SETUP

Charging the Speaker

Before initial use, fully charge the iBT158 speaker. Connect the supplied USB charging cable to the speaker's charging port and a USB power source (e.g., computer USB port, USB wall adapter). The charging indicator light will show the charging status. A full charge typically takes approximately 4 to 5 hours.

Designed to be Waterproof, Sandproof and Dustproof material.

Take this speaker to the beach, by the pool, on a hike, or wherever you go in the great outdoors!

Bluetooth Pairing

1. Ensure the speaker is charged and powered on.
2. Press and hold the Bluetooth pairing button on the speaker until the Bluetooth indicator light begins to flash, indicating it is in pairing mode.
3. On your mobile device (smartphone, tablet), navigate to the Bluetooth settings.
4. Select "iHome iBT158" from the list of available devices.
5. Once paired, the Bluetooth indicator light on the speaker will become solid, and you will hear an audible confirmation.

OPERATING THE SPEAKER

Power On/Off

Press and hold the Power button located on the top of the speaker to turn the device on or off.

Audio Playback

After successful Bluetooth pairing, audio from your connected device will stream wirelessly to the iBT158 speaker. Use the Play/Pause button on the speaker or your connected device to control playback.

Volume Control

Adjust the volume using the Volume Up (+) and Volume Down (-) buttons on the speaker, or directly from your connected audio device.

Speakerphone Functionality

When a call comes in, press the Play/Pause button to answer. Press again to end the call. The speaker's built-in microphone with echo noise cancellation ensures clear communication.

Color Changing LED Modes

Press the Color Modes button to cycle through the five available LED lighting effects: slow blend, fast blend, favorite color, pulse-to-music, and lantern mode.

ACCENT LIGHTING

5 LED Color Modes
Including Pulse-to-Music

MAINTENANCE

Waterproof and Dustproof Care

The iBT158 is IP67 rated, meaning it is protected against dust ingress and can withstand immersion in water up to 1 meter for 30 minutes. After exposure to water, ensure the charging port cover is securely closed. Rinse the speaker with fresh water if exposed to saltwater or chlorinated water, and allow it to dry completely before charging.

Image: The iHome iBT158 speaker shown with water splashing around it, illustrating its IP67 waterproof and sandproof capabilities.

Cleaning

Wipe the speaker with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these may damage the finish or internal components.

TROUBLESHOOTING

- **No Power:** Ensure the speaker is fully charged. Connect it to a power source using the USB cable.
- **Bluetooth Pairing Issues:** Make sure the speaker is in pairing mode (flashing Bluetooth indicator). Turn off and on Bluetooth on your device, then try pairing again. Ensure no other devices are currently connected to the speaker.
- **No Sound/Low Volume:** Check the volume levels on both the speaker and your connected device. Ensure the speaker is properly paired and connected.
- **Poor Sound Quality:** Move the speaker closer to your Bluetooth device to reduce interference. Ensure the speaker is not obstructed.
- **Speaker Not Responding:** Locate the reset button (often a small pinhole) and use a paperclip to press it briefly to reset the device.
