

Creative Pebble Plus 2.1

Creative Pebble Plus 2.1 Speaker System User Manual

Model: Pebble Plus 2.1

1. INTRODUCTION

Welcome to the user manual for your Creative Pebble Plus 2.1 USB-Powered Desktop Speakers. This system is designed to provide enhanced audio for your computer PCs and laptops, featuring a powerful down-firing subwoofer and far-field drivers for immersive sound.

Please read this manual carefully before using your speaker system to ensure proper setup, operation, and maintenance.

3. KEY FEATURES

The Creative Pebble Plus 2.1 system incorporates several design and technological features for an enhanced audio experience:

- **Powerful Down-Firing Subwoofer:** Features a newly designed standalone 4-inch down-firing ported subwoofer for remarkable power and depth in bass frequencies.
- **45° Elevated Drivers:** The 2-inch mid-range drivers in the satellite speakers are specifically angled at 45° towards the listener, optimizing the soundstage for a direct and immersive audio experience.
- **High Gain Mode:** A selectable mode that increases the power output to 8W RMS, providing stronger bass and room-filling audio when used with a 5V 2A USB adapter.
- **Easy Access Volume Controls:** The volume knob is conveniently located on the front of one of the satellite speakers for quick adjustments.
- **USB-Powered Convenience:** The entire system is powered via a single USB connection, eliminating the need for a wall socket.

4. SETUP AND CONNECTIONS

Follow these steps to set up your Creative Pebble Plus 2.1 speaker system:

1. **Positioning the Speakers:** Place the two satellite speakers on your desktop, ideally equidistant from your listening position. The 45° elevated drivers are designed to direct sound towards you.
2. **Positioning the Subwoofer:** Place the subwoofer on the floor or desktop, ensuring the down-firing driver has clear space beneath it for optimal bass performance.
3. **Connect Satellite Speakers to Subwoofer:** Connect the RCA cables from the satellite speakers to the corresponding RCA input ports on the back of the subwoofer.
4. **Connect to Audio Source:** Plug the 3.5mm AUX-in cable from the speaker system into the headphone jack or audio output port of your computer, laptop, or other audio device.
5. **Power Connection:** Plug the USB power cable into an available USB port on your computer or a 5V 2A USB power adapter (not included). The system is entirely USB-powered.

USB-POWERED FOR ADDED CONVENIENCE

5. OPERATING INSTRUCTIONS

5.1 Powering On/Off and Volume Control

The system powers on automatically when connected to a powered USB port. The volume control knob is conveniently located on the front of the right satellite speaker. Rotate clockwise to increase volume and counter-clockwise to decrease volume.

5.2 High Gain Mode

For increased power output and stronger bass performance, activate the High Gain Mode. This mode boosts the total RMS power output to 8W. To enable High Gain Mode, locate the switch on the bottom of the right satellite speaker and slide it to the 'H' position.

Image: A close-up view of the High Gain Mode switch located on the underside of one of the satellite speakers, showing 'L' (Low Gain) and 'H' (High Gain) settings.

Note: High Gain Mode requires a 5V 2A USB adapter (not included) for optimal performance. Using a lower amperage USB port may result in reduced output.

6. MAINTENANCE

To ensure the longevity and optimal performance of your Creative Pebble Plus 2.1 speaker system, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the speakers and subwoofer. Avoid using abrasive cleaners, solvents, or sprays directly on the units.
- **Placement:** Keep the speakers away from direct sunlight, heat sources, and excessive moisture. Ensure adequate ventilation around the subwoofer.

- **Cable Management:** Avoid kinking or sharply bending the integrated cables.
- **Storage:** If storing the system for an extended period, disconnect all cables and store in a cool, dry place.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound	Not powered on	Ensure USB power is connected and active.
	Volume too low	Increase volume using the control knob.
	Incorrect audio source connection	Verify 3.5mm AUX-in cable is securely connected to both speaker system and audio source.
	Faulty cable	Try a different audio cable if possible.
Distorted sound	Volume too high	Reduce speaker volume.
	Audio source volume too high	Reduce volume on your audio source (computer/laptop).
	Interference	Move speakers away from other electronic devices.
Subwoofer not working	RCA cables not connected	Ensure RCA cables from satellites are firmly connected to the subwoofer.
	Low power in standard gain mode	Try activating High Gain Mode with a 5V 2A USB adapter.

8. SPECIFICATIONS

Feature	Detail
Brand	Creative
Speaker Maximum Output Power	8 Watts (RMS)
Frequency Response	20 KHz
Connectivity Technology	Wired (USB power, 3.5mm AUX-in, RCA for subwoofer)
Audio Output Mode	Stereo
Subwoofer Driver Size	4 inches (down-firing)
Satellite Driver Size	2 inches (mid-range, elevated at 45°)
Power Source	USB (5V 1A for standard, 5V 2A for High Gain Mode)
Subwoofer Dimensions (H x W x D)	202mm x 150mm x 195mm (8 x 5.9 x 7.7 inches)
