4. Setup

4.1. Connecting to Your Computer

1. Connect the Micro USB cable to the tablet and the USB-A end to an available USB port on your computer.
2. Ensure all other tablet drivers (e.g., Wacom) are uninstalled from your computer to prevent conflicts.
3. Download and install the latest driver for the HUION HS64 from the official HUION website. Follow the on-screen instructions for installation.
4. Restart your computer after installation to ensure the driver is properly loaded.

4.2. Connecting to Android Devices

The HUION HS64 supports Android devices (version 6.0 or later) via an OTG adapter. This allows you to use your phone as a digital drawing canvas.

1. Use the provided OTG adapter (Micro USB or Type-C) to connect the tablet to your Android phone or tablet.
2. Note that when connected to an Android device, the pen can only work within the left gray area (approximately 4.02x2.5 inches) of the tablet's active area.

5. Operating System Compatibility

The HUION HS64 Graphics Tablet is compatible with the following operating systems:

- Windows 7 and above
- Mac OS 10.12 and above

- Android 6.0 and above
- Linux (Ubuntu)

6. Customizing Express Keys

The HUION HS64 features four programmable express keys that can be customized to perform various functions or shortcuts within your preferred software. This can significantly enhance your workflow efficiency.

1. Open the HUION driver software on your computer.
2. Navigate to the 'Press Key' or 'Express Keys' settings.
3. Select each key and assign your desired function (e.g., undo, zoom, brush size, specific tool).

4. Save your settings.

7. Replacing Pen Nibs

Over time, the nib of your PW100 stylus may wear down. Replacing it is a simple process:

1. Locate the pen nib clip provided in your package.
2. Gently use the nib clip to grasp the worn nib and pull it straight out from the stylus.
3. Insert a new replacement nib firmly into the stylus until it is securely in place.

9. Troubleshooting

9.1. Driver Conflicts

If you experience issues with pen pressure sensitivity or tablet functionality, ensure that all other graphics tablet drivers (e.g., Wacom, XP-Pen) are completely uninstalled from your computer before installing the HUION driver. Conflicting drivers are a common cause of problems.

9.2. macOS Compatibility Issues

Some macOS systems may encounter compatibility issues when recognizing external USB devices, including drawing tablets. If you experience connection problems, please contact HUION customer service for assistance.

10. Warranty and Support

For warranty information and to register your product for professional customer support, please visit the official HUION website:
