install Center Support:** Attach any center support beams or legs as instructed. These are crucial for the bed frame's stability and weight distribution.
5. **Place Wooden Slats:** Lay the wooden slats across the bed frame. The ZINUS Tonja bed frame features a hook-and-loop fastener system to keep the slats securely in place and prevent shifting. Ensure slats are evenly spaced.

6. **Final Tightening:** Once all components are loosely assembled, go back and securely tighten all bolts and connections. Do not overtighten to avoid damaging the wood.

Image: The ZINUS Tonja Queen Bed Frame fully assembled, ready for mattress placement. Note the sturdy wooden construction and slat system.

USAGE GUIDELINES

- **Mattress Compatibility:** This platform bed frame is designed to support various mattress types, including spring, memory foam, and hybrid mattresses.
- **No Box Spring Required:** The robust wooden slat system provides ample support, eliminating the need for a traditional box spring.
- **Weight Limit:** The Queen size ZINUS Tonja bed frame has a maximum weight capacity of 700 lbs. This includes the weight of the mattress and occupants.
- **Under-Bed Clearance:** The bed frame offers approximately 6.3 inches of clearance from the ground to the bottom of the side rail, providing space for under-bed storage.

Image: Illustration detailing the 6.3-inch under-bed clearance, indicating available space for storage.

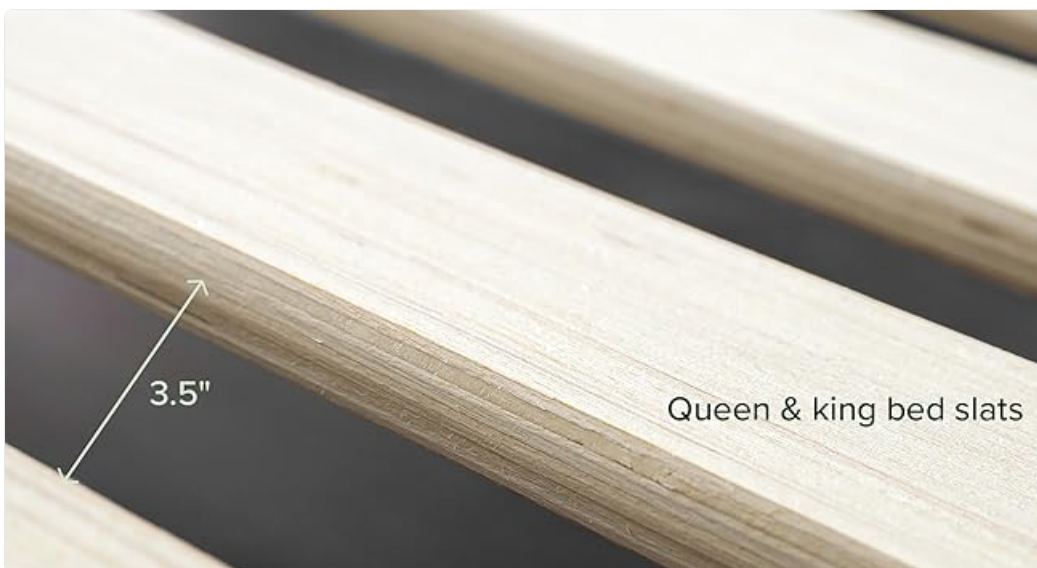

Image: Detail of the wooden slats, highlighting the 3.5-inch spacing designed for optimal mattress support.

CARE AND MAINTENANCE

- **Cleaning:** Wipe the bed frame surfaces with a dry cloth to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners, which can damage the wood finish.
- **Liquid Spills:** In case of liquid spills, immediately blot the area with a clean, dry cloth.
- **Hardware Check:** Periodically inspect all bolts and screws to ensure they are tight. Retighten as necessary to maintain stability and prevent squeaks.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause the wood finish to fade or change color over time.
- **Humidity Control:** Maintain a stable humidity level in the room to prevent wood from warping or cracking.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame is wobbly or unstable.	Loose bolts or uneven floor surface.	Ensure all bolts are securely tightened. Move the bed to a level surface or use shims under legs if necessary.
Squeaking noises from the bed frame.	Loose connections or friction between parts.	Retighten all hardware. Apply a small amount of wax or lubricant to contact points between wood and metal if squeaking persists. Ensure slats are properly seated.
Mattress slides on the slats.	Lack of friction between mattress and slats.	This model includes anti-slip tape for the slats. If not applied, consider using non-slip mattress pads or strips.
Missing parts during assembly.	Packaging error or lost component.	Double-check all packaging materials. Contact ZINUS customer support with your model number and a description of the missing part.

SPECIFICATIONS

Feature	Detail
Model Name	Tonja Wood Platform Bed Frame with Headboard
Model Number	SWPBBHG-12Q
Brand	ZINUS
Size	Queen
Product Dimensions (L x W x H)	81.5" x 59.6" x 39.4"
