## ViewSonic X10-4K

# ViewSonic X10-4K True 4K UHD Portable Smart Home Theater Projector User Manual

Model: X10-4K

## 1. INTRODUCTION

The ViewSonic X10-4K is a True 4K UHD Short Throw LED Portable Smart Home Theater Projector designed for versatile home entertainment. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your projector to ensure optimal performance and longevity.

## 2. WHAT'S IN THE BOX

Verify that all items are present in the packaging:

- X10-4K projector
- Power cable
- USB-C cable
- HDMI cable
- Remote control
- Quick Start Guide

## 3. PRODUCT OVERVIEW

Familiarize yourself with the main components and features of your ViewSonic X10-4K projector.

## Front View

*Image: Rear angled view of the ViewSonic X10-4K projector, displaying the various input and output ports for external devices.*

## 4. SETUP

### Placement

The X10-4K is a short-throw projector, allowing for large images from a short distance. For optimal viewing, consider the following:

- **Minimum Throw Distance:** 1.6 feet (0.49 meters)
- **Maximum Throw Distance:** 11.5 feet (3.5 meters)
- **Minimum Image Size:** 30 inches
- **Maximum Image Size:** 200 inches

The projector can be placed on a media stand or mounted to the ceiling. Ensure a clear path for the projection and adequate ventilation around the unit.

### Power Connection

Connect the provided power cable to the projector and then to a power outlet. The projector is ready for use once connected.

### Connectivity

The X10-4K offers various connectivity options for your devices:

- **HDMI:** Connect media players, PCs, Macs, and gaming consoles using the HDMI cable.

- **USB-C:** Connect compatible mobile devices for direct display mirroring and charging.
- **Ethernet:** For wired network connectivity.
- **Wi-Fi (802.11 ac/b/g/n):** For wireless network access and smart streaming features.
- **Bluetooth:** For connecting mobile devices and external audio.

### Connecting Mobile Devices via USB Type-C

### Connecting Mobile Devices via Bluetooth

*Video: Guide on pairing and connecting a mobile device to the ViewSonic X10-4K projector via Bluetooth.*

### Casting and Mirroring Mobile Devices

*Video: Demonstrates how to cast or mirror content from your mobile device to the ViewSonic X10-4K projector.*

## 5. OPERATING INSTRUCTIONS

### Basic Operation

Use the included remote control to navigate the projector's interface. Power on/off, select input sources, and adjust basic settings.

### Smart Features

The X10-4K includes Wi-Fi connectivity for accessing smart TV streaming services. It also supports voice control via Amazon Alexa and Google Assistant.

### Operating with Touch Control on Your Phone

*Video: Learn how to operate the ViewSonic X10-4K projector using touch controls from your smartphone.*

### Image Adjustment

The projector features autofocus for clear images. Minor adjustments can be made through the on-screen menu. Note that extensive manual keystone or zoom adjustments may be limited.

### Audio

Integrated Harman Kardon Bluetooth speakers provide room-filling audio. You can also connect external Bluetooth speakers or sound systems.

### Safety Auto-Off Feature

The projector includes a safety feature that can be activated or deactivated. When active, it temporarily turns off the lens if objects are detected too close to the projector, preventing accidental eye exposure to the light source.

## 6. MAINTENANCE

### LED Light Source

The X10-4K utilizes a solid-state LED light source with an estimated lifespan of 30,000 hours, significantly reducing the need for lamp replacement compared to traditional projectors.

### Cleaning

Regularly clean the projector lens with a soft, lint-free cloth designed for optical surfaces. Keep the ventilation grilles clear of dust to ensure proper airflow and prevent overheating.

## 7. TROUBLESHOOTING

If you encounter issues with your projector, refer to the following common solutions:

- **Remote Control Unresponsive:** Ensure the remote has fresh batteries and is pointed directly at the projector's sensor. Some users have reported occasional latency; try holding down buttons for a moment or restarting the projector.
- **Image Quality Issues (e.g., washed out, green artifacts):** Verify all cables (HDMI, USB-C) are securely connected. Check the input source settings on the projector. If using a streaming device, ensure it supports the desired resolution (e.g., 4K).
- **Safety Auto-Off Activating Unexpectedly:** This feature detects objects near the lens. Ensure no obstructions are in the projection path. This feature can be deactivated in the projector's settings if it causes frequent interruptions.
- **No Image/Signal:** Confirm the correct input source is selected on the projector. Check the connection to your source device.
- **Fan Noise:** Some fan noise is normal during operation. Ensure the projector has adequate ventilation and is not placed in an enclosed space.

For persistent issues, consult the official ViewSonic support resources.

## 8. SPECIFICATIONS

<b>Brand</b>	ViewSonic
<b>Model Name</b>	X10-4K
<b>Display Resolution</b>	3840 x 2160 (4K UHD)
<b>Brightness</b>	2400 ANSI Lumens
