## Yaheetech 614239

# Yaheetech Buffet Cabinet with Sliding Doors and Adjustable Shelf

Model: 614239 | Antique White

## INTRODUCTION

---

Thank you for choosing the Yaheetech Buffet Cabinet. This instruction manual provides essential information for the safe assembly, operation, and maintenance of your new storage unit. Please read this manual thoroughly before assembly and retain it for future reference.

This versatile cabinet features two sliding doors and an adjustable interior shelf, designed to provide practical storage in various settings such as kitchens, dining rooms, living rooms, or offices.

## SAFETY INFORMATION

---

To ensure safe use and prevent injury or damage, please observe the following safety guidelines:

- **Weight Capacity:** Do not exceed the maximum weight capacity of 50 kg (110 lbs) for the top surface and 27 kg (60 lbs) per shelf. Overloading can cause instability and structural failure.
- **Anti-Tip Device:** If an anti-tip device is included, it is strongly recommended to install it to prevent the cabinet from tipping over, especially in households with children or pets.
- **Stable Placement:** Place the cabinet on a flat, level, and stable surface. Uneven surfaces can lead to instability.
- **Assembly:** Assemble the unit strictly according to the instructions. Ensure all fasteners are securely tightened before use.
- **Children:** Do not allow children to climb on or play with the cabinet.

