## POWE-Tech fav-015

# POWE-Tech AC/DC Adapter Charger for Rally 7471 Power Source Jump Starter

Model: fav-015 | Brand: POWE-Tech

## INTRODUCTION

This manual provides instructions for the POWE-Tech AC/DC Adapter Charger (Model: fav-015), designed as a replacement power supply for the Rally 7471 Portable 8-in-1 Power Source Jump Starter and other compatible devices. This adapter ensures reliable power delivery with built-in safety features.

## SETUP

- 1. Identify Device Power Requirements:** Before connecting, check the power requirements (voltage and amperage) of your device. This information is usually found on a label on the device itself or in its original manual. The POWE-Tech adapter provides 12V output.
- 2. Select the Correct Tip:** The adapter comes with multiple interchangeable tips to ensure compatibility with various devices. Select the tip that matches your device's power input port.

Image: Close-up view of the various interchangeable tips included with the adapter.

- 3. Attach the Tip:** Securely attach the selected tip to the adapter's output cable. Ensure it clicks into place or fits snugly to prevent loose connections.
- 4. Connect to Device:** Plug the attached tip into your device's power input port.
- 5. Connect to Power Outlet:** Plug the AC/DC adapter into a standard 100V-240V wall power outlet.

## OPERATING INSTRUCTIONS

- Once connected, the adapter will begin supplying power to your device.
- For devices with rechargeable batteries, the intelligent switching circuit will detect a full battery and automatically switch to a safe mode to prevent overcharging.
- Monitor your device's charging indicator (if available) to confirm it is receiving power and charging correctly.

## MAINTENANCE

- Keep the adapter and its tips clean and free from dust and debris. Use a dry, soft cloth for cleaning.
- Store the adapter in a cool, dry place when not in use.
- Avoid bending or crimping the power cord excessively to prevent internal wire damage.

- Do not expose the adapter to moisture or extreme temperatures.

## TROUBLESHOOTING

---

- **Device not powering on/charging:**
  - Ensure the adapter is securely plugged into both the wall outlet and the device.
  - Verify that the correct tip is used and is firmly attached to the adapter cable.
  - Check the wall outlet by plugging in another device to confirm it is functional.
  - Confirm the device's power requirements match the adapter's output (12V).
- **Adapter feels hot:**
  - It is normal for adapters to feel warm during operation. However, if it becomes excessively hot to touch, disconnect it immediately.
  - Ensure adequate ventilation around the adapter and avoid covering it.
  - Verify that the device's power consumption does not exceed the adapter's wattage (60W) or amperage (0.25A).
- **Intermittent connection:**
  - Check for any damage to the adapter cable or tips.
  - Ensure the tip fits snugly into the device's port without wobbling.

## SPECIFICATIONS

---

<b>Brand</b>	POWE-Tech
<b>Model Number</b>	fav-015
<b>Input Voltage</b>	100V - 240V (Worldwide compatible)
<b>Output Voltage</b>	12 Volts
<b>Amperage</b>	0.25 Amps
<b>Wattage</b>	60 Watts
<b>Connector Type</b>	Barrel connector with multiple interchangeable tips
<b>Special Feature</b>	Short Circuit Protection, Intelligent Switching Circuit
<b>Compatible Devices</b>	Rally 7471 Portable 8-in-1 Power Source Jump Starter Power Supply, and other devices requiring 12V DC power with compatible tips.
<b>Item Weight</b>	5 ounces
<b>Package Dimensions</b>	6.7 x 4.69 x 2.32 inches
