

SYLVANIA A19

SYLVANIA A19 LED Light Bulb Instruction Manual

Model: A19

INTRODUCTION

Thank you for choosing the SYLVANIA A19 LED Light Bulb. This manual provides essential information for the safe and efficient use of your new LED bulbs. These energy-efficient, dimmable bulbs are designed to provide soft white light with reduced eye strain, enhancing comfort in your home.

Please read this manual thoroughly before installation and retain it for future reference.

SAFETY INFORMATION

- **Indoor Use Only:** These bulbs are designed for indoor applications. Do not use them in enclosed fixtures unless specified by the fixture manufacturer, as this may reduce bulb lifespan.
- **Electrical Safety:** Always turn off power to the fixture at the circuit breaker or fuse box before installing, removing, or inspecting the bulb.
- **Proper Handling:** Allow the bulb to cool completely before handling if it has been in use. Avoid touching the bulb with wet hands.
- **Compatibility:** Ensure the bulb's voltage (120V) matches your electrical supply. For dimmable bulbs, use only with compatible LED dimmer switches. Using an incompatible dimmer may cause flickering or damage.
- **Non-Toxic Materials:** These bulbs are mercury and lead-free, making them safer for your home and the environment.
- **Disposal:** Dispose of used bulbs according to local regulations.

SETUP AND INSTALLATION

Follow these steps to install your SYLVANIA A19 LED Light Bulb:

1. **Turn Off Power:** Before installation, ensure the power to the light fixture is turned off at the circuit breaker or wall switch.
2. **Remove Old Bulb:** Carefully unscrew the existing bulb from the fixture.
3. **Install New Bulb:** Screw the SYLVANIA A19 LED bulb into the standard E26 base socket. Ensure it is securely tightened, but do not overtighten.
4. **Restore Power:** Turn the power back on at the circuit breaker or wall switch.

Your new LED bulb should illuminate instantly.

OPERATING INSTRUCTIONS

Operating your SYLVANIA A19 LED Light Bulb is straightforward:

- **On/Off:** Use your standard wall switch to turn the light bulb on or off. The bulb provides instant full brightness with no warm-up time.
- **Dimming:** If connected to a compatible LED dimmer switch, adjust the dimmer control to achieve your desired light level. These bulbs are designed to be dimmable, offering flexibility in lighting ambiance.

MAINTENANCE

The SYLVANIA A19 LED Light Bulb requires minimal maintenance:

- **Cleaning:** To clean the bulb, ensure the power is off and the bulb is cool. Gently wipe the bulb with a dry, soft cloth. Do not use liquid cleaners or abrasive materials.
- **No User-Serviceable Parts:** The bulb contains no user-serviceable parts. Do not attempt to open or repair the bulb, as this will void any warranty and may pose a safety risk.

TROUBLESHOOTING

If you encounter issues with your SYLVANIA A19 LED Light Bulb, refer to the following common solutions:

- **Bulb Does Not Light:**
 - Ensure the power switch is on.
 - Check the circuit breaker to ensure power is supplied to the fixture.
 - Verify the bulb is securely screwed into the socket.
 - Test the bulb in another working fixture to confirm it is not faulty.
- **Bulb Flickers or Dims Incorrectly:**

- Ensure you are using a dimmer switch specifically designed for LED bulbs. Incompatible dimmers can cause flickering or poor performance.
- Check the connection of the bulb in the socket; a loose connection can cause flickering.
- Some dimmer switches have adjustment settings for LED compatibility; consult your dimmer's manual.

• **Light Output is Too Low or High:**

- If using a dimmer, adjust the dimmer to your desired brightness level.
- Confirm the bulb's specifications (800 lumens) match your lighting requirements.

If these steps do not resolve the issue, please contact SYLVANIA customer support.

SPECIFICATIONS

Brand	SYLVANIA
Model	A19
Light Type	LED
Special Feature	Dimmable, Reduced Eye Strain
LED Wattage	8 Watts
Incandescent Equivalent	60 Watts