## PACKAGE CONTENTS

---

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

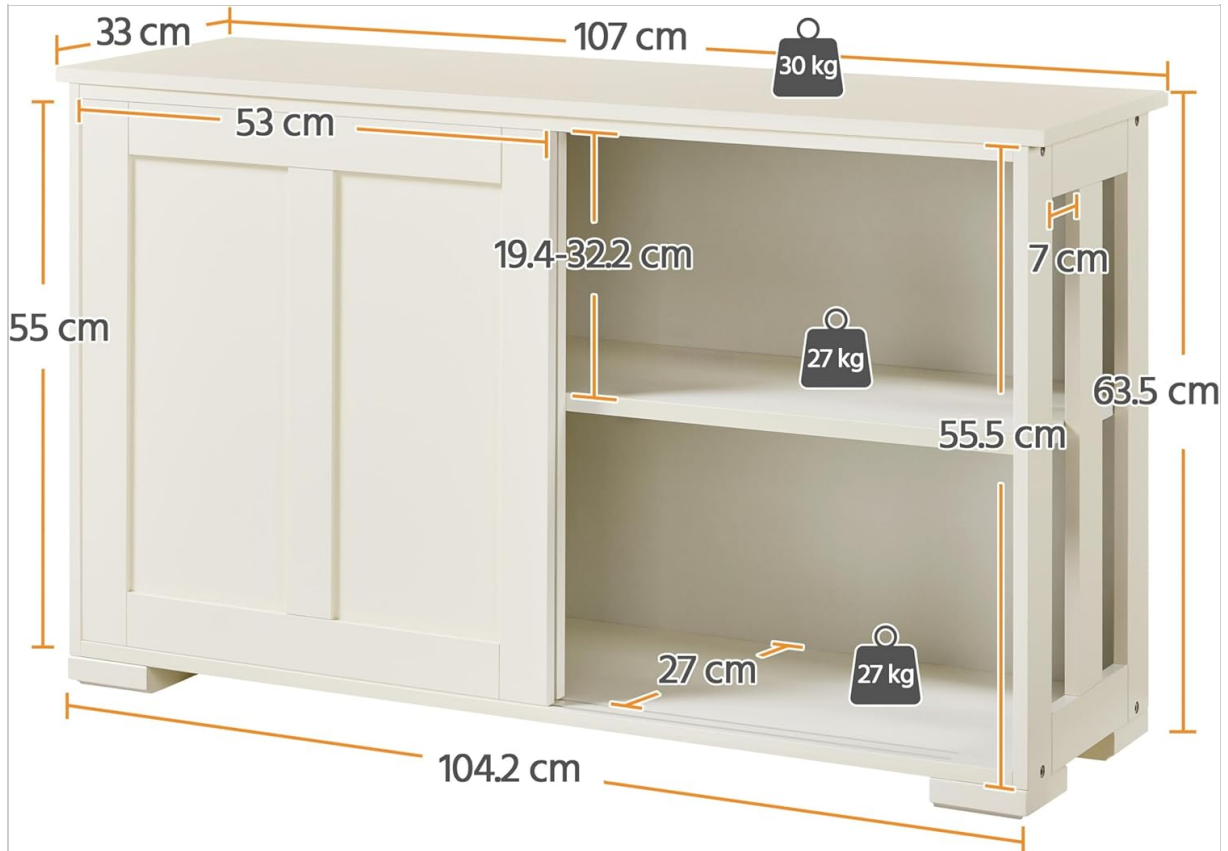

- Cabinet Panels (Top, Bottom, Sides, Back)
- Sliding Doors (2 units)
- Adjustable Shelf (1 unit)
- Hardware Pack (Screws, dowels, shelf pins, sliding door tracks, etc.)

- Assembly Tools (e.g., Allen wrench, if required)

## ASSEMBLY INSTRUCTIONS

Assembly typically requires two adults. Follow these general steps. Refer to the detailed diagrams provided with your product for specific part identification and fastening instructions.

1. **Prepare the Area:** Clear a spacious, clean, and soft surface to prevent scratching the cabinet panels during assembly.
2. **Assemble the Base Frame:** Attach the side panels to the bottom panel using the provided hardware. Ensure all connections are secure.
3. **Install Back Panel:** Secure the back panel to the assembled frame. This adds stability to the structure.
4. **Attach Top Panel:** Fasten the top panel to the side and back panels.
5. **Install Shelf Supports:** Insert the shelf pins into the pre-drilled holes at your desired height for the adjustable shelf.
6. **Place Adjustable Shelf:** Carefully place the adjustable shelf onto the installed shelf pins.
7. **Install Sliding Door Tracks:** Attach the upper and lower sliding door tracks to the cabinet frame.
8. **Insert Sliding Doors:** Carefully insert the two sliding doors into the tracks. Test their movement to ensure smooth operation.
9. **Final Check:** Ensure all screws and fasteners are tight. If an anti-tip kit is provided, install it according to its separate instructions.

## SETUP

---

Once assembled, position your Yaheetech Buffet Cabinet in its intended location. Consider the following:

- **Location:** Choose a dry, level area away from direct sunlight and heat sources to prevent material warping or discoloration.
- **Stability:** Gently rock the cabinet to ensure it is stable. If it wobbles, adjust its position or use shims if necessary.
- **Anti-Tip Installation:** If not already done during assembly, securely attach the anti-tip device to a wall stud according to the instructions.

## OPERATING INSTRUCTIONS

---

The Yaheetech Buffet Cabinet is designed for straightforward use.

- **Sliding Doors:** Gently push or pull the doors along their tracks to open or close the cabinet sections. Avoid forcing the doors to prevent damage to the tracks or doors.

- **Adjustable Shelf:** The interior shelf can be adjusted to three different heights (22 cm, 27 cm, 32 cm) to accommodate items of varying sizes. To adjust, carefully remove the shelf, reposition the shelf pins to the desired holes, and then place the shelf back onto the pins.

*Image: A detailed view of the bottom sliding door track, illustrating the mechanism that allows the doors to move smoothly.*

## MAINTENANCE

---

Proper care will extend the life and appearance of your cabinet.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or excessive moisture, which can damage the finish.
- **Spills:** Clean spills immediately to prevent staining or damage to the engineered wood.
- **Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary.
- **Sliding Tracks:** Keep the sliding door tracks free of dust and debris to ensure smooth operation.

## TROUBLESHOOTING

---

If you encounter any issues with your cabinet, consider the following common solutions:

- **Wobbly Cabinet:** Ensure the cabinet is on a level surface. Check all assembly screws and tighten

any that are loose.

- **Sticking Sliding Doors:** Inspect the tracks for any obstructions (dust, debris). Clean the tracks if necessary. Ensure the doors are properly seated in both the upper and lower tracks.
- **Damaged Parts:** If any part is damaged during assembly or use, discontinue use and contact customer support for replacement parts.

## SPECIFICATIONS

---
