Casper BF00000173

Casper Sleep Adjustable Bed Frame User Manual

Model: BF00000173 | Brand: Casper

Introduction

This manual provides comprehensive instructions for the safe and effective use of your Casper Sleep Adjustable Bed Frame, California King. Please read this manual thoroughly before setup and operation to ensure optimal performance and longevity of your product.

Important Safety Information

WARNING:

- Do not exceed the maximum weight recommendation of 1998 pounds.
- Be cautious when adjusting the bed frame to prevent injury. Ensure no body parts or objects are in the path of moving components.
- Keep children and pets away from the adjustable mechanism during operation.
- Ensure the power cord is not pinched or damaged.
- This bed frame is designed for use with flexible foam mattresses. Do not use with spring mattresses or box springs.

Setup Instructions

Your Casper Adjustable Bed Frame is designed for easy setup. While the main frame requires no complex assembly, the legs offer adjustable height options.

1. **Unpack Components:** Carefully remove all components from the packaging. Ensure all parts are present: adjustable frame, remote control, and leg sections.
2. **Position the Frame:** Place the folded bed frame in its desired location. Ensure there is enough space around the bed for adjustment.

Figure 1: The Casper Adjustable Bed Frame laid flat before leg installation.

3. **Install/Adjust Legs:** The bed frame comes with modular leg sections allowing for three height options: 5 inches, 7 inches, and 10 inches. Attach the desired leg sections by screwing them into the designated points on the frame. Ensure all legs are securely tightened and at the same height for stability.

Figure 2: Close-up view of an adjustable leg, demonstrating the modular design for height customization.

4. **Connect Power:** Plug the power cord into a grounded electrical outlet.
5. **Place Mattress:** Carefully place your compatible foam mattress onto the bed frame.

Operating Instructions

Your Casper Adjustable Bed Frame is operated using the included wireless remote control. Familiarize yourself with the remote's functions for personalized comfort.

Remote Control Functions:

- **Head Up/Down:** Adjusts the head section of the bed.
- **Foot Up/Down:** Adjusts the foot section of the bed.
- **Anti-Snore Preset:** Elevates the head to help open airways and reduce snoring.

- **Zero-Gravity Preset:** Positions the body to relieve pressure, developed by NASA.
- **Memory Buttons:** Two programmable buttons to save your favorite positions.
- **Massage Function:** Activates various massage modes for relaxation.
- **Flat Button:** Returns the bed to a completely flat position.

Figure 3: The bed frame in an elevated position, demonstrating head and foot adjustability.

Figure 4: The bed frame with only the head section elevated, ideal for reading or watching TV.

USB Charging Ports:

The bed frame includes two USB ports for convenient charging of your devices. These are typically located on the side of the frame near the head section.

Maintenance

Proper maintenance ensures the longevity and optimal performance of your adjustable bed frame.

- **Cleaning:** Wipe the bed frame with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.
- **Regular Inspection:** Periodically check all connections and fasteners to ensure they are secure.
- **Mattress Protection:** Consider using a mattress protector to keep your mattress clean and extend its lifespan.

Troubleshooting

If you encounter any issues with your Casper Adjustable Bed Frame, refer to the following common solutions:

Problem	Possible Cause	Solution
Bed frame does not respond to remote.	No power, remote batteries low, remote not paired.	Check power connection. Replace remote batteries. Refer to remote pairing instructions (if applicable, usually in a separate quick start guide).
Unusual noises during adjustment.	Loose fasteners, obstruction.	Check all leg and frame connections for tightness. Ensure no objects are caught in the mechanism.
USB ports not charging.	Power issue, device compatibility.	Ensure the bed frame is powered on. Try a different device or charging cable.
